murky obscure and intransparent depiction of androids involves the problem of man machine relationships which can to a certain extent be equated with human android relationships But Dick goes a step further pointing out the differences as well as the parallels between both the android and the human being using ambiguous descriptions and playing with the reader's sympathy for both sides One could even argue that Dick tried to create a kind of meeting halfway between man and android Certainly Dick himself faces difficulties when trying to define the android as a thing somehow generated to deceive us in a cruel way to cause us to think it to be one of ourselves This description meets exactly to core of our analysis which deals with the impact and the effects created by this somewhat ambiguous representation of human and android life
