Lawless

Capitalism Steven A. Ramirez,2014-06 In this innovative and exhaustive study Steven A Ramirez posits that the subprime mortgage crisis as well as the global macroeconomic catastrophe it spawned is traceable to a gross failure of law The rule of law must appropriately channel and constrain the exercise of economic and political power Used effectively it ensures that economic opportunity isn t limited to a small group of elites that enjoy growth at the expense of many particularly those in vulnerable economic situations In *Lawless Capitalism* Ramirez calls for the rule of law to displace crony capitalism Only through the rule of law he argues can capitalism be reconstructed American Government James Q.
