Long Time Gone Sixties America Then And Now Viewpoints On American Culture

Gina Misiroglu

Long Time Gone Sixties America Then And Now Viewpoints On American Culture:

Long Time Gone Alexander Bloom,2001 Read This Book Before you pick it up you ll wonder if it is possible to say anything new about the 1960s When you put it down you ll marvel at the freshness and originality of what you have read by scholars journalists and activists Daniel Horowitz Smith College and author of *Betty Friedan and the Making of The Feminine Mystique*

Long Time Gone Alexander Bloom,2001-05-03 With remarkable speed the Sixties have gone from lived history to mythology They remain alive in our culture in a manner different from any previous era At the dawn of a new century we are still debating the issues that emerged during that decade still living in the conscious aftermath of its events and transformations This collection looks back at the Sixties attempting to understand the issues of the day on their own terms and to think about their meanings in today s world Alexander Bloom has gathered ten original essays each of which explores the gulf between history and myth regarding a central characteristic of the Sixties Topics covered include civil rights the student movement and the New Left the Vietnam War the antiwar movement gay rights the counterculture and the women s movement *Long Time Gone* dispels myths about the Sixties and constructs an accurate vision of the past and an understanding of its impact on the modern world It is an invaluable resource for anyone seeking deeper knowledge of this incredible decade and its continuing influence on American culture

Long Time Gone Alexander Bloom,2023 This study examines the gulf between the history and mythology that has grown up around different aspects of the 1960s ranging from the counterculture to gay rights to the student and women s movements and to the Johnson presidency

Living in the Eighties Gil Troy,Vincent J. Cannato,2009-10-22 In this volume in the Viewpoints on American Culture series senior and junior scholars as well as one former Reagan official and a leading record executive assess the cultural social economic and political significance of the 1980s

American Patriotism, American Protest Simon Hall,2011-06-06 During the 1970s and beyond political causes both left and right the gay rights movement second wave feminism the protests against busing to desegregate schools the tax revolt and the anti abortion struggle drew inspiration from the protest movements of the 1960s Indeed in their enthusiasm for direct action tactics their use of street theater and their engagement in grassroots organizing activists in all these movements can be considered children of the Sixties Invocations of America s founding ideals of liberty and justice and other forms of patriotic protest have also featured prominently in the rhetoric and image of these movements Appeals to the Declaration of Independence and the Bill of Rights have been made forcefully by gay rights activists and feminists for instance while participants in the antibusing movement the tax revolt and the campaign against abortion rights have waved the American flag and claimed the support of the nation s founders In tracing the continuation of quintessentially Sixties forms of protest and ideas into the last three decades of the twentieth century and in emphasizing their legacy for conservatives as well as those on the left *American Patriotism American Protest* shows that the activism of the civil rights New Left and anti Vietnam War movements has shaped America s modern political culture in decisive ways As well as

providing a refreshing alternative to the rise and fall narrative through which the Sixties are often viewed Simon Hall's focus on the shared commitment to patriotic protest among a diverse range of activists across the political spectrum also challenges claims that in recent decades patriotism has become the preserve of the political right Full of original and insightful observations and based on extensive archival research *American Patriotism American Protest* transforms our understanding of the Sixties and their aftermath

American Countercultures: An Encyclopedia of Nonconformists, Alternative Lifestyles, and Radical Ideas in U.S. History Gina Misiroglu, 2015-03-26 Counterculture while commonly used to describe youth oriented movements during the 1960s refers to any attempt to challenge or change conventional values and practices or the dominant lifestyles of the day This fascinating three volume set explores these movements in America from colonial times to the present in colorful detail *American Countercultures* is the first reference work to examine the impact of countercultural movements on American social history It highlights the writings recordings and visual works produced by these movements to educate inspire and incite action in all eras of the nation's history A-Z entries provide a wealth of information on personalities places events concepts beliefs groups and practices The set includes numerous illustrations a topic finder primary source documents a bibliography and a filmography and an index

