Determinants Of Internet Mediation Researchgate:

COVID-19 Epidemiological Situation as a Psychosocial Determinant of Trauma and Stress Mateusz Krystian Grajek,Jonathan Adedayo Odukoya,Ewa Mistowska,Mateusz Rozmiarek,2024-01-24 In addition to the infectious context the COVID 19 pandemic has brought many complications to social life Fear anxiety misinformation and loneliness associated with isolation as well as uncertainty about the days ahead have already caused psychological and emotional changes in many people Many social groups such as cancer patients the elderly schoolchildren and people with disabilities were particularly vulnerable to the psychosocial effects of the COVID 19 pandemic In light of current data even the WHO suggests that the psychological context of the pandemic may have caused more psychological damage than World War II Some researchers also infer the existence already of a post pandemic stress syndrome which is currently not an official medical diagnosis but rather a subtype of PTSD that is being diagnosed Also noted in the context of the pandemic is the breakdown of many social ties due to isolation loneliness the development of symptoms of depressive or anxiety disorders and the transformation of social life Thus it seems reasonable to estimate the magnitude of phenomena of psychosocial importance resulting from the impact of the epidemiological situation associated with the COVID 19 pandemic The primary issue to be considered within the framework of the topic is the identification of psychosocial factors affecting the quality of mental and social health of various social groups which are determined by the epidemiological situation associated with COVID 19 In this view the determining variables will be personal feelings of stress fear anxiety depression discouragement alienation and loneliness and in a global sense the reference of these phenomena to the comfort and quality of social life with particular emphasis on interpersonal relationships COVID 19 as mentioned above continues to be an important social issue and although the situation related to it has recently softened and media reports becoming less frequent It is inferred that we will only now see the full impact of the problems associated with the mental health crisis and the breakdown of interpersonal relationships caused by the COVID 19 pandemic *The Economics of Financial Inclusion* Firdous Ahmad Malik,Tarika Singh Sikarwar,2024-10-15 This book offers a thorough examination of the economics of financial inclusion and management from a contemporary standpoint It covers a vast array of financial inclusion related topics surveying economies around the globe and analyzes the factors that contribute to both financial inclusion and exclusion The book discusses the role of technology examining how technological advances have revolutionized financial services and increased access to populations that were previously underserved It studies the intersection of financial inclusion and sustainability highlighting the significance of green finance and its role in fostering inclusive and sustainable economic growth Financial literacy and the theories underlying financial inclusion efforts are examined as is the impact of financial criminality Further the authors consider regional development and the extant gaps in financial inclusion as well as the urban rural divide investigating disparities between urban and rural areas and proposing strategies to bridge the gap They also assess the effect of inflation and

recession and discuss how monetary and fiscal policies can impact inclusion initiatives The book concludes with a management perspective on financial inclusion with chapters devoted to various aspects of administering inclusive financial systems It combines theoretical insights with empirical evidence and case studies from both developing and developed nations to illustrate the various approaches and challenges and to provide a comprehensive understanding of worldwide advancements and developments The comparative approach provides readers with insights into diverse strategies and best practices for overcoming challenges and obstacles and for promoting financial inclusion in various economic contexts Overall readers will benefit from the book s comprehensive analysis and exhaustive coverage It is an invaluable resource for advanced students scholars researchers and policymakers Recent Advances in Information Systems and Technologies

Álvaro Rocha, Ana Maria Correia, Hojjat Adeli, Luís Paulo Reis, Sandra Costanzo, 2017-03-27 This book presents a selection of papers from the 2017 World Conference on Information Systems and Technologies WorldCIST 17 held between the 11st and 13th of April 2017 at Porto Santo Island Madeira Portugal WorldCIST is a global forum for researchers and practitioners to present and discuss recent results and innovations current trends professional experiences and challenges involved in modern Information Systems and Technologies research together with technological developments and applications The main topics covered are Information and Knowledge Management Organizational Models and Information Systems Software and Systems Modeling Software Systems Architectures Applications and Tools Multimedia Systems and Applications Computer Networks Mobility and Pervasive Systems Intelligent and Decision Support Systems Big Data Analytics and Applications Human Computer Interaction Ethics Computers Health Informatics Information Technologies in Education and Information Technologies in Radiocommunications Understanding Child Abuse and Neglect - Research and Implications Diann

Cameron Kelly, 2024-06-05 Child abuse and neglect is a scourge in our global community In the United States alone the nation loses an average of five children a day to child abuse and neglect The impact of child abuse and neglect is significant It can affect esteem health and development learning outcomes and more importantly closeness between a child and their parent This book highlights the issues associated with child abuse and neglect and captures the nuances of its effect on child development and psychosocial well being The authors are from the international community and speak to the dynamics of child abuse and neglect across nations The Psychology of Binge Watching TV Barrie Gunter, 2024-11-22 This fascinating

work provides an up to date examination of shifts in the nature and impact of TV and video watching that have largely been driven by non linear TV and video services online The book reviews research evidence from around the world about the physical and behavioural shift of viewing away from linear and towards non linear TV and video services It studies the psychological factors that underpin and drive this shift and the impact of binge watching behaviour on people s physical and psychological health and social relationships Along the way it differentiates between binge watching and heavy viewing and considers binge watching as a distinctive form of TV video use that has its own reasons of occurrence and impacts The

Psychology of Binge Watching TV is aimed principally at students and academics interested in psychology media mental health and other related disciplines It will also interest any readers looking to understand more about the psychology behind binge watching and the potentially positive and negative effects on audiences *The Impact of COVID-19 on Vulnerable Populations* Echu Liu,Keith Elder,Caress Alithia Dean,2023-10-05 **The Internet in Everyday Life** Barry Wellman,Caroline Haythornthwaite,2008-04-15 The Internet in Everyday Life is the first book to systematically investigate how being online fits into people s everyday lives Opens up a new line of inquiry into the social effects of the Internet Focuses on how the Internet fits into everyday lives rather than considering it as an alternate world Chapters are contributed by leading researchers in the area Studies are based on empirical data Talks about the reality of being online now not hopes or fears about the future effects of the Internet
