American Paradox A History Of The United States Since 1945

Richard R. Verdugo

American Paradox A History Of The United States Since 1945:

The American Paradox Steven M. Gillon, 2003 This reader for courses in recent American history emphasizes political participation and popular culture Its main theme is the relationship of Americans to their government for example how Americans as a people remain skeptical of big government even as they expect it to facilitate large programs such as Social Security Unlike most postwar American history books that are presented in one volume and tend to emphasize the 1950s and 60s The American Paradox comes in a complete version and a version that covers U S history since 1968 providing full coverage and analysis of the 1970s 80s and 90s

Studyguide for the American Paradox: a History of the United States Since 1945 by Steven M. Gillon, ISBN 9781133309857 Cram101 Textbook Reviews, 2013-01-01 Never HIGHLIGHT a Book Again Virtually all of the testable terms concepts persons places and events from the textbook are included Cram101 Just the FACTS101 studyguides give all of the outlines highlights notes and quizzes for your textbook with optional online comprehensive practice tests Only Cram101 is Textbook Specific Accompanys 9781133309857 **American Paradox Since 1945 and Griffith Major Problems in American History, Second Edition** Steven M. Gillon, 2003-03-01

Studyguide for the American Paradox Cram101 Textbook Reviews, 2007-08 Never HIGHLIGHT a Book Again Virtually all of the testable terms concepts persons places and events from the textbook are included Cram101 Just the FACTS101 studyguides give all of the outlines highlights notes and quizzes for your textbook with optional online comprehensive practice tests Only Cram101 is Textbook Specific Accompanys 9780618150144 The Untold History of the United States Oliver Stone, Peter Kuznick, 2013-10-15 Companion to the documentary series of the same name *A Patriot's History of the United States* Larry Schweikart, Michael Allen, 2014-11-25 For the past three decades many history professors have allowed their biases to distort the way America's past is taught These intellectuals have searched for instances of racism sexism and bigotry in our history while downplaying the greatness of America's patriots and the achievements of dead white men As a result more emphasis is placed on Harriet Tubman than on George Washington more about the internment of Japanese Americans during World War II than about D Day or Iwo Jima more on the dangers we faced from Joseph McCarthy than those we faced from Josef Stalin *A Patriot's History of the United States* corrects those doctrinaire biases In this groundbreaking book America's discovery founding and development are reexamined with an appreciation for the elements of public virtue personal liberty and private property that make this nation uniquely successful This book offers a long overdue acknowledgment of America's true and proud history **A Companion to Dwight D. Eisenhower** Chester J. Pach, 2017-04-07 A Companion to Dwight D Eisenhower brings new depth to the historiography of this significant and complex figure providing a comprehensive and up to date depiction of both the man and era Thoughtfully incorporates new and significant literature on Dwight D Eisenhower Thoroughly examines both the Eisenhower era and the man himself broadening the historical scope by which Eisenhower is understood and interpreted Presents a complete picture of

Eisenhower's many roles in historical context the individual general president politician and citizen This Companion is the ideal starting point for anyone researching America during the Eisenhower years and an invaluable guide for graduate students and advanced undergraduates in history political science and policy studies Meticulously edited by a leading authority on the Eisenhower presidency with chapters by international experts on political international social and cultural history

Race Relations in the United States, 1960-1980 T. Adams Upchurch, 2007-12-30 Few decades in American history were as full of drama and historical significance as the 1960s and 1970s In the 1960s a revolution in race relations occurred seeing the rise of the Civil Rights Movement Black Power the American Indian Movement and the Latino labor movement The focus in the 1970s was on carrying out the reforms of the previous decade with resulting white backlash Few decades have interested students today as much and this volume is THE content rich source in a desirable decade by decade organization to help students and general readers understand the crucial race relations of the recent past Race Relations in the United States 1960 1980 provides comprehensive reference coverage of the key events influential voices race relations by group legislation media influences cultural output and theories of inter group interactions

Building the American Republic, Volume 2 Jane Dailey, 2018-01-04 Building the American Republic combines centuries of perspectives and voices into a fluid narrative of the United States Throughout their respective volumes Harry L Watson and Jane Dailey take care to integrate varied scholarly perspectives and work to engage a diverse readership by addressing what we all share membership in a democratic republic with joint claims on its self governing tradition It will be one of the first peer reviewed American history textbooks to be offered completely free in digital form Visit buildingtheamericanrepublic.org for more information The American nation came apart in a violent civil war less than a century after ratification of the Constitution When it was reborn five years later both the republic and its Constitution were transformed Volume 2 opens as America struggles to regain its footing reeling from a presidential assassination and facing massive economic growth rapid demographic change and combusive politics The next century and a half saw the United States enter and then dominate the world stage even as the country struggled to live up to its own principles of liberty justice and equality Volume 2 of Building the American Republic takes the reader from the Gilded Age to the present as the nation becomes an imperial power rethinks the Constitution witnesses the rise of powerful new technologies and navigates an always shifting cultural landscape shaped by an increasingly diverse population Ending with the 2016 election this volume provides a needed reminder that the future of the American republic depends on a citizenry that understands and can learn from its history

