Child Development in Africa: Views From Inside Serpell, Kofi Marfo, 2014-12-19 In this volume African scholars engaged in research on the continent reflect on their recent and ongoing empirical studies. They discuss the strengths and limitations of research methods, theories, and interventions designed outside Africa to spur innovative research on the continent. And they explore how insights from African philosophical, theoretical, and empirical work can be combined with exogenous forms of knowledge to generate understanding of the processes of African children's development in ways that are responsive to local contexts and meaningful for indigenous stakeholders. A new field of African child development research is emerging in African societies, focusing on children as valued and vulnerable members of society and potential civic leaders of the future. Systematic inquiries are now designed to enhance our understanding of how African children think to discover effective ways of communicating with them and to inform successful strategies of promoting their health, education, and preparation for adult responsibilities in society. This is the 146th volume in the Jossey-Bass series *New Directions for Child and Adolescent Development*. Its mission is to provide scientific and scholarly presentations on cutting-edge issues and concepts in this subject area. Each volume focuses on a specific new direction or research topic and is edited by experts from that field. [Handbook of International Perspectives on Early Childhood Education](#) Jaipaul L. Roopnarine, James E. Johnson, Suzanne Flannery Quinn, Michael M. Patte, 2018-02-21 The *Handbook of International Perspectives on Early Childhood Education* provides a groundbreaking compilation of research from an interdisciplinary group of distinguished experts in early childhood education, ECE, child development, cultural, and cross-cultural research in the psychological sciences, etc. The chapters provide current overviews of ECE in Latin America and the Caribbean, the Middle East, Asia, Australia, Africa, Europe, the US, and Canada, and convey how ECE is multi-sectorial, multi-cultural, and multi-disciplinary, undergirded by such disciplines as neuroscience, psychological anthropology, cross-cultural human development, childhood studies, and political science. [National Action Plan on Education for All, 2003-2015](#) Kenya, 2003 **The Perspective of Women's Entrepreneurship in the Age of Globalization** Mirjana Radović Marković, 2007-09-01 This book, *The perspective of women's entrepreneurship in the Age of Globalization*, addresses the issue of female entrepreneurship development in the context of globalization. The authors take the position that entrepreneurship serves as a catalyst of economic development, and the globalization process has progressively reduced barriers to entrepreneurship and increased competition in the global market. Namely, important settings of inter-country cooperation in our times are the emergence of the phenomenon of globalization. Like an oncoming vehicle, globalization cannot be stopped. However, we can influence its direction, and we can prepare to use it as an instrument for improving the conditions of the greater majority of people all over the world. The recognition of the capacity of women entrepreneurs in our global community is no longer a matter for debate. It is our reality that Female Entrepreneurship has been the major factor contributing to the development of many countries. This book brings together a large amount of

information on various women entrepreneurship opportunities from different points of view and from different countries and regions The special value of this volume is the networking of researchers scientists and other professionals and experts all over the world and their participation with the articles based on research undertaken specifically for the book **Ngono cia kîraci kîa mbere** ,2006 Kenya Syllabus for Primary Schools Kenya.
