Global Talent Management Akram Al Ariss, 2014-04-28 This book bridges the research and practice of global talent management. It opens important theoretical and practical avenues to understand the concept internationally while focusing on developing and emerging countries. Chapters derive from various geographic regions and embrace cross-national comparative and interdisciplinary perspectives. These three dimensions are crucial to academic researchers and business practitioners for envisioning a positive future role of talent management in businesses and societies.

Cultural Sociology of the Middle East, Asia, and Africa Andrea L. Stanton, 2012 In our age of globalization and multiculturalism, it has never been more important to understand and appreciate all cultures across the world. The four volumes take a step forward in this endeavour by presenting concise information on those regions least well known to students across Europe, the Middle East, Asia, and Africa. The volumes convey what daily life is like for people in these selected regions. Entries will aid readers in understanding the importance of cultural sociology to appreciate the effects of cultural forces around the world and to learn the history of countries and cultures within these important regions. Key Features: Topics are explored within historical context in three broad historical periods: prehistory to 1250, 1250 to 1920, and 1920 to the present. One volume each is devoted to the regions of the Middle East and Africa, and then one volume to East and Southeast Asia, and a final volume to West Central and South Asia. The volumes include extensive use of photographs and maps to explain cultural and geographic content. Each volume has its own volume editor with expertise in that particular region. Key Themes: Arts, Culture, and Science; People, Society, and Dynasties; Religion and Law; Family and Daily Life; Conflicts and Wars; Politics and Government; Health and Education; Economy, Trade, and Industry; National Geography and History.
