Pink exposes the mismatch between what science knows and what business does and how that affects every aspect of our lives. He demonstrates that while the old-fashioned carrot and stick approach worked successfully in the 20th century, it's precisely the wrong way to motivate people for today's challenges. In *Drive*, he reveals the three elements of true motivation: Autonomy (the desire to direct our own lives), Mastery (the urge to get better and better at something that matters), and Purpose (the yearning to do what we do in the service of something larger than ourselves). Along the way, he takes us to companies that are enlisting new approaches to motivation and introduces us to the scientists and entrepreneurs who are pointing a bold way forward. *Drive* is bursting with big ideas, the rare book that will change how you think and transform how you live.
