AUSTRONESIAN DIASPORA Bagyo Prasetyo, Titi Surti Nastiti, Truman Simanjuntak, 2021-01-28 This book is a proceeding from a number of papers presented in The International Symposium on Austronesian Diaspora on 18th to 23rd July 2016 at Nusa Dua Bali which was held by The National Research Centre of Archaeology in cooperation with The Directorate of Cultural Heritage and Museums The symposium is the second event with regard to the Austronesian studies since the first symposium held eleven years ago by the Indonesian Institute of Sciences in cooperation with the International Centre for Prehistoric and Austronesia Study ICPAS in Solo on 28th June to 1st July 2005 with a theme of the Dispersal of the Austronesian and the Ethno geneses of People in the Indonesia Archipelago that was attended by experts from eleven countries The studies on Austronesia are very interesting to discuss because Austronesia is a language family which covers about 1200 languages spoken by populations that inhabit more than half the globe from Madagascar in the west to Easter Island Pacific Area in the east and from Taiwan Micronesia in the north to New Zealand in the south Austronesia is a language family which dispersed before the Western colonization in many places in the world The Austronesian dispersal in very vast islands area is a huge phenomenon in the history of humankind Groups of Austronesian speaking people had emerged in ca 7000 6000 BP in Taiwan before they migrated in 5000 BP to many places in the world bringing with them the Neolithic Culture characterized by sedentary agricultural societies with animal domestication The Austronesian speaking people are distinguished by Southern Mongoloid Race which had the ability to adapt to various types of natural environment that enabled them to develop through space and time The varied geographic environment where they lived as well as

intensive interactions with the outside world had created cultural diversities The population of the Austronesian speakers is more than 380 million people and the Indonesian Archipelago is where most of them develop Indonesia also holds a key position in understanding the Austronesians For this reason the Austronesian studies are crucial in the attempt to understand the Indonesian societies in relation to their current cultural roots history and ethno genesis This book discusses six sessions in the symposium The first session is the prologue the second is the keynote paper which is Austronesia an overview the third is Diaspora and Inter regional Connection the fourth is Regional highlight the fifth is Harimau Cave Research Progress while the sixth session is the epilogue which is a synthesis of 37 papers We hope that this book will inspire more researchers to study Austronesia a field of never ending research in Indonesia **WICSTH 2021** I Made Suwitra,I Nyoman