1968 Robert C. Cottrell, Blaine T. Browne, 2018-05-18 The year 1968 retains its mythic hold on the imagination in America and around the world Like the revolutionary years 1789 1848 1871 1917 and 1989 it is recalled most of all as a year when revolution beckoned or threatened On the 50th anniversary of that tumultuous year cultural historians Robert Cottrell and Blaine T. Browne provide a well informed up to date synthesis of the events that rocked the world emphasizing the revolutionary possibilities more fully than previous books For a time it seemed as if anything were possible that utopian visions could be borne out in the political cultural racial or gender spheres It was the year of the Tet Offensive the Resistance the Ultra Resistance the New Politics Chavez and RFK breaking bread LBJ's withdrawal student revolt barricades in Paris the Prague Spring SDS sharp turn leftward communes the American Indian Movement the Beatles Revolution the Stones Street Fighting Man The Population Bomb protest at the Miss America pageant and Black Power at the Mexico City Olympics 1968 was also the year of My Lai the assassinations of Martin Luther King Jr and Robert F Kennedy Warsaw Pact tanks in Czechoslovakia the police riot in Chicago the Tlatelolco massacre Reagan's belated bid Wallace's American Independent Party campaign Love It or Leave It and the backlash that set the stage at year's end for Richard Milhous Nixon's ascendancy to the White House For those readers reliving 1968 or exploring it for the first time Cottrell and Browne serve as insightful guides weaving the events together into a powerful narrative of an America and a world on the brink

Renaissance Festivals Kimberly Tony Korol-Evans, 2009-10-21 This ethnographic study of contemporary American Renaissance fairs focuses on the Maryland Renaissance Festival in which participants recreate sixteenth century England through performances of theater combat at arms processions street hawking and meticulously faithful historical reconstructions It is also partly an

autobiographical account of interactive improvisation subcultures within the festival framework the delineation between living history and historical elaboration and a new understanding of performers and patrons

Psychedelic Mysticism Morgan Shipley, 2015-11-12 Concerned with scholarly popular and religious backdrops that understand the connection between psychedelics and mystical experiences to be devoid of moral concerns and ethical dimensions a position supported empirically by the rise of acid fascism and psychedelic cults by the late 1960s *Psychedelic Mysticism Transforming Consciousness Religious Experiences and Voluntary Peasants in Postwar America* traces the development of sixties psychedelic mysticism from the deconditioned mind and perennial philosophy of Aldous Huxley to the sacramental ethics of Timothy Leary Richard Alpert and Ralph Metzner to the altruistic religiosity practiced by Stephen Gaskin and The Farm Building directly off the pioneering psychedelic writing of Huxley these psychedelic mystics understood the height of psychedelic consciousness as an existential awareness of unitive oneness a position that offered worldly alternatives to the maladies associated with the postwar moment e g vapid consumerism and materialism lifeless conformity unremitting racism heightened militarism In opening a doorway to a common world Morgan Shipley locates how psychedelics challenged the coherency of Western modernity by fundamentally reorienting postwar society away from neoliberal ideologies and toward a sacred understanding of reality defined by mutual coexistence and responsible interdependence In 1960s America psychedelics catalyzed a religious awakening defined by compassion expressed through altruism and actualized in projects that sought to ameliorate the conditions of the least advantaged among us In the exact moments that historians and cultural critics often locate as signaling the death knell of the counterculture Gaskin and The Farm emerged not as a response to the perceived failures of the hippies nor as an alternative to sixties politics but in an effort to fulfill the religious obligation to help teach the world how to live more harmoniously Today as we continue to confront issues of socioeconomic inequality entrenched differences widespread violence and the limits of religious pluralism *Psychedelic Mysticism* serves as a timely reminder of how religion in America can operate as a tool for destabilization and as a means to actively reimagine the very basis of how people relate such a legacy can aid in our own efforts to build a more peaceful sustainable and compassionate world

Thomas Pynchon and American Counterculture Joanna Freer, 2014-09-22 This volume explores the complex fiction of Thomas Pynchon within the context of 1960s counterculture

Revisiting the Sixties Laura Bieger, Christian Lammert, 2013-11 The Vietnam War the Cuban Missile Crisis the Civil Rights Movement and the Summer of Love the 1960s were one of the most turbulent decades in US history These years launched an unprecedented public debate over the meaning of America dividing US society in deep and troubling ways Yet despite the passage of time the contemporary crises in the American way of life and the political system that sustain it might well make one wonder to what degree are we still living on the outskirts of the 60s By examining crucial events trends and individuals from the civic social political intellectual cultural and economic spheres across a range of disciplines this volume offers a nuanced and pluralist account of the longest

