Dubai 2020 Urban Masterplan Dubai Municipality:

The Report: Dubai 2020 Oliver Cornock, Although Dubai has traversed some challenging economic territory over recent years the economic stimulus of Expo 2020 preparation and more stable oil prices have eased this strain in 2019 and business sentiment has improved accordingly With the long anticipated expo event set to take place in 2020 attention has started to focus on the important question of sustaining the current economic momentum over the medium term The Essential Guide to the Dubai Real Estate Market Michael Waters,2023-03-21 This is the first book to fully present analyse and interpret the Dubai real estate market Dubai is fast becoming one of the world s most attractive places to invest in real estate and this book examines the market from three interlinked sectors that drive its performance occupiers investors and developers It examines the market s historical growth and lays the foundations to examine future trends The book provides a synopsis of Dubai s market practices economic trends and social change that impacts the value of real estate Chapters also debate issues such as property investment house price performance local valuation practices spatial planning the economics of the city market practices and regulation property led economic growth and future trends such as sustainability and digitalization This book offers a comprehensive in depth and up to date account of the Dubai property market and presents a full assessment of the investment potential of Dubai real estate It is a must read for students academics and real estate professionals interested in this fascinating real estate market that has implications for both Dubai and wider GCC markets as well as the international investment market and senior professionals who come to work in the region **Transit Oriented Development and Sustainable Cities** Richard D. Knowles,,Fiona Ferbrache,2019 This book provides new dimensions and a contemporary focus on sustainable transport urban regeneration and development in eight countries spanning four continents at different stages of development It examines the role of transit oriented development TOD in improving urban sustainability and providing different transport choices exploring how these can be implemented in modern cities **The New Arab Urban** Harvey Molotch,Davide Ponzini,2019-02-05 Cities of the Arabian Peninsula reveal contradictions of contemporary urbanization The fast growing cities of the Persian Gulf are whatever else they may be indisputably sensational The world s tallest building is in Dubai the 2022 World Cup in soccer will be played in fantastic Qatar facilities Saudi Arabia is building five new cities from scratch the Louvre the Guggenheim and the Sorbonne as well as many American and European universities all have handsome outposts and campuses in the region Such initiatives bespeak strategies to diversify economies and pursue grand ambitions across the Earth Shining special light on Dubai Abu Dhabi and Doha where the dynamics of extreme urbanization are so strongly evident the authors of The New Arab Urban trace what happens when money is plentiful regulation weak and labor conditions severe Just how do authorities in such settings reconcile goals of oft claimed civic betterment with hyper segregation and radical inequality How do they align cosmopolitan sensibilities with authoritarian rule How do these elite custodians arrange tactical alliances to protect particular forms of social stratification

and political control What sense can be made of their massive investment for environmental breakthrough in the midst of world class ecological mayhem To address such questions this book's contributors place the new Arab urban in wider contexts of trade technology and design Drawn from across disciplines and diverse home countries they investigate how these cities import projects plans and structures from the outside but also how increasingly Gulf originated initiatives disseminate to cities far afield Brought together by noted scholars sociologist Harvey Molotch and urban analyst Davide Ponzini this timely volume adds to our understanding of the modern Arab metropolis as well as of cities more generally Gulf cities display development patterns that however unanticipated in the standard paradigms of urban scholarship now impact the world *Handbook on Sustainable Urban Tourism* Cristina Maxim, Alastair M. Morrison, Jonathon Day, J. A.

