Global Health Kevin McCracken, David R. Phillips, 2012-07-26 The health of human populations around the world is constantly changing and the health profiles of most nations in the early twenty first century global health landscape are unrecognizable compared with those of just a century ago This book examines and explains these health changes and considers likely future patterns and changes While the overall picture charted is one of progress and improvement certain unfortunate regressions and stubbornly persistent health inequalities are equally shown to be part of the evolving patterns of global health The chapters of the book are organized in three major parts The first part introduces readers to the principal concepts of global health and to the idea of populations having distinctive health profiles In particular it explores how those profiles can be measured and how they change using the umbrella concepts and theories of epidemiological and health transition Building on the first

section the second part focuses on the evolution of health states as well as paying particular attention to the reasons for the many subnational inequalities in global health It also examines health challenges such as the continuing infectious disease burden and current emerging epidemics The final part transports readers from the current health scene to future possible and probable health scenarios acknowledging the challenges presented by global environmental change as well as issues centred around geopolitics and human security Using clear and original explanations of complex issues this text makes extensive use of boxed case studies and international examples with thought provoking discussion questions posed for readers at the end of each chapter Global Health is essential reading for students of global health public health and development studies

The Day I Reached My Tipping Point... Daryl B Sutter, 2019-07-08 The target audience is education The age range spans from new teachers in their twenties to veteran teachers Teachers are found in every geographical region of the world What they don't realize is that through policies procedures technology upgrades parental and administrative as well as government expectations their psychological well being is slowly being depleted The erosion of their compassion and empathy over time leads to anxiety stress depression and burnout which are the themes of this book This depletion can result in qualified skilled individuals leaving the profession early others to seek different career opportunities or stay in the system just going with the flow potentially eroding their personal values belief system and principles The key outcomes from this book are three fold first an understanding of what compassion fatigue CF or Occupational Stress Injury OSI is and how it can impact an educator Second that the causes are identifiable and that steps can be taken to ward it off And finally for the reader to understand that there is hope and recovery The main objective of the book is to make educators aware of CF and OSI CF and OSI in educators can be a slow gradual process where teachers may not even realize the effects until something uncharacteristic occurs because he she has just snapped Upon recognizing CF OSI in their life and or career readers are encouraged to contact the author at the supplied email address daryl@sutterandassociates.com to share anonymous events stories and or occurrences of how when and why CF OSI impacted their professional and personal life These would then be used to supplement another book Tales from the trenches The book is a supplement of my counselling therapist and educational consulting business Sutter and Associates
