Landscape Architecture In India A Reader Geeta Wahi Dua:

Contemporary Urban Landscapes of the Middle East Mohammad Gharipour, 2016-03-17 The Middle East is well known for its historic gardens that have developed over more than two millenniums The role of urban landscape projects in Middle Eastern cities has grown in prominence with a gradual shift in emphasis from gardens for the private sphere to an increasingly public function The contemporary landscape projects either designed as public plazas or public parks have played a significant role in transferring the modern Middle Eastern cities to a new era and also in transforming to a newly shaped social culture in which the public has a voice This book considers what ties these projects to their historical context and what regional and local elements and concepts have been used in their design **Landscape Architecture in India**, 2013 Ram Sharma Geeta Wahi Dua, Brijender S. Dua, Simar Kindra, 2020 **Landscapes in India** Amita Sinha, 2006 In *Landscapes in India* Amita Sinha shows that landscapes can be read like languages as arrangements of symbols that reveal cultural values South Asian landscapes rich with formalized symbols from the Cosmic Tree in Buddhist landscapes to cities patterned on mandalas offer a training ground for reading landscapes everywhere In a readable narrative heavily illustrated with spectacular color photographs Sinha introduces readers to sacred and secular landscapes identifying archetypal forms that have evolved over millennia According to Sinha landscape symbols express all that a culture holds dear and externalize deeply felt emotions of security kinship and relationship with the divine Architects landscape architects and planners will rely on this beautiful book's identification of archetypal forms and how they co evolve with nature and culture *Landscapes in India* also offers fresh perspectives for travelers and readers interested in geography anthropology and religion Ghats of Varanasi on the Ganga in India, 2014