American Education and the Demography of the US Student Population, 1880 - 2014 Richard R. Verdugo, 2018-09-28 This monograph examines changes in the American public school population from 1900 to 2010 It shows how different historical periods have affected the composition of the student body and have posed important challenges to those involved in shaping educational policy The author first develops an analytical framework that merges education and applied demography concepts The

education concepts include attendance promotion retention high school graduation and college enrollment While the applied demography concepts take into account size distribution and composition He then applies this framework to the four most recent American historical periods the Progressive Era the Great Depression the Post WWII Era and the Post 1983 Era Readers will come to understand the changing socio demographic profile of American schools due to such factors as immigration from Europe child labor laws internal migration greater fertility and the rise of the Baby Boom generation the changing status of women and minorities the urban crises rising social inequality the 2008 recession and globalization Featuring both historical and current data this volume clearly shows how demographic change affects the teaching and learning environment education policy funding and school segregation Overall it offers insightful analysis that may help shape the future of American education

Lee Harvey Oswald: 48 Hours to Live Steven M. Gillon, 2013-11-05 What did Lee Harvey Oswald do in the 48 hours after he shot President John F Kennedy This riveting companion to the upcoming History Channel documentary follows Oswald in the immediate aftermath of the assassination searching for the answers to the questions that have troubled America for a half century Did he actually pull the trigger Was he alone And if so why Steven M Gillon Scholar in Residence at the History Channel explores the possibility that Cuban intelligence officials may have encouraged Oswald to commit the crime and promised to help him escape Gillon recreates in painstaking detail the long interrogation sessions and reveals that many of the police officers who witnessed the sessions were convinced that Oswald had received special training He was simply too good at deflecting questions too smart too confident With new information from recently declassified documents and revealing photos and documents these pages offer a refreshingly new and complicated portrait of the man who assassinated President John F Kennedy

Imperialism and Expansionism in American History Chris J. Magoc, David Bernstein, 2015-12-14 This four volume encyclopedia chronicles the historical roots of the United States current military dominance documenting its growth from continental expansionism to hemispheric hegemony to global empire This groundbreaking four volume encyclopedia offers sweeping coverage of a subject central to American history and of urgent importance today as the nation wrestles with a global imperial posture and the long term viability of the largest military establishment in human history The work features more than 650 entries encompassing the full scope of American expansionism and imperialism from the colonial era through the 21st century War on Terror Readers will learn about U S Native American conflicts 19th century land laws early forays overseas for example the opening of Japan and America s imperial conflicts in Cuba and the Philippines U S interests in Latin America are explored as are the often forgotten ambitions that lay behind the nation s involvement in the World Wars The work also offers extensive coverage of the Cold War and today s ongoing conflicts in Iraq Afghanistan Africa and the Middle East as they relate to U S national interests Notable individuals including American statesmen military commanders influential public figures and anti imperialists are covered as well The inclusion of cultural elements of American expansionism and imperialism for example

Hollywood films and protest music helps distinguish this set from other more limited works Citizen Hollywood Timothy Stanley,2014-05-13 To most Americans Hollywood activism consists of self obsessed movie stars making transparently liberal films in a desperate bid for Academy Award glory There s some truth in that stereotype But celebrity activism also exerts a subtle power over the American political process Through money networking and image making the movie industry has shaped the way that politics works for nearly a century It has helped to forge a culture that is obsessed with celebrity and spectacle In return politics has become part of the fabric of Hollywood society Using original archival research and exclusive interviews with stars directors producers and politicians from both parties Timothy Stanley s Citizen Hollywood tells the story of how Hollywood revolutionized American politics

