Benchmarking Supply Strategies in the Automotive and the Power Tool Industry Andreas Weth, 2008-03 Diploma Thesis from the year 2006 in the subject Business economics Supply Production Logistics grade 1.7 UNITEC New Zealand Supply Management Institute SMI course Diplom 105 entries in the bibliography language English abstract Problem Definition and Scope of the Diploma Thesis The problem which is addressed in this diploma thesis is the research deficit in the field of benchmarking supply and sourcing strategies As it was stated in the introduction no academic publication could be identified in which supply or sourcing strategies in the automotive industry are benchmarked with another industry and detailed recommendations for a particular industry are derived This lack of academic research is related to a general research deficit in the whole field of supply management which was already identified by Wildemann 2000 Van Weele 2002 and Jahns 2005 The whole field of supply management cannot be entirely benchmarked within two industries in a diploma thesis Because of that and to reduce complexity the sourcing strategy triangle which is further explained in section 2.4 and shown in the following figure 2 was developed as a benchmarking framework 1.3 Structure of the Diploma Thesis Firstly chapter one provides an introduction including the problem definition section 1.1 background information about the Hilti Corporation section 1.2 and the structure of the diploma thesis section 1.3 This is followed by supply management definitions and classifications which are given in chapter two of the thesis supply management terminologies are defined section 2.1 a supply strategy is explained in its strategic environment section 2.2 and different supply management concepts are explained and analyzed section 2.3 Besides

that also the sourcing strategy triangle which is used for the benchmarking approach is introduced in section 2.4. After that chapter three includes the benchmarking analysis of the sourcing strategy triangle. In **Purchasing and Supply Management** Michiel R. Leenders, 2002. This text recognizes the major supply challenges facing all organizations and their purchasing and supply management implications. It also gives solid grounding in the basic tools and techniques along with chances to test comprehension through carefully crafted questions and cases. This 12th edition features a new chapter on technology and e-commerce that looks at the key issues in applying technology to supply management and discusses options and approaches to e-procurement, catalogue management, auctions and e-marketplaces. 29 new cases and teaching notes including four cases in the e-commerce chapter and real world examples which illustrate supply management practice including job descriptions from Deere Company. **Purchasing and Materials Management** L. Lee, D. Dobler, 1984-01-01

Purchasing and Materials Management L. Lee, Donald W. Dobler, 1984-01-01 *Instructor's Manual to Accompany Purchasing and Supply Management* Donald W. Dobler, David N. Burt, Lamar Lee, 1996 **Implementing Purchasing and Supply Chain Management** Nancy Nicosia, Nancy Y. Moore, 2006. The U.S. Air Force plans to improve procurement through the implementation of additional purchasing and supply chain management practices. This monograph begins with background information organized around the process for conducting market research and proceeds through the how-to steps for conducting this research. The authors highlight lessons learned from both a literature review and from interviews with personnel at leading commercial enterprises. **Improving Air Force Purchasing and Supply Management of Spare Parts** Robert W. Bickel, 2003. This research provides the Air Force with a methodology for evaluating various strategies to improve the procurement of spare parts and applies the methodology to F100 engine parts. The author uses exploratory analysis techniques and system dynamic modeling to gain a better understanding of the effectiveness of various supplier management policies including identifying those policy levers most effective in improving various measures of interest. The research shows that policy and organizational changes in the purchasing and supply management (PSM) process have the potential to improve effectiveness while maintaining or lowering costs. It also demonstrates that a system dynamic model can be an important contribution to defining, discussing and understanding the complex interactions among policy levers and outcome measures particularly in enhancing PSM efficiency and effectiveness. **Potential and Limits of Outsourcing Procurement** Martin Ruppe, 2014-06-26. Seminar paper from the year 2014 in the subject Business Economics. Supply Production Logistics grade 2.0. University of Göttingen. INSTITUTE OF PRODUCTION INVESTMENT RESEARCH. course Industrial Management Accounting and Corporate Planning. language English. abstract: The increasing complexity of the business environment and the internationalization of business activities in the past decades have led to an increase of market dynamics. For companies it is therefore increasingly important to be flexible from the tactical and strategic point of view to keep costs under control and to maintain or even increase their level of performance with regard to worldwide

competition Companies have to adjust their internal organizational structure concerning cost and efficiency aspects also with regard to the core competences each company specializes in The outsourcing of competences to certain suppliers and service providers is regarded as a main strategy to secure competitiveness Therefore the usage of new communication and IT tools is getting more and more important This paper shows the potential and limits of outsourcing the Procurement when companies try to restructure their organization Beside conventional possibilities of outsourcing new electronic procurement solutions have become more popular during the last decades The focus of this paper lies on such new electronic procurement solutions Chapter 2 describes the basics of Procurement and Outsourcing Based on this chapter 3 shows potential and limits of both conventional solutions of outsourcing and also new modern solutions To get a more practical view the paper describes the topic by means of two examples from the automobile industry by BMW Group and the DaimlerChrysler AG Finally the paper gives a summary and a preview regarding upcoming business challenges of outsourcing procurement
