Managing A Consumer Lending Business:

Managing a Consumer Lending Business David B. Lawrence, Arlene Solomon, 2002-07-01
Managing a Consumer Lending Business David Lawrence, Arlene Solomon, 2013-03-08
Managing a Consumer Lending Business 2nd edition summarizes the lore and knowledge of the business in the early 21st century. It covers many subjects a good manager should know: the importance of how to attract enough good accounts to offset the inevitable bad accounts that every lender will get; controlling line sizes; encouraging use by good customers; controlling the use by bad customers; managing profitability with predictability if he or she is to effectively run a high volume consumer business. The second edition covers some of the problems the financial services industry experienced in the early 2000s and some of the resulting regulations implemented. The updated MIS demonstrates and compares this later period to earlier results for the industry. *Handbook of Consumer Lending* David B. Lawrence, 1992
The Refractive Thinker Neysa T. Sensenig, Sheila Embry, Karleen Yapp, Cheryl A. Lentz, 2010-05-15

Managing Financial Institutions Elizabeth Cooperman, 2016-12-08
This book goes beyond traditional financial institutions textbooks which tend to focus on mathematical models for risk management and the technical aspects of measuring and managing risk. It focuses on the role of financial institutions in promoting social and economic goals for the communities in which they operate for the greater good while also meeting financial and competitive challenges and managing risks. Cooperman divides the text into seven easily teachable modules that examine the real issues and challenges that managers of financial institutions face. These include the transformative changes presented by social unrest, climate change, and resource challenges, as well as the changes in how financial institutions operate in light of the opportunities that rapid innovations and disruptive technologies offer. The book features up-to-date coverage of new regulations affecting financial institutions such as Dodd-Frank and new SEC regulations. Material on project financing and new forms of financing including crowd funding and new methods of payment for financial institutions. New sustainable finance models and strategies that incorporate environmental, social, and corporate governance considerations. A new chapter on sustainable financial institutions, social activism, the greening of finance, and socially responsible investing. Practical cases focusing on sustainability give readers insight into the socioeconomic risks associated with climate change. Streamlined and accessible. *Managing Financial Institutions* will appeal to students of financial institutions and markets, risk management, and banking. A companion website featuring PowerPoint slides, an Instructor's Manual, and additional cases is also available.

Consumer Lending in France and America Gunnar Trumbull, 2014-08-11
At the beginning of the 20th century, consumer credit in the United States was perceived as unfair and exploitative. Social reformers fought to limit the economic

and social impact of small lenders they decried as loan sharks Reputable businesses steered clear of sales credit because of the questionable consumers that it would attract By the 1970s however credit in America had been reimagined as a legitimate tool of household finance that was understood to have broad social and economic benefits This transformation in the moral economy of credit accompanied a revolution in lending technologies and the regulatory treatment of consumer credit Ultimately these changes allowed American households to amass unprecedented debt debt that eventually precipitated the worst financial crisis of postwar America To understand the origins of that crisis we need to understand not just the shifting habits of consumers but also what happened to lenders as the public moved from opposing credit to embracing it This book traces how that transformation occurred Nearly all accounts of the origins of American consumer credit have focused exclusively on the U S experience Single country case studies have their virtues But they do not allow the observer easily to differentiate what is unusual about the U S case from what is common even to countries with very different credit practices **Derivatives , Managing Information Strategically** James V. McGee, Laurence Prusak, Philip J.
