Wisdom Learning Wendelin Küpers, Olen Gunnlaugson, 2016-12-01 In traditional business circles wisdom is viewed

with a certain scepticism which is in part due to its historical associations with wisdom traditions and spiritual cultures. However in business today wisdom is emerging not only as a viable but also a necessary organizational and management practice. In particular practical wisdom is being updated and retranslated for today's issues and concerns in organizations. In recent years leadership and organizational studies have initiated important changes in the way in which business as usual is conducted. In response to the increasingly complex and uncertain conditions of our international business environment a growing community of scholar practitioners are pushing the boundaries of traditional organizational and leadership thinking and acting making inroads into processes and applications of practical wisdom and ways of wise leading and managing. Given the unprecedented levels of challenges dynamics and uncertainties that today's organizations are exposed to there is a need for a more integrative and sustainable approach to managing. Following the need for a reconsideration and revival of the meaning of wisdom the editors explore vitalizing possibilities for the learning of wise practices in organizing and leading. This expansive range of domains where wisdom is currently being explored suggests a promising number of perspectives and possibilities for future inquiries and explorations into the nexus of wisdom and organization leadership management education and learning that benefits from cross disciplinary synergies. This book will be of interest to those seeking to understand the growing significance of wisdom in relation to learning and teaching especially in business and management education.

Cognitive Information Processing: Career Theory, Research, and Practice V. Casey Dozier, Susan Epstein, Jeff W. Garis, Myrna Hoover, Justin D. Hultman, Tristen Hyatt, Emily L. Kennelly, Jaana Kettunen, Kirsten M. Kinsley, Stephen J. Leierer, Jukka Lerkkanen, Julia Panke Makela, Laura Reid Marks, Sarah Pearson, Gary W. Peterson, Robert C. Reardon, Denise E. Saunders, Erica L. Stallings, Raimo Vuorinen, 2023-11-30. This book's aim is to improve the integration of Cognitive Information Processing CIP theory research and practice leading to more cost effective career interventions that help persons to make informed and careful career decisions over a lifetime. The starting point for the book's content was the 2004 Sampson Reardon Peterson and Lenz book *Career Counseling and Services A Cognitive Information Processing Approach* which itself was a revision of the 1991 Peterson Sampson Reardon book *Career Development and Services A Cognitive Approach*. We had four goals for this edition of our book. Our first goal was to update the theory research and practice of CIP theory from 2004 through the end of 2022. Our second goal was to expand the authors to better reflect the diverse community of practice that has emerged for CIP theory over the past eighteen years. Our third goal was to remove cost as a potential barrier to disseminating knowledge about CIP theory by making the book accessible as an open access publication through the Florida State Open Publishing. Finally our fourth goal was to disseminate the book via open source software available in libraries which can be used to make periodic book content updates more feasible.

Racial Disproportionality in Child Welfare Marian S Harris, 2014-04-15. The number of children of color entering the child welfare system in the United States is disproportionately high. Not only are children of color removed from parental custody and placed in care more often

than their white counterparts but they also remain in care longer receive fewer services and have less contact with the caseworkers assigned to them This book identifies the practice and policy changes required to successfully address the unequal treatment of children of color in the child welfare system and their implications for social work education caseworker training and institutional change It critiques many of the existing social welfare acts and policies in terms of their treatment of children of color and it provides best practices for each decision point in the child welfare process and for cultural competency measures and training The text offers extensive measurement instruments that agencies can use to assess and correct institutional racism To improve social work education the book includes several model syllabi for the curriculum and to deepen the discipline s engagement with the issue of institutional racism the text concludes with a discussion of future directions for research and policy
