Differences Between Modernism And Postmodernism:

Distinction of 'postmodernist' from 'modernist' Melissa Grönebaum, 2014-02-03 Essay from the year 2013 in the subject Didactics for the subject English History of Literature Eras grade 2 0 National University of Ireland Galway language English abstract The distinction of modern and postmodern artists sometimes seems to be a bit challenging due to a lack of chronological boundaries between modernism and postmodernism which are additionally extremely blurred To determine artists by the dates of their works is not necessarily possible since the epoch of postmodern art did not enter every country at the same time Although Charles Jencks sets the death of architectural modernism on July 15th 1972 at 3 32pm modernism in general is said to end with World War II In North America however it rather ends with the Great Depression Thus the broad agreement on the period of Modernism is from 1885 1935 Modernists continued writing even after 1945 but did not earn much attention any longer The period of postmodernism must have begun some when between then and 1960 Obviously the passage of modernism and postmodernism is fluent Postmodernism is said to be nostalgia and retrospective Collages and imitation are regarded as being postmodern as well as any rejection of modernism Modernism in contrast would display the avant garde forms of expression and the shock of the new But those definitions are general and just give a hint to what could be the distinction of modernism and postmodernism Because of this in the present essay I will elaborate and compare the ways that postmodernist might be distinguished from modernist and solve the question of the differences between these epochs To do so I will focus on terms of literature visual arts and architecture which are regarded as being characteristically for modernism or postmodernism

Moving Words Gay Morris, 2005-06-28 *Moving Words* provides a direct line into the most pressing issues in contemporary dance scholarship as well as insights into ways in which dance contributes to and creates culture. Instead of representing a single viewpoint, the essays in this volume reflect a range of perspectives and represent the debates swirling within dance. The contributors confront basic questions of definition and interpretation within dance studies while at the same time examining broader issues such as the body, gender, class, race, nationalism, and cross-cultural exchange. Specific essays address such topics as the black male body in dance, gender and subversions in the dances of Mark Morris, race and nationalism in Martha Graham's *American Document*, and the history of oriental dance. Challenging Modernity Mark A. Pegrum, 2000-04-01 When Dada burst onto the European stage in 1916, it shocked and scandalized the public of its day with art forms, ideas, and attitudes which were so revolutionary that it is only in recent decades that they have begun to find recognition within the broad cultural movement known as postmodernism. In fact, many postmodern artistic and intellectual tendencies can be seen to have descended via an underground tradition from the experiments of the Dadaists earlier this century. Yet the existence of this close link has been largely neglected by scholars. This book, for the first time, examines in depth the link between modernism and postmodernism and demonstrates the extensive similarities as well as the few crucial differences between the ideas and art of the Dadaists on the one hand and those of contemporary postmodern thinkers and artists on the other. Although they did not have access to postmodern terminology, it is clear that many Dadaists were essentially attempting to escape constrictive Enlightenment and modernist structures in order to create a proto-postmodern space of difference, otherness, and flux. Their successes, failures, and compromises in this respect are very illustrative for anyone interested in the progress of our own intellectual and artistic culture in its wavering between modern and postmodern. This book offers a much-needed historical perspective and solid basis for the ongoing debate on postmodernism.

Postmodern Philosophy and Law Douglas E. Litowitz, 1997 The author presents a two-tiered analysis that views postmodern legal thought as both a collective intellectual movement and as the work of particular theorists, notably Friedrich Nietzsche, Michel Foucault, Jacques Derrida, Francois Lyotard, and Richard Rorty. He concludes that even though postmodern thought does not give rise to a normative theory of right that can be used as a framework for deciding cases, it can focus attention on genealogy and discourse and can empower those who have been denied a voice in the legal system. Social Theory - Between modernism and postmodernism Enlightenment and Romance Natalie Schuetz, 2008-11-10 Essay from the year 2008 in the subject Sociology, General and Theoretical Directions, grade 2.0. University course: Seminar, language: English, abstract: The term postmodern has become a popular label for something about the life and thought of recent decades in the most developed societies. It both refers to phenomena in the real world and to an intellectual movement. Representatives of the postmodern movement not only express conflicting views but are interested in barely overlapping subject matters such as art history, economics, politics, methodology, and literature.