decade in America The North American Folk Music Revival: Nation and Identity in the United States and Canada, 1945-1980 Gillian Mitchell, 2016-02-17 This work represents the first comparative study of the folk revival movement in Anglophone Canada and the United States and combines this with discussion of the way folk music intersected with and was structured by conceptions of national affinity and national identity Based on original archival research carried out principally in Toronto Washington and Ottawa it is a thematic rather than general study of the movement which has been influenced by various academic disciplines including history musicology and folklore Dr Gillian Mitchell begins with an introduction that provides vital context for the subject by tracing the development of the idea of the folk folklore and folk music since the nineteenth century and how that idea has been applied in the North American context before going on to examine links forged by folksong collectors artists and musicians between folk music and national identity during the early twentieth century With the boom of the revival in the early sixties came the ways in which the movement in both countries proudly promoted a vision of nation that was inclusive pluralistic and eclectic It was a vision which proved compatible with both Canada and America enabling both countries to explore a diversity of music without exclusiveness or narrowness of focus It was also closely linked to the idealism of the grassroots political movements of the early 1960s such as integrationist civil rights and the early student movement After 1965 this inclusive vision of nation in folk music began to wane While the celebrations of the Centennial in Canada led to a re emphasis on the Canadianness of Canadian folk music the turbulent events in the United States led many ex revivalists to turn away from politics and embrace new identities as introspective singer songwriters Many of those who remained interested in traditional folk music styles such as Celtic or Klezmer music tended to be very insular and conservative in their approach rather than linking their chosen genre to a wider world of folk music however more recent attempts at fusion or world music suggest a return to the eclectic spirit of the 1960s folk revival Thus from 1945 to 1980 folk music in Canada and America experienced an evolving and complex relationship with the concepts of nation and national identity Students will find the book useful as an introduction not only to key themes in the folk revival but also to concepts in the study of national identity and to topics in American and Canadian cultural history Academic specialists will encounter an alternative perspective from the more general broad approach offered by earlier histories of the folk revival movement **The Grizzlies Migrate to Memphis** Lukasz Muniowski, 2023-10-20 Following the 1992 Olympics in Barcelona and the success and celebrity of the Dream Team the NBA became a global sensation Around the same time and despite ardent warnings from his parents Arthur Griffiths purchased an NBA team that would become the expansion Vancouver Grizzlies Who better to restore the Dream City he thought than the NBA Expansion franchises went to Vancouver and Toronto the Canadian cities of choice as the NBA grew its international brand But while Toronto thrived under the rising star of Vince Carter Vancouver floundered under serial mismanagement Six seasons wasted the Grizzlies relocated to Memphis where they clawed their way to victories both on the court and in the hearts of the city's eager fanbase

More than two decades later the Memphis Grizzlies continue to win claiming NBA records for defeating as an eight seed club the one seed San Antonio Spurs in the 2011 playoffs only the fourth franchise to have done so and for defeating in 2021 the Oklahoma City Thunder 152 73 the largest margin of victory in NBA history So why did the NBA fail in Vancouver but thrive in Memphis This is the question ukasz Muniowski seeks to answer in *The Grizzlies Migrate to Memphis From Vancouver Failure to Southern Success* In his pursuit he explores how the Vancouver Grizzlies came to be the team s evolution and eventual relocation to Memphis the success the Grizzlies found there and the differences between the two phases of this NBA franchise Rooted strongly in media coverage of the Grizzlies franchise in both Vancouver and Memphis *The Grizzlies Migrate to Memphis* offers a thoughtful blend of storytelling and analysis that will interest scholars and NBA enthusiasts alike

Hippies of the Religious Right Preston Shires,2007 This volume demonstrates that the Christian Right has a surprising past Historical analysis reveals that the countercultural movements and evangelicalism share a common heritage Shires warns that political operatives in both parties need to heed this fact if they hope to either in the case of the Republican Party retain their evangelical constituency or in the case of the Democratic Party recruit new evangelical voters

Peace and Freedom Simon Hall,2011-06-07 Two great social causes held center stage in American politics in the 1960s the civil rights movement and the antiwar groundswell in the face of a deepening American military commitment in Vietnam In *Peace and Freedom* Simon Hall explores two linked themes the civil rights movement s response to the war in Vietnam on the one hand and on the other the relationship between the black groups that opposed the war and the mainstream peace movement Based on comprehensive archival research the book weaves together local and national stories to offer an illuminating and judicious chronicle of these movements demonstrating how their increasingly radicalized components both found common cause and provoked mutual antipathies *Peace and Freedom* shows how and why the civil rights movement responded to the war in differing ways explaining black militants hostility toward the war while also providing a sympathetic treatment of those organizations and leaders reluctant to take a stand And while Black Power counterculturalism and left wing factionalism all made interracial coalition building more difficult the book argues that it was the peace movement s reluctance to link the struggle to end the war with the fight against racism at home that ultimately prevented the two movements from cooperating more fully Considering the historical relationship between the civil rights movement and foreign policy Hall also offers an in depth look at the history of black America s links with the American left and with pacifism With its keen insights into one of the most controversial decades in American history *Peace and Freedom* recaptures the immediacy and importance of the time