Coca-Stefaniak, 2024-01-18 In this multidisciplinary and multi jurisdictional account of sustainability in urban tourist destinations the *Handbook on Sustainable Urban Tourism* draws together the latest academic research and provides key practical insights on this developing area of study It not only considers the importance of cities as ideal tourist destinations due to their complex characteristics and the variety of attractions they offer but also the challenges they are confronted with most notably sustainability *The Report: Dubai 2019* Oliver Cornock, Near term sentiment is on the rise amongst Dubai's

business leaders with the IMF forecasting a healthy GDP growth rate of 4.2% in 2019 for the emirate While not as exposed as some of its regional neighbours to the effects of fluctuating commodities prices in recent times Dubai nevertheless stands to benefit from the knock on effects of higher prices over the last year *Urban Challenges in the Globalizing Middle-East*

Simona Azzali, Silvia Mazzetto, Attilio Petruccioli, 2021-04-20 This publication aims to investigate the nature of social life in public and urban spaces in the cities of the Middle East considering the value of environmental approaches It aims to develop a better understanding of the patterns of social interactions and activities in public places which have been influenced by cultural heritage values Sustainable and livable open spaces can help in improving living conditions in cities Public spaces are relevant as they satisfy many human needs In public spaces people interact and meet people with different cultures and social backgrounds can communicate and learn from each other in social and spontaneous ways However decision makers tend to forget the value of public spaces especially in the absence of a national regulatory framework in emerging globalized cities The book provides a multi disciplinary approach in reading the characteristics and values of public spaces in the emerging cities of the Middle East *Sustainable Cities Reimagined* Stanislav E. Shmelev, 2019-10-22 To assess urban

sustainability performance this book explores several clusters of cities including megacities cities of the Global South European and North American cities cities of the Middle East and North Africa cities of Central and South East Asia a city state of Singapore and a large group of global cities It applies a multi criteria approach using a panel of environmental economic social and smart indicators to assess progress and policies in global cities including London New York Hong Kong San Francisco Los Angeles São Paulo Rio de Janeiro Buenos Aires Paris Berlin Stockholm Moscow Beijing Seoul Singapore

Shanghai Sydney Tokyo and many others Additional attention is given to the issues of climate change poverty and smart dimensions with renewable energy and the drivers of urban CO2 emissions playing the central role This book is abundant with case studies considering strategies policies and performance of the leading cities including San Francisco Stockholm and Seoul in greater depth exploring how their successes can be used by other cities The book identifies key linkages between different smart and sustainability dimensions as well as investment opportunities in cities with sustainability potential This book will be of great interest to policy makers city and regional authorities as well as scholars and students of urban planning and sustainable development aiming to facilitate a sustainability transition in our cities around the world

The Report: Dubai 2015 Oxford Business Group,2011-01-12 Already a regional and global centre for business and finance Dubai s reputation has been bolstered by the MSCI s decision to upgrade the UAE from frontier to emerging market status in 2014 while the emirate s successful Expo 2020 bid is expected to generate myriad opportunities for private investors across a range of sectors Construction is thriving once again driven in large part by strong retail sector growth with various projects including plans for the world s largest mall indicating that the sector will maintain its position as the emirate s biggest GDP contributor moving forward The transport and logistics framework is set for major expansion in the coming years as well furthering cementing the emirate s status as a leading transport and logistics hub not just regionally but globally too The continued development of Dubai s retail and hospitality offerings alongside the upgrades to its airports should help to ensure robust growth in visitor numbers from both the region and further afield **Desert Paradises** Julian Bolleter,2019-03-29

Desert Paradises Surveying the Landscapes of Dubai s Urban Model explores how designed landscapes can play a vital role in constructing a city s global image and legitimizing its socio political hierarchy Using the case study of Dubai Bolleter explores how Dubai s rulers employ a paradisiacal image of greening the desert in part as a tool for political legitimization Bolleter also evaluates the designed landscapes of Dubai against the principles of the United Nations and the International Federation of Landscape Architects and argues that what is happening in Dubai represents a significant discrepancy between theory and practice This book offers a new perspective on landscape design that has until now been unexplored It would be beneficial to academics and students of geography landscape architecture urban design and urban planning particularly those with an interest in Dubai or the many cities in the region that are experiencing Dubaification

Dubai 2020 Urban Masterplan ,2012 This summary Document is based on extracts from the terms of references and the reports of the four phases of the Dubai 2020 Urban Master Plan submitted by the consultant AECOM This summary document includes partially revised contents maps and images made by the steering committee to the original reports submitted by the consultants

