La Sociedad Global Noam Chomsky:

Latin American Perspectives on Globalization Mario Sáenz, 2002-10-23 From the most prominent thinkers in Latin American philosophy literature politics and social science comes a challenge to conventional theories of globalization The contributors to this volume imagine a discourse in which revolution is defined not as a temporalized march of progress or takeover of state power but as a movement for local control that upholds standards of material conditions for human dignity Essays on identity equality and ethics propose models of transcultural and intercultural relations that replace center periphery or world systems approaches they impel us to focus on building dialogic relationships rather than on accommodating universalized paradigms Ultimately suggesting a reconstruction of the world in terms of the interests of one of the peripheral regions of the world Latin American Perspectives on Globalization argues with cogency and urgency that no one within contemporary globalization debates can afford to ignore the Latin American philosophical tradition **Mundo global, guerra global?** Atilio Borón, 2002 **Criminology and Criminal Policy Movements** Eugenio Raul Zaffaroni, Edmundo Oliveira, 2013-04-03 These studies recover the historical roots of thinking that are in conflict with and critical of present day tendencies Criminological theory over the last few decades has oscillated between extremes on one side there are calls for increasing the state exercise of punitive power as the only means of providing security in the face of both urban and international crime while the other side highlights the need for reducing the exercise of punitive power because of the paradoxical effects that it produces Useful for academics practitioners professionals and students this book will certainly contribute to a wider awareness in crime prevention and criminal justice **El nuevo proyecto histórico.
