Betsy Hirz, 2021-05-04 The Dyatlov Pass incident was an event in which nine Russian hikers died in the northern Ural Mountains between 1 and 2 February 1959 in uncertain circumstances The experienced trekking group from the Ural

Polytechnical Institute led by Igor Dyatlov had established a camp on the eastern slopes of Kholat Syakhl. After the group's bodies were discovered they were found lying in running water in a creek missing their eyes, tongue, eyebrows, and crushed bones. The investigation concluded that a compelling natural force had caused the deaths. Numerous theories have been put forward to account for the unexplained deaths, including animal attacks, hypothermia, military involvement. This book includes the latest 2021 evidence and provides hitherto unexplored answers and is now a leading source on the incident, debunking all previous explanations while pointing to twelve points of overwhelming evidence that tell us what happened on this tragic night of horror.

The Dyatlov Pass Mystery: Not a Cold Case Henning Kuersten, 2021. In February 1959, a group of nine experienced hikers in the Russian Ural Mountains died mysteriously on an elevation known as Dead Mountain. Eerie aspects of the incident, unexplained violent injuries, signs that they cut open and fled the tent without proper clothing or shoes, a strange final photograph taken by one of the hikers, and elevated levels of radiation found on some of their clothes have led to decades of speculation over what really happened.

The Dyatlov Pass Incident Dieter Crowley, 2016-09-23. The Dyatlov Pass incident recounts the tragic, mysterious deaths of nine cross-country ski hikers in the northern Ural Mountains of Russia in February 1959. The experienced trekking group, who were all from the Ural Polytechnical Institute, had established a camp on the slopes of Kholat Syakhl, Dead Mountain, when disaster struck. During the night, something made them tear their way out of their tents from the inside and flee the protection of their campsite inadequately dressed in heavy snowfall and sub-zero temperatures. As the chronology of events remains uncertain, as there were no survivors, numerous theories have been advanced in an effort to try and explain the mystery of their unsettling deaths. In the history of mountain expeditions, there has never been a case as mysterious and haunting as this one.
