Policies and Politics in Western Europe F F Ridley,2024-05-01 The problems of inflation unemployment and economic stagnation are shared by all industrialised countries but government response to them varies from state to state This book originally published in 1984 examines the effect of the recession of the 1980s on policy making and policy content in Britain France

Police-Related Deaths in the United States David Baker, 2021-05-25 To understand police related deaths in the US we need to understand the structures and systems that enable police to operate in the way they do Giving voice to a previously unheard group in society this book articulates the experiences of the families of those who died after police contact David Baker considers the disproportionate number of deaths in marginalized communities for example people of color people who are mentally unwell and LGBTQ people Each chapter begins with a short case study drawn from this qualitative research to humanize the story of the person who died and put the key issues into context By examining these deaths and the investigatory processes that follow Baker argues that an increasingly aggressive police mindset allied with relatively toothless regulatory frameworks effectively lead to police being enabled by the criminal justice system to use lethal force with relative impunity Baker combines his qualitative research with the wide base of existing literature on police use of force in the US and maintains that the effects of these deaths go beyond merely policing and criminal justice but are corroding the core fabric of American society
