Luka And The Fire Of Life Salman Rushdie:

Luka and the Fire of Life Salman Rushdie, 2010-11-16 On a beautiful starry night in the city of Kahani in the land of Alifbay a terrible thing happened twelve year old Luka's storyteller father Rashid fell suddenly and inexplicably into a sleep so deep that nothing and no one could rouse him To save him from slipping away entirely Luka must embark on a journey through the Magic World encountering a slew of phantasmagorical obstacles along the way to steal the Fire of Life a seemingly impossible and exceedingly dangerous task Weaving together bits of mythology fairy tales children's puns metaphysics and echoes from well known tales as different as *The Matrix* and *The Wizard of Oz* *Luka and the Fire of Life* becomes a story about things as intimate as a boy's love for his family and as sprawling as the meaning of life itself With *Haroun and the Sea of Stories* Salman Rushdie proved that he is one of the best contemporary writers of fables and it proved to be one of his most popular books with readers of all ages While *Haroun* was written as a gift for his first son Luka and the *Fire of Life* the story of Haroun's younger brother is a gift for his second son on his twelfth birthday Lyrical rich with word play and with the narrative tension of the classic quest stories this is Salman Rushdie at his very best *The Science Fiction Dimensions of Salman Rushdie* Yael Maurer, 2014-01-23 This book focuses on the science fictional dimensions of Rushdie's later novels *Fury* *The Ground Beneath Her Feet* *Shalimar the Clown* and *Luka and the Fire of Life* and Rushdie's first unpublished novel *The Antagonist* to show how the author's oeuvre moves towards a more consistent engagement with science fiction as a generic form and an ideological investment The author demonstrates how Rushdie recreates personal and national histories in a science fictional setting and mode and contends that the failure of his first novel *Grimus* may have led Rushdie away from SF for some time although he returns to it with a much firmer conviction and a much stronger voice in his later novels showing his commitment to this imaginative form which he describes in *Fury* as providing the best popular vehicle ever devised for the novel of ideas and metaphysics The science fictional mode is the most appropriate vehicle for expressing these thematic and ideological concerns and the organizing feature of Rushdie's oeuvre The author rereads the later novels in light of recent critical engagement with SF as a vehicle for reimagining national histories and as a potentially subversive tool for social and political engagement in a fictional realm **Salman Rushdie** Damian Grant, 2012 This study seeks to provide a balanced view by approaching Rushdie's fiction in terms of its dual responsibility to the found world of historical circumstance and the made world of the imagination **Salman Rushdie and Translation** Jenni Ramone, 2013-09-12 Salman Rushdie's writing is engaged with translation in many ways translator figures tell and retell stories in his novels while acts of translation are catalysts for climactic events Covering his major novels as well as his often neglected short stories and writing for children *Salman Rushdie and Translation* explores the role of translation in Rushdie's work In this book Jenni Ramone draws on contemporary translation theory to analyse the part translation plays in Rushdie's appropriation of historical and contemporary Indian narratives of independence and migration *Salman Rushdie* Robert

Time, Literature, and Cartography After the Spatial Turn Adam Barrows, 2016-06-01 *Time Literature and Cartography after the Spatial Turn* argues that the spatial turn in literary studies has the unexplored potential to reinvigorate the ways in which we understand time in literature Drawing on new readings of time in a range of literary narratives including Vladimir Nabokov's *Invitation of a Spring* and James Joyce's *Finnegans Wake* Adam Barrows explores literature's ability to cartographically represent the dense and tangled rhythmic processes that constitute lived spaces Applying the insights of ecological resilience studies as well as Henri Lefebvre's late work on rhythm to literary representations of time this book offers a sustained examination of literature's chronometric imaginary its capacity to map the temporal relationships between the human and the non-human the local and the global
