,2004 Includes audio versions and annual title author index Humor in Contemporary Junior Literature Julie
Cross,2010-12-14 In this new book Julie Cross examines the intricacies of textual humor in contemporary junior literature
using the tools of literary criticism and humor theory Cross investigates the dialectical paradoxes of humor and debunks the
common belief in oppositional binaries of simple versus complex humor The varied combinations of so called high and low
forms of humor within junior texts for young readers who are at such a crucial stage of their reading and social development
provide a valuable commentary upon the culture and values of contemporary western society making the book of
considerable interest to scholars of both children s literature and childhood studies Cross explores the ways in which the
changing content forms and functions of the many varied combinations of humor in junior texts including the Lemony
Snickett series reveal societal attitudes towards young children and childhood The new compounds of seemingly paradoxical
high and low forms of humor in texts for developing readers from the 1960s onwards reflect and contribute to contemporary
society s hesitant and uneven acceptance of the emergent paradigm of children s rights abilities participation and
empowerment Cross identifies four types of potentially subversive transgressive humor which have emerged since the 1960s
which coupled with the three main theories of humor relief superiority and incongruity theories enables a long overdue
charting of developments in humor within junior texts Cross also argues that the gradual increase in the compounding of the
simple and the complex provide opportunities for young readers to play with ambiguous complicated ideas helping them
embrace the complexities and contradictions of contemporary life