Race Mixing Suzanne W. Jones,2006-02-15 In the southern United States there remains a deep need among both black and white writers to examine the topic of race relations whether they grew up during segregation or belong to the younger generation that graduated from integrated schools In *Race Mixing* Suzanne Jones offers insightful and provocative readings of contemporary novels the work of a wide range of writers black and white established

and emerging Their stories explore the possibilities of cross racial friendships examine the repressed history of interracial love reimagine the Civil Rights era through children s eyes herald the reemergence of the racially mixed character investigate acts of racial violence and interrogate both rural and urban racial dynamics Employing a dynamic model of the relationship between text and context Jones shows how more than thirty relevant writers including Madison Smartt Bell Larry Brown Bebe Moore Campbell Thulani Davis Ellen Douglas Ernest Gaines Josephine Humphreys Randall Kenan Reynolds Price Alice Walker and Tom Wolfe illuminate the complexities of the color line and the problems in defining racial identity today While an earlier generation of black and white southern writers challenged the mythic unity of southern communities in order to lay bare racial divisions Jones finds in the novels of contemporary writers a challenge to the mythic sameness within racial communities and a broader definition of community and identity Closely reading these stories about race in America *Race Mixing* ultimately points to new ways of thinking about race relations We need these fictions Jones writes to help us imagine our way out of the social structures and mind sets that mythologize the past fragment individuals prejudice people and divide communities

Antiquity and Social Reform Dawn Hutchinson,2010-06-09 Although religious innovation in America has historically been the norm rather than the exception mainstream Americans have often viewed new religious movements with suspicion and occasionally with outright alarm The question motivating many studies of new religious movements has been why would someone join these religions In *Antiquity and Social Reform* Dawn Hutchinson offers at least one answer to this often repeated query She argues that followers of new religious movements in the 1960s 1980s specifically the Unification Church Feminist Wicca and the Nation of Yahweh considered these religions to be legitimate because they offered members a personal religious experience a connection to an ancient tradition and agency in improving their world Utilizing an historical approach *Antiquity and Social Reform* considers the conversion narratives of adherents and primary literature of the formative years of these movements which demonstrates that the religious experiences of the adherents and a resonance with the goals of these religions propelled members into social action

Pop Goes the Decade Martin Kich,Aaron Barlow,2020-01-07 Analyzing complex social and political issues through their manifestations in popular culture this book provides readers a strong foundational knowledge of the 1960s as a decade 1969 went out in a way that could never have been imagined in 1960 While the president at the end of the decade had been vice president at the start the intervening years permanently changed American culture *Pop Goes the Decade The Sixties* explores the cultural and social framework of the 1960s addressing film television sports technology media advertising fashion art and more Entries are presented in encyclopedic fashion organized into such categories as controversies in pop culture game changers technology and the decade s legacy A timeline highlights significant cultural moments while an introduction and a conclusion place those moments within the contexts of preceding and subsequent decades Attention to the decade s most prominent influencers allows readers to understand the movements with which these figures are associated and discussion of

controversies and social change enables readers to gain a stronger understanding of evolving American social values *The Performative Ground of Religion and Theatre* David V. Mason, 2018-10-26 Religious practitioners and theatregoers have much in common So much in fact that we can say that religion is often a theatrical phenomenon and that theatre can be a religious experience By examining the phenomenology of religion we can in turn develop a better understanding of the phenomenology of theatre That is to say religion can show us the ways in which theatre is not fake This study explores the overlap of religion and theatre especially in the crucial area of experience and personal identity Reconsidering ideas from ancient Greece premodern India modern Europe and the recent century it argues that religious adherents and theatre audiences are largely themselves the mechanisms of their experiences By examining the development of the philosophy of theatre alongside theories of religious action this book shows how we need to adjust our views of both Featuring attention to influential notions from Plato and Aristotle from the Natyashastra from Schleiermacher to Sartre Bourdieu and Butler and considering contemporary theories of performance and ritual this is vital reading for any scholar in religious studies theatre and performance studies theology or philosophy International Bibliography of Book Reviews of Scholarly Literature Chiefly in the Fields of Arts and Humanities and the Social Sciences ,2001