Boomer Nation Steve Gillon,2010-05-11 The Baby Boomers born between 1946 and 1964 form the single largest demographic spike in American history Never before or since have birth rates shot up and remained so high so long with some obvious results when the Boomers were kids American culture revolved around families and schools when they were teenagers the United States was wracked by rebelliousness now as mature adults the Boomers have led America to become the richest and most powerful country in the history of the world Boomer Nation will for the first time offer an incisive look into this generation that has redefined America s culture in so many ways from women s rights and civil rights to religion and politics Steve Gillon combines firsthand reporting of the lives of six Boomers and their families with a broad look at postwar American history in a fascinating mix of biography and history His characters like America itself reflect a variety of heritages rich and poor black and white immigrant and native born Their lives take very different paths yet are shaped by key events and trends in similar ways They put a human face on the Boomer generation showing what it means to grow up amid widespread prosperity with an explosion of democratic autonomy that led to great upheavals but also a renewal from below of our churches industries and even the armed forces The same generation dismissed as pampered and selfish has led a revival of religion in America the same generation that unleashed the women s movement has also shifted our politics into its most market oriented anti governmental era since Woodrow Wilson Gillon draws many lessons from this generational history above all that the Boomers have transformed America from the security and authority seeking culture of their parents to the autonomy and freedom rich world of today When the greatest generation was young and not yet at war it was widely derided as selfish and spoiled Only in hindsight long after the sacrifices of World War II did it gain its sterling reputation Today as Boomer America rises to the challenges of the war on terror we may be on the cusp of a reevaluation of the generation of Presidents Bush and Clinton That generation has helped make America the richest strongest nation on the planet and as Gillon s book proves it has had more influence on the rest of us than any other group Boomer Nation is an eye opening reinterpretation of the past six decades

Presidents at War Steven M. Gillon,2025-02-18 Steven M Gillon historian and New York Times bestselling author is back with the story of how WWII shaped the characters and politics of seven American presidents World War II loomed over the latter half of the

twentieth century transforming every level of American society and international relationships and searing itself onto the psyche of an entire generation including that of seven American presidents Dwight D Eisenhower John F Kennedy Lyndon B Johnson Richard Nixon Gerald Ford Ronald Reagan and George H W Bush The lessons of World War II more than party affiliation or ideology defined the presidencies of these seven men They returned home determined to confront any force that threatened to undermine the war's hard won ideals each with their own unique understanding of patriotism sacrifice and America's role in global politics In *Presidents at War* Gillon examines what these men took away from the war and how they then applied it to Cold War policies that proceeded to change America and the world forever A nuanced and deeply researched exploration of the lives philosophies and legacies of seven remarkable men *Presidents at War* deftly argues that the lessons learned by these postwar presidents continue to shape the landscape upon which current and future presidents stand today

The Legacy of St. George Tucker Chad Vanderford, 2024-01-12 In *The Legacy of St George Tucker* Chad Vanderford provides a cogent longitudinal explication of how Virginia intellectuals constructed and defined proslavery ideology and state rights He reminds twenty first century readers that in order to judge late eighteenth and early nineteenth century thinkers fairly they must position basic political ideas within the context of their day not ours Vanderford's book will prove valuable not only for students and researchers of political theory but also of southern intellectual life and the political worlds of the Colonial Early National and Old South John David Smith Charles H Stone Distinguished Professor of American History University of North Carolina at Charlotte Historians born during and after the Civil Rights movement have struggled to take the proslavery and pro secession arguments of the eighteenth and nineteenth century South seriously They generally tend to lump the two theories together as components of one ideology and then attempt to write it out of the political norms of American life In this groundbreaking study Vanderford isolates the different ideological strands in southern political thought of this era and works to understand these ideas in the context of their time St George Tucker 1752 1827 Founding Father professor and political theorist saw clearly that slavery runs against the grain of the values articulated in the Declaration of Independence Under certain narrowly construed circumstances however he thought it necessary to tolerate slavery He viewed secession as an extreme step but one that the Declaration of Independence left open as a possibility for all free states St George Tucker's arguments hinged on a modern view of natural right that builds on the premise that political power can only be legitimate if it rests on the consent of the governed He believed that equally free and independent individuals constructed a voluntary union of equally free and independent states His son Henry Tucker 1780 1848 and grandson John Randolph Tucker 1823 1897 sought to defend this ideology of modern natural right against fellow professors North and South who tended to replace it with the ancient ideology of natural right the view that wisdom gives one the title to command Many southern intellectuals came to believe that individuals are not equally free and independent by nature many northerners came to argue that the states had never been equally free and independent These disagreements

