Dynamic Fleet Management For International Truck Transportation Focusing On Occasional Transportatio:

Dynamic Fleet Management for International Truck Transportation Steffen Schorpp, 2011-05-19 Two new dynamic planning approaches incorporating all important real life restrictions such as regulations on driving and working hours are developed and evaluated Extensive numerical tests are carried out with a five week real life data set from an international freight forwarding company

Dynamic Fleet Management Vasileios S. Zeimpekis, Christos D. Tarantilis, George M. Giaglis, Ioannis E. Minis, 2007-10-05 Dynamic Fleet Management will focus on real time management of a distribution system This means that when a dynamic event occurs within the distribution chain action must be taken in real time The book will integrate the latest results in system design algorithm development and system implementation to capture the state of the art research and application trends While much of the research in this area of transportation problems have almost exclusively concentrated on carrying out static plans on optional distribution conditions this book will examine those problems when some dynamic or unplanned even occurs within the transport or network system It will focus specifically on these cases and integrate the latest results in systems routing algorithms and case studies where information a dynamic event is revealed to the decision maker in a real time manner
