Managerial Economics William F. Samuelson, Stephen G. Marks, Jay L. Zagorsky, 2021-01-13 Managerial Economics 9th Edition introduces undergraduates MBAs and executives to the complex decision problems today's managers face providing the knowledge and analytical skills required to make informed decisions and prosper in the modern business environment. Going beyond the traditional academic approach to teaching economic analysis, this comprehensive textbook describes how practicing managers use various economic methods in the real world. Each in-depth chapter opens with a central managerial problem challenging readers to consider and evaluate possible choices and concludes by reviewing and analyzing the decision through the lens of the concepts introduced in the chapter. Extensively updated throughout, the text makes use of numerous extended decision-making examples to discuss the foundational principles of managerial economics, illustrate key concepts, and strengthen students' critical thinking skills. A range of problems building upon material covered in previous chapters are applied to increasingly challenging applications as students advance through the text. Favoring practical skills development over complicated theoretical discussion, the book includes numerous mini problems that reinforce students' quantitative understanding without overwhelming them with an excessive amount of mathematics. The business world has been transformed by information technology and online companies which benefitted during the Covid 19 pandemic unlike the traditional retail sector of the economy. The well known Amazon has seen the emergence of Asian alternatives Alibaba from China and Coupang from South Korea both of which have the transnational venture capital firm SoftBank of Japan as a large share owner. This book explores performance and potential in e-commerce and fin-tech internationalisation strategies, governance problems associated with foreign corporations in South Korea and anti-monopoly drive aimed at China's tech giants. Diverse topics are covered including the results, impacts and implications of US stock exchange listings, liability of foreignness, dual class structure and importance of corporate governance and social responsibility signalling and messaging. The chapters also cover local and global expansion, takeovers, mergers and acquisitions such as Lazada for the South East Asian market and levels of satisfaction and loyalty. Finally SoftBank is used as an example of individual and collective entrepreneurial learning in the case of SoftBank Academia.
