Developing Aec Into A Global Service Hub The Case Of The:

Routledge Handbook of Global Public Health in Asia Siân M. Griffiths, Jin Ling Tang, Eng Kiong Yeoh, 2014-04-16

Global public health is of growing concern to most governments and populations nowhere more so than in Asia the world's largest and most populous continent. Whilst major advances have been made in controlling infectious diseases through public health measures as well as clinical medical treatments the world now faces other challenges including ageing populations and the epidemic crisis of obesity and non-communicable diseases. New emerging infections continue to develop and the growing threats to health due to environmental pollution and climate change increase the need for resilience and sustainability. These threats to health are global in nature and this Handbook will explore perspectives on current public health issues in South Southeast and East Asia informing global as well as regional debate. Whilst many books cite Western examples of the development of global public health this Handbook brings together both Western and Eastern scholarship creating a new global public health perspective suitable to face modern challenges in promoting the population's health. This Handbook is essential reading not only for students, professionals and scholars of global public health and related fields but is also written to be accessible to those with a general interest in the health of Asia.

ASEAN-India Development and Cooperation Report 2015 AseanIndia Centre, 2017-10-03 India's engagement with the Association of Southeast Asian Nations (ASEAN) is at the heart of its Look East Policy. As a regional bloc, ASEAN has developed much faster than any of the other blocs in the Asia Pacific. With ASEAN and India working towards establishing a Comprehensive Free Trade Area through the Regional Comprehensive Economic Partnership Agreement (RCEP), their cooperation will be key to promoting economic stability, competitiveness, growth and integration in the region. This Report provides a comparative analysis of the global and regional economies, examines the impact and implications of India-ASEAN integration, assesses policy priorities, effectiveness, implementation imperatives and challenges, and discusses themes central to the economic sustainability of the region including public and foreign policy, trade facilitation, financial and scientific cooperation, food security, energy cooperation and productivity and opportunities in the manufacturing and service sectors. It will be invaluable to scholars and researchers of economics, international relations, development studies, area studies as well as policy makers, administrators, private sector professionals and non-governmental organisations in the field.
