Getting Ready for Benjamin Rita M. Kissen, 2002-10-23 This book argues that issues of sexual diversity are inextricably interwoven into the basic concerns of pre service teacher education How do we make our students aware of assumptions regarding masculinity femininity and sexuality that arise from what is presented represented or omitted from curricula and classroom practice What do we say about homophobia and heterosexism as we anticipate the administrative hierarchies school cultures parent and community politics they will encounter as teachers What special challenges might face a teacher straight or gay who discusses sexual orientation in a high school classroom or responds to a homophobic remark in the hallway or the cafeteria How should we prepare a teacher

for a parent conference with two moms or two dads The essays in this volume range from an analysis of gay stereotypes in teacher education textbooks to a discussion of queer multiculturalism to personal accounts by lesbian and gay teacher educators and heterosexual allies who are challenging homophobia and heterosexism in their own classrooms and programs All agree that education for sexual diversity is as important as education about all other forms of difference and that future teachers need to know how to create safe spaces for lesbian and gay students along with the children of gay families who are increasingly a part of the classroom landscape

Higher Education Transitions Eva Kyndt, Vincent Donche, Keith Trigwell, Sari Lindblom-Ylänne, 2017-05-18 In the current era where lifelong learning is brought to the fore higher education can no longer be regarded as an isolated trajectory within one's educational career as many students face substantial challenges in crafting their professional future More specifically the transition from school to higher education and continuing to the labour market are often a difficult hurdles for many students Almost half of students do not succeed in the first year and often withdraw from education students are faced with a variety of contexts and may choose to study in a different international context and they are then confronted with structural barriers in finding a high quality job as evidenced by increasing levels of youth unemployment and underemployment *Higher Education Transitions* aims to deepen our understanding of the transitions taking place when students enter progress and leave higher education to enter the labour market Drawing on an international team of contributors this guide includes three conceptual and fifteen empirical studies which include a range of quantitative qualitative cross sectional and longitudinal

studies Divided into three sections to reflect each important transition phase topics include transitions from secondary to higher education transitions within higher education transitions from higher education to the labour market By considering transitions across different phases as a broad and interrelated process this guide will be essential reading for higher education researchers policy stakeholders and all those interested in the transitions into higher education and the labour market What Makes Us Human: How Minds Develop through Social Interactions Jeremy Carpendale,Charlie

Lewis,2020-12-21 How do you go from a bunch of cells to something that can think This question asked by the 9 year old son of one of the authors speaks to a puzzle that lies at the heart of this book How are we as humans able to explore such questions about our own origins the workings of our mind and more In this fascinating volume developmental psychologists Jeremy Carpendale and Charlie Lewis delve into how such human capacities for reflection and self awareness pinpoint a crucial facet of human intelligence that sets us apart from closely related species and artificial intelligence Richly illustrated with examples including questions and anecdotes from their own children they bring theories and research on children s development alive The accessible prose shepherds readers through scientific and philosophical debates translating complex theories and concepts for psychologists and non psychologists alike What Makes Us Human is a compelling introduction to current debates about the processes through which minds are constructed within relationships Challenging claims that aspects of thinking are inborn Jeremy Carpendale and Charlie Lewis provide a relationally grounded way of understanding human development by showing how the uniquely human capacities of language thinking and morality develop in children through social processes They explain the emergence of communication within the rich network of relationships in which babies develop Language is an extension of this earlier communication gradually also becoming a tool for thinking that can be applied to understanding others and morality Learning more about the development of what is right in front of us such as babies actions developing into communicative gestures leads to both greater appreciation of the children in our lives and a grasp of what makes us human This book will be of interest to anyone curious about the nature of language thinking and morality including students parents teachers and professionals working with children *Multiculturalism in Higher*

Education C. Spencer Platt,Adriel A. Hilton,Christopher Newman,Brandi Hinnant-Crawford,2020-03-01 As the educational landscape of America continues to evolve and diversify college faculty and administrators must be cutting edge in their approaches to create a variety of educational experiences with a greater level of multicultural cognizance Unlike in previous generations higher education in the 21st Century is no longer a luxury reserved for the elite and wealthy but is an increasing necessity for access to labor markets Community colleges and universities are working hard to respond to the demands of the labor market by attempting to provide skills for jobs that may not yet exist Colleges and universities should aim to make all of their students feel welcome and a part of the campus being committed to celebrating differences Additionally filling faculty seats with varied races cultures perspectives and identities will aid in providing mentors and role models everyone can relate

to These are some of the vital steps toward building a campus community that helps students develop a sense of belonging that allows them to persist and thrive in college The scholarship in this volume illustrates the state of multicultural education on college and university campuses The authors bridge foundational knowledge with contemporary understandings making the work both accessible for novices and beneficial for the authorities on multicultural education This volume provides thoughtful discourse on issues ranging from the racial and ethnic diversity of the student and faculty bodies and important topics like disability issues to different educational contexts such as community colleges HBCUs and HSI institutions