Acknowledgement Mapping Cities in the MENA Region Zeido Zeido,Suna Çağaptay,2025-06-16 This volume outlines the urban development of seven cities in the Middle East and North Africa Aleppo Alexandria Cairo Casablanca Dubai Nouakchott and Shiraz Ottoman rule and colonial powers French or British operated differently and over various time spans

in most of these cities to influence architecture and the urban scene Global movements such as modernism and socialism reshaped the cityscapes of intersecting histories and cultures Maps sketches and other visuals trace the urban outcomes of Ottoman rule colonial powers and post independence governments to show how they altered these cities Class distinctions informal settlements and devalued built heritage are common urban issues that the cities of the MENA region still face today Focuses on political and social developments as they influence each city s built environment Discusses all types of built heritage and forms of architecture in the seven exemplary cities Visualizes the urban development through many coloured maps sketches and charts *The Speculative City* Cecilia L. Chu, Shenjing He, 2022-01-27 The Speculative City explores property speculation as a key aspect of financialization and its role in reshaping the contemporary built environment The book offers a series of case studies that encompass a range of cities whose urban fabrics have undergone significant transformation in recent years While the forms of these developments shared many similarities their trajectories and social outcomes were contingent upon existing planning and policy frameworks and the historical roles assumed by the state and the private sector in housing and welfare provision By paying close attention to the forces and actors involved in property development this book underscores that the built environment has played an integral part in the shaping of new values and collective aspirations while facilitating the spread of financial logics in urban governance It also shows that these dynamics represent a larger shift of politics and culture in the ongoing production of urban space and prompts reflections on future trajectories of finance led property speculation *Legal Frameworks and Educational Strategies for Sustainable Development* Alqodsi, Enas Mohammed, Abdallah, Asma Khaleel, 2024-09-12 In today s complex world achieving sustainable development poses a significant challenge Legal frameworks often need help to keep pace with rapidly evolving environmental issues In contrast educational systems may need to prepare future leaders to address sustainability challenges adequately This gap between policy and practice inhibits progress towards a more sustainable future Legal Frameworks and Educational Strategies for Sustainable Development is a comprehensive reference source that explores how legal frameworks and educational strategies can align to foster sustainable development This book equips readers with the knowledge and tools needed to address sustainability challenges effectively by bridging the gap between theory and practice The book offers insights from environmental law sustainability studies and education through a multidisciplinary approach providing a holistic perspective on sustainability issues *The Report: Dubai 2016* Oxford Business Group, 2016-10-17 Financial services in particular is one non oil area where the emirate is starting to pull ahead with recent growth in the Islamic financial services segment fuelling the emirate s ambition of becoming the knowledge based capital of the Islamic economy in the future Meanwhile Dubai s real estate and construction sectors which were badly affected by the 2008 financial meltdown are once again thriving as the legacies of the global crisis recede and the debts incurred from that time are repaid and restructured Indeed Dubai is now firmly focused on the future with preparations for Dubai Expo 2020 in

