Managing The Next Generation Of Public Workers A Public Solutions Handbook The Public Solutions Handbook Series:

Managing the Next Generation of Public Workers Madinah F Hamidullah, 2015-09-16 Managing the Next Generation of Public Workers is a fresh and energetic look at the changing climate of diversity in the public and nonprofit workplace. The workforce of the twenty-first century represents unparalleled complexity. Baby Boomers, GenX, GenY, and Millennials. Although that diversity may be challenging and often overwhelming for public managers, Madinah Hamidullah emphasizes the potential strengths that can be drawn from complex multigenerational relationships. This handbook offers public and nonprofit managers the tools necessary to address generational differences and questions such as: How do the newer generations in the workplace differ on such fundamentals as work ethic, family values, and retirement horizons? Are they recruited differently, and do they expect a different mix of benefits, perhaps a better work-life balance as a tradeoff for a lower salary? How can diverse generational perspectives in the workplace add value by questioning old traditional assumptions? Will approaches to organizational decision making necessarily change as new generations take over? The book is for public and nonprofit managers who recognize the challenges of managing a multigenerational workforce and are therefore seeking helpful insights. This volume is a roadmap not only for human resource (HR) managers but for all managers who must address the complexities of the human condition, complexities that are complicated by the most rapid succession of workforce generations that we have yet seen.

New Zealand s deceptively simple but effective program to improve public services New Zealand has long been considered at the forefront of public administration experimenting with new ways of organizing and delivering public services Even so successive New Zealand governments had mixed results from using traditional public management tools to lift the performance of the public service and address persistent problems that required multi agency action In 2012 the government decided to try something different As part of a reform package called Better Public Services the government challenged the public service to organize itself around achieving just ten results that had proven resistant to previous interventions The plan was deceptively simple set ambitious targets and publicly report on progress every six months hold small groups of public managers collectively responsible use lead indicators and learn from both success and failure This book explores how and why the New Zealand government made progress and how the program was able to create and sustain the commitment of public servants and unleash the creativity of public entrepreneurs The authors combine case studies based on the experience of people involved in the change together with public management research They explain how ambitious targets and public accountability were used as levers to overcome the bureaucratic barriers that impeded public service delivery and how data evidence and innovation were used to change practice New Zealand experimented failed succeeded and learned from the experience over five years This New Zealand experience demonstrates that interagency performance targets are a potentially powerful tool for fostering better public services and thus improving social outcomes Public Human Resource
