Los Angeles Reyner Banham, 2001 A pioneering architectural study of the seventy mile square city and the historical process which has made it unique as a human settlement **On Reyner Banham's Los Angeles: the Architecture of Four Ecologies** William Ellis, 1974 **Los Angeles** Reyner Banham, 1971-06 A pioneering architectural study of the seventy mile square city and the historical process which has made it unique as a human settlement Los Angeles Reyner Banham, 1973 **An Architectural Guidebook to Los Angeles** Robert Winter, 2009-09 Known as the bible to Los Angeles architecture scholars and enthusiasts Robert Winter and David Gebhard's groundbreaking guide to architecture in the greater Los Angeles area is updated and revised once again From Art Deco to Beaux Arts Spanish Colonial to Mission Revival Winter discusses an impressive variety of architectural styles in this popular guide that he co-authored with the late David Gebhard New buildings and sites have been added along with all new photography Considered the most thorough L A architecture guide ever written this new edition features the best of the past and present from Charles and Henry Greene's Gamble House to Frank Gehry's Disney Philharmonic Hall This was and is again a must have guide to a diverse and architecturally rich area Robert Winter is a recognized architectural historian who lives in Los Angeles and has led architectural tours through the Los Angeles area since 1965 He is a professor at Occidental College in Los Angeles *The Architecture of Art History* Mark Crinson, Richard J. Williams, 2018-12-13 What is the place of architecture in the history of art Why has it been at times central to the discipline and at other times seemingly so marginal What is its place now Many disciplines have a stake in the history of architecture sociology anthropology human geography to name a few This book deals with perhaps the most influential tradition of all art history examining how the relation between the disciplines of art history and architectural history has waxed and waned over the last one hundred and fifty years In this highly original study Mark Crinson and Richard J Williams point to a decline in the importance attributed to the role of architecture in art history over the last century which has happened without crisis or self reflection The book explores the problem in relation to key art historical approaches from formalism to feminism to the social history of art and in key institutions from the Museum of Modern Art to the journal *October* Among the key thinkers explored are Banham Baxandall Giedion Panofsky Pevsner Pollock Riegl Rowe Steinberg Wittkower and W Ifflin The book will provoke debate on the historiography and present state of the discipline of art history and it makes a powerful case for the reconsideration of architecture **Urban Design Ecologies** Brian McGrath, 2013-01-14 The discipline of urban design is undergoing a rapid expansion and realignment It is experiencing a shift from a profession dominated by architects and planners directed at urban development to a more expansive set of practices engaging new forms of social and environmental ecologies as cities worldwide adapt to economic restructuring mass migrations and climate change Bringing together classic and new texts from the last 40 years this AD Reader focuses attention on the critical tools needed to understand how cities have been designed and constructed and then changed over

time This enables new ways of envisioning how cities must be conceived and adapted in the future to the dual conditions of rapid urbanisation and economic restructuring coupled with unpredictable environmental conditions due to climate change With its emphasis on both urban design and the ecological this book brings together key articles that point the way forward for reconciling the often conflicting concerns of urbanism and environmentalism Twenty three texts are organised into four distinct sections covering metropolitan architecture the sprawling megalopolis the megacity and the recently emerging metacity These are broadly chronological and highlight the recent thinking behind some of the key urban developments ranging from the art of traditional city making covered by European architects and historians in the late 20th century to contemporary Tokyo described by Atelier Bow Wow Features original texts from Reyner Banham Rem Koolhaas Aldo Rossi Colin Rowe David Grahame Shane Bernard Tschumi Oswald Mathias Ungers and Robert Venturi Denise Scott Brown and Steven Izenour Contains newly commissioned texts from Mary Cadenasso Sharon Haar and Victoria Marshall Carlos Leite Steward TA Pickett and Albert Pope Includes new translations of important essays by Vittorio Gregotti and Paola Vigan Topics range from the European historic city to the Las Vegas Strip and the megacity of S o Paulo taking in the global sustainable city

Williams,2025-04-28 In the demonology of the contemporary city is there anything more toxic than the expressway Dividing neighbourhoods depressing land values concentrating atmospheric pollutants the mammoth infrastructure of the expressway is now increasingly crumbling into the ground How did we build

the expressway world in the first place And what are we going to do now with it now This eye opening book explores these questions partly through the great expressway abolitions of recent years such as Boston s Central Artery buried and covered by a park and Seoul s Cheonggyecheon replaced with an artificial river But the book also uncovers the hidden stories of expressways that have become weird attractions in their own right from London s Westway to S o Paulo s Minhoc o celebrated in art and literature Above all the book proposes counterintuitively that we find ways to live with the expressway world and to adapt it to a different future inspired by the many examples where people have already reinvented this challenging legacy on their own terms Engaging with case studies across the world and recent thinking in the environmental humanities and architectural theory this is a thought provoking invitation to reconsider the most maligned structures of the recent urban past