particular helping nourish its economic recovery development and growth in recent years The event is expected to attract 25m visitors over a six month period and the build up is driving development across several sectors The preparations **The UAE** William Gueraiche,2016-08-10 William Gueraiche s work is the first scholarly study of the UAE s campaign to establish itself on the international stage and to explore the impact that its economic transformation has had on the country Emirati society remains at core conservative and the preservation of Arab Islamic identity remains important yet the UAE has the highest proportion of foreigners of any country in the world What does this mean for the identity of Emiratis living there and what are the implications for foreigners working there The author also explores the environmental costs of the Dubai lifestyle its Look East policy and increasing volume of trade with eastern Asia and the ways in which the UAE has sought to challenge the traditional hegemony of Saudi Arabia in the region In a final chapter the author examines the impact of the economic depression that called the whole representation of Dubai into question **The Sustainable City XIV** G. Passerini,S. Ricci,2020-12 Urban areas result in a series of environmental challenges varying from the consumption of natural resources and the subsequent generation of waste and pollution contributing to the development of social and economic imbalances As cities continue to grow all over the world these problems tend to become more acute and require the development of new solutions The challenge of planning sustainable contemporary cities lies in considering the dynamics of urban systems exchange of energy and matter and the function and maintenance of ordered structures directly or indirectly supplied and maintained by natural systems The task of researchers aware of the complexity of the contemporary city is to improve the capacity to manage human activities pursuing welfare and prosperity in the urban environment Any investigation or planning for a city ought to consider the relationships between the parts and their connections with the living world The dynamics of its networks flows of energy matter people goods information and other resources are fundamental for an understanding of the evolving nature of today s cities Large cities are probably the most complex mechanisms to manage They represent a fertile ground for architects engineers city planners social and political scientists and other professionals able to conceive new ideas and time them according to technological advances and human requirements Papers presented at the 14th International Conference on Urban Regeneration and Sustainability address the multidisciplinary components of urban planning the challenges presented by the increasing size of cities the number of resources required and the complexity of modern society Various aspects of the urban environment are covered and a focus is placed on providing solutions which lead towards sustainability Smart Living for Smart Cities T. M. Vinod Kumar,2020-05-05 This book based on extensive international collaborative research highlights the state of the art design of smart living for metropolises megacities and metacities as well as at the community and neighbourhood level Smart living is one of six main components of smart cities the others being smart people smart economy smart environment smart mobility and smart governance Smart living in any smart city can only be designed and implemented with active roles for smart people and smart city government and as a joint

effort combining e Democracy e Governance and ICT IoT systems In addition to using information and communication technologies the Internet of Things Internet of Governance e Governance and Internet of People e Democracy the design of smart living utilizes various domain specific tools to achieve coordinated effective and efficient management development and conservation and to improve ecological social biophysical psychological and economic well being in an equitable manner without compromising the sustainability of development ecosystems and stakeholders This book presents case studies covering more than 10 cities and centred on domain specific smart living components The book is issued in two volumes and this volume focus on community studies and ways and means *FIDIC Contracts in Africa and the Middle East* Donald Charrett,2023-09-20 FIDIC contracts are the most widely used contracts for international construction around the world and are used in many different jurisdictions both common law and civil law For any construction project the General Conditions of Contract published by FIDIC need to be supplemented by Particular Conditions that specify the specific requirements of that project FIDIC Contracts in Africa and the Middle East A Practical Guide to Application provides readers with detailed guidance and resources for the preparation of the Particular Conditions that will comply with the requirements of the laws that apply to the site where the work is carried out and for the governing law of the contract for a number of the jurisdictions in which FIDIC contracts are or can be used This book closely follows the format of The International Application of FIDIC Contracts Each jurisdiction features an outline of its construction industry and information on the impact of COVID 19 on both the execution and operation of construction contracts This book is essential reading for construction professionals lawyers and students of construction law Rethinking Suburbs Khaled Alawadi,2024-04-11 Rethinking suburbs provides answers to how can we design and plan neighborhoods in which non motorized mobility is a viable and efficient alternative and how the street systems and alleys of neighborhoods can be designed and retrofitted to make their urban fabrics more efficient and integrated Streets play significant roles in meeting multiple sustainability objectives This research addresses Abu Dhabi s and Dubai s street connectivity at the neighborhood local and city global scales It focuses on two parameters of street network analysis efficiency and centrality Efficiency is evaluated in terms of directness noting that network designs that provide short and direct access between origins and destinations are more efficient Centrality is evaluated using graph theory metrics that enable the identification of high and low accessibility locations within networks The conventional suburban model of low density automobile centric development with fragmented streets cannot foster high levels of accessibility within neighborhoods This study offers an alternative evidence based suburban design model for future cities
