Fully updated, the Fourth Edition offers a positive, practice-oriented counseling framework and features a research-based clinical application approach to addiction counseling that practitioners can turn to for fundamental, practical clinical guidelines. Revised chapters reflect important changes in research and practice, including new DSM-5 criteria, new assessment instruments, and new and expanded treatments. Case studies, interactive exercises, end-of-chapter questions, and other resources facilitate the integration of knowledge into practice. Personal Reflections sections at the beginning of each chapter provide an invaluable, unique perspective on the author's evolving views of addiction counseling. Updated and expanded online Instructor's Manual includes brief video clips, PowerPoint slides, test bank questions for each chapter, and sample syllabi. From assessment and diagnosis of addiction to preparing for certification and licensure as an addiction professional, this comprehensive book covers all of the essentials.

With a unique focus on neuroscience, integration of CACREP standards, and extensive coverage of addictions across the lifespan, the book serves as a practical resource for future addiction counselors.