contributed to the outbreak of the Civil War At once a work of intellectual history that shows the key role played by professors in helping to formulate southern ideology as well as a recovery of rarely explored arguments this work wrestles with one of the greatest challenges of intellectual history the effort to understand the most controversial ideas of the past on their own terms while searching for the genealogy that connects the past to the present CHAD VANDERFORD is an associate professor of history at the University of Texas of the Permian Basin His articles and reviews have appears in publications including Civil War History the Journal of Southern History and the Virginia Magazine of History and Biography *The American Paradox* Patrick J. Gallo,1999 **The Anxiety of Ascent** Scott Doidge,2018-09-03 This intriguing book re evaluates a narrative of cultural decline that developed in the wake of Max Weber s The Protestant Ethic and the Spirit of Capitalism For Weber and a group of influential sociologists that followed Western modernity is marked by growing disenchantment with the beliefs and values that had previously given a sense of structure and meaning to life Despite its unparalleled material achievements the modern West in this reading is suffering from a crisis of meaning and is no longer able to provide authoritative answers to the only really important question What shall we do and how shall we live This book examines two influential responses to this question the German bourgeois ideal of the late nineteenth century and the mid twentieth century American celebration of the middle class In each period the exploration is guided by a close reading of a contemporary and retrospective text For Germany Gustav Freytag s novel Debt and Credit 1855 is read against Thomas Mann s Buddenbrooks 1901 and for the US the domestic comedy Father Knows Best 1954 1960 is read against the cable television drama Mad Men 2007 2015 The Anxiety of Ascent casts Weber s narrative in a more optimistic light pointing towards the redemptive possibilities contained within everyday life As such it will appeal to sociologists and cultural studies scholars interested in cultural sociology social theory morality meaning and the culture of middle class life **Hollywood and Anticommunism** John J. Gladchuk,2013-10-11 This work concentrates on tracing the evolution of the so called red menace phenomenon as a means of demonstrating the correlation between growing American paranoia and the success of the anticommunist campaign 1935 1955 The House Committee on Un American Activities 1947 investigation of Hollywood the nation s most visible industry served a critical role in conjuring up anti red hysteria and fanning the flames of virulent anticommunism Using conveniently unjust tactics the Committee painted targeted Hollywood personalities red and established the infamous blacklist certified proof in the minds of many that subversives were indeed conspiring from within A failed attempt on behalf of the Hollywood Ten to demonstrate the Committee s undemocratic nature allowed HUAC to forge ahead with its investigation and establish the anticommunist foundation upon which Joseph McCarthy would construct his campaign Hollywood and Anticommunism stands as an important contribution to McCarthy era literature and should appeal to all interested in the early Cold War and the impact that unwarranted hysteria has had and continues to have on the growth and development of the nation **Writing History with Lightning** Matthew Christopher Hulbert,John C.

Inscoe, 2019-02-05 Films possess virtually unlimited power for crafting broad interpretations of American history Nineteenth century America has proven especially conducive to Hollywood imaginations producing indelible images like the plight of Davy Crockett and the defenders of the Alamo Pickett's doomed charge at Gettysburg the proliferation and destruction of plantation slavery in the American South Custer's fateful decision to divide his forces at Little Big Horn and the onset of immigration and industrialization that saw Old World lifestyles and customs dissolve amid rapidly changing environments Balancing historical nuance with passion for cinematic narratives Writing History with Lightning confronts how movies about nineteenth century America influence the ways in which mass audiences remember understand and envision the nation's past In these twenty six essays divided by the editors into sections on topics like frontiers slavery the Civil War the Lost Cause and the West notable historians engage with films and the historical events they ostensibly depict Instead of just separating fact from fiction the essays contemplate the extent to which movies generate and promulgate collective memories of American history Along with new takes on familiar classics like Young Mr Lincoln and They Died with Their Boots On the volume covers several films released in recent years including The Revenant 12 Years a Slave The Birth of a Nation Free State of Jones and The Hateful Eight The authors address Hollywood epics like The Alamo and Amistad arguing that these movies flatten the historical record to promote nationalist visions The contributors also examine overlooked films like Hester Street and Daughters of the Dust considering their portraits of marginalized communities as transformative perspectives on American culture By surveying films about nineteenth century America Writing History with Lightning analyzes how movies create popular understandings of American history and why those interpretations change over time

American Paradox A History Of The United States Since 1945 Introduction

In today's digital age, the availability of American Paradox A History Of The United States Since 1945 books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of American Paradox A History Of The United States Since 1945 books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of American Paradox A History Of The United States Since 1945 books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing American Paradox A History Of The United States Since 1945 versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, American Paradox A History Of The United States Since 1945 books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing American Paradox A History Of The United States Since 1945 books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for American Paradox A History Of The United States Since 1945 books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of

Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, American Paradox A History Of The United States Since 1945 books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of American Paradox A History Of The United States Since 1945 books and manuals for download and embark on your journey of knowledge?

FAQs About American Paradox A History Of The United States Since 1945 Books
