Luigi Ghirri E Di Fotografia:

Photography and Italy Maria Antonella Pelizzari, 2010-11-15 In this beautifully illustrated book Maria Antonella Pelizzari traces the history of photography in Italy from its beginnings to the present as she guides us through the history of Italy and its ancient sites and Renaissance landmarks Pelizzari specifically considers the role of photography in the formation of Italian national identity during times of political struggle such as the lead up to Unification in 1860 and later in the nationalist wars of Mussolini's regime While many Italians and foreigners such as Fratelli Alinari or Carlo Ponti John Ruskin or Kit Talbot focused their lenses on architectural masterpieces others documented the changing times and political heroes creating icons of figures such as Garibaldi and the brigands Pelizzari's exploration of Italian visual traditions also includes the photographic collages of Bruno Munari the neorealist work of photographers such as Franco Pinna the bold stylized compositions of Mario Giacomelli and the controversial images created by Oliviero Toscani for Benetton advertising in the 1980s Featuring unpublished works and a rare selection of over one hundred images this book will appeal to art collectors and students of art history and Italian culture

Frammenti fotografici. La fotografia nella società delle immagini pervasive Giovanni Gualario, 2023-07-11 Se la fotografia ha subito nella sua storia diverse trasformazioni tecniche che ne hanno progressivamente facilitato e ampliato la pratica quanto avvenuto recentemente con l'avvento del digitale non ha eguali per diffusione e consumo di immagini Un processo che a giudicarlo con i criteri dell'epoca analogica va ben oltre la diffusione democratica della pratica fotografica e pare procedere verso una sorta di trivializzazione della immagine Ma quanto avvenuto nel campo fotografico va compreso all'interno dei più complessivi cambiamenti introdotti nella società dalla rivoluzione digitale che ha comportato un vero e proprio salto di paradigma nei rapporti fra l'individuo e la realtà La necessità di stabilire analogie continuità e differenze fra presente e il passato fornisce l'occasione di un discorso sulla fotografia intesa come attività creativa testimonianza e memoria come esercizio di riflessione sulla realtà e educazione allo sguardo consapevole sul mondo Un discorso fatto per frammenti come la fotografia che fatta di frammenti di spazio l'inquadratura e di tempo l'attimo dello scatto e come singole foto all'interno di una raccolta in cui ognuna pure compiuta in sé stessa acquista maggior significato in relazione alle altre

Towards the River's Mouth (Verso la foce), by Gianni Celati Patrick Barron, 2018-12-03 Italian writer and filmmaker Gianni Celati's 1989 philosophical travelogue *Towards the River's Mouth* explores perception memory place and space as it recounts a series of journeys across the Po River Valley in northern Italy The book seeks to document the new Italian landscape where divisions between the urban and rural were being blurred into what Celati terms a new variety of countryside where one breathes an air of urban solitude Celati traveled by train by bus and on foot at times with photographer Luigi Ghirri at others exploring on his own without predetermined itineraries taking notes on the places he encountered watching and listening to people in stations fields bars houses squares and hotels In this way the book took shape as Celati traveled and wrote gathering and rewriting his notes into stories of observation 9 Celati attempts to find meaning by seeking the uncertain limits of our ability to discern everyday surroundings Every observation as he puts it needs

liberate itself from the familiar codes it carries to go adrift in the middle of all things not understood in order to arrive at an outlet where it must feel lost At the forefront of the then nascent spatial turn in the humanities Towards the River's Mouth is a key text of what in recent years has been variously termed literary cartography literary geography and spatial poetics Its call to carefully and affectionately examine our surroundings while attempting to step back from habitual ways of perceiving and moving through space has resonated as much with literary scholars and other writers as with geographers and architects By now a classic of twentieth century Italian literature it has in recent years garnered increasing attention especially with the growth of ecocriticism and new materialism within the environmental humanities This edition translated into English for the first time features an introduction that places Towards the River's Mouth in the context of Celati's other work and a selection of ten scholarly essays by prominent figures in comparative literature and Italian studies **Enlightening Encounters**
