American Literature And Culture 1900 196:

The City in American Literature and Culture Kevin R. McNamara, 2021-08-05 The city's Americanness has been disputed throughout US history. Pronounced dead in the late twentieth century, cities have enjoyed a renaissance in the twenty-first. Engaging the history of urban promise and struggle as represented in literature, film and visual arts and drawing on work in the social sciences, *The City in American Literature and Culture* examines the large and local forces that shape urban space and city life and the street-level activity that remakes culture and identities as it contests injustice and separation. The first two sections examine a range of city spaces and lives; the final section brings the city into conversation with Marxist geography, critical race studies, trauma theory, slow systemic violence, security theory, posthumanism and critical regionalism, with a coda on city literature and democracy.

American Culture in the 1930s David Eldridge, 2008-10-08 This book provides an insightful overview of the major cultural forms of 1930s America: literature and drama, music and radio, film and photography, art and design, and a chapter on the role of the federal government in the development of the arts. The intellectual context of 1930s American culture is a strong feature, whilst case studies of influential texts and practitioners of the decade, from *War of the Worlds* to *The Grapes of Wrath* and from Edward Hopper to the Rockefeller Centre, help to explain the cultural impulses of radicalism, nationalism and escapism that characterize the United States in the 1930s.

Navigating Women's Friendships in American Literature and Culture Kristi Branham, Kelly L. Reames, 2022-11-10 This volume presents a collection of critical essays that center women's friendship in women's literary and artistic production. Analyzing cultural portrayals of women's friendships in fiction, letters and film, these essays collectively suggest new models of literary interpretation that do not prioritize heterosexual romance. Instead, this book represents friendships as mature and meaningful relationships that contribute to identity formation and political coalition. Both the supportive and competitive aspects of friendships are shown to be crucial to women's identities as individuals, political citizens and artists. Addressing the complexities of how 20th and 21st-century cultural texts construe women's friendships as they navigate patriarchal institutions, this collection advances scholarship on friendship beyond men and masculine models.

Convergence Culture Reconsidered Claudia Georgi, Brigitte Johanna Glaser, 2015 Taking media scholar Henry Jenkins's concept of convergence culture and the related notions of participatory culture and transmedia storytelling as points of departure, the essays compiled in the present volume provide terminological clarification, offer exemplary case studies and discuss the broader implications of such developments for the humanities. Most of the contributions were originally presented at the transatlantic conference *Convergence Culture Reconsidered*, organized by the editors at the Georg-August-Universität Göttingen, Germany, in October 2013. Applying perspectives as diverse as literary, cultural and media studies, digital humanities, translation studies, art history, musicology and ecology, they assemble a stimulating wealth of interdisciplinary and innovative approaches that will appeal to students as well as experts in any of these research areas.

American Literature in Transition, 1940-1950

Christopher Vials, 2017-12-28 In the aftermath of World War II the United States emerged as the dominant imperial power and in US popular memory the Second World War is remembered more vividly than the American Revolution American Literature in Transition 1940-1950 provides crucial contexts for interpreting the literature of this period Essays from scholars in literature history art history ethnic studies and American studies show how writers intervened in the global struggles of the decade the Second World War the Cold War and emerging movements over racial justice gender and sexuality labor and de colonization One recurrent motif is the centrality of the political impulse in art and culture Artists and writers participated widely in left and liberal social movements that fundamentally transformed the terms of social life in the twentieth century not by advocating specific legislation but by changing underlying cultural values This book addresses all the political impulses fueling art and literature at the time as well as the development of new forms and media from modernism and noir to radio and the paperback **Language, Gender, and Citizenship in American Literature, 1789-1919**, **The**

Spanos, 2013-10-01 Inspired by the foreign policy entanglements of recent years William V Spanos offers a dramatic interpretation of Twain's classic A Connecticut Yankee in King Arthur's Court providing a fresh assessment of the place of a global America in the American imaginary Spanos insists that Twain identifies with his protagonist particularly in his defining use of the spectacle and thus with an American exceptionalism that uncannily anticipates the George W Bush administration's normalization of the state of exception and the imperial policy of preemptive war unilateral regime change and shock and awe tactics Equally stimulating is Spanos's thoroughly original ontology of American exceptionalism and imperialism and his tracing of these forces in Twain studies and criticism over the past century *Spider Web, Labyrinth, Tightrope Walk*

Regina Schober,2023-08-07 Spider Web Labyrinth Tightrope Walk explores the shifting functions of the network as a metaphor model and as an epistemological framework in US American literature and culture from the 19th century until today The book critically inquires into the literary cultural philosophical and scientific rhetoric values and ideological underpinnings that have given rise to the network concept Literature and culture play a major role in the ways in which networks have been imagined and how they have evolved as conceptual models This study regards networks as historically emergent and culturally constructed formations closely tied with the development of knowledge technologies in the process of modernization as well as with an increasingly critical awareness of network technologies and infrastructures While the rise of the network in scientific philosophical political and sociological discourses has received wide attention this book contributes an important cultural and historical perspective to network theory by demonstrating how US American literature and culture have been key sites for thinking in and about networks in the past two centuries Agrotopias Abby L.

Goode,2022-08-24 In this book Abby L Goode reveals the foundations of American environmentalism and the enduring partnership between racism eugenics and agrarian ideals in the United States Throughout the nineteenth century writers as diverse as Martin Delany Charlotte Perkins Gilman and Walt Whitman worried about unsustainable conditions such as population growth and plantation slavery In response they imagined agrotopias sustainable societies unaffected by the nation's agricultural and population crises elsewhere Though seemingly progressive these agrotopian visions depicted selective breeding and racial improvement as the path to environmental stability In this fascinating study Goode uncovers an early sustainability rhetoric interested in shaping just as much as sustaining the American population Showing how ideas about race and reproduction were central to early sustainability thinking Goode unearths an alternative environmental archive that ranges from gothic novels to Black nationalist manifestos from Waco Texas to the West Indies from city tenements to White House kitchen gardens Exposing the eugenic foundations of some of our most well regarded environmental traditions this book compels us to reexamine the benevolence of American environmental thought *Hebrew Union College Monthly* ,1916
