overview of the background major issues and different approaches to international management research The second chapter offers a typology of research designs in international management and shows the role culture plays in such designs The theories and paradigms that serve international and cross cultural management research are examined in the third chapter Chapter four examines and defines culture its process and components The final chapter pulls the describing arguments together to show how the construct of culture can be used in international management research Throughout the author provides numerous illustrative examples from key empirical studies International Management Dean McFarlin,Paul D. International Management and International Relations Ana Guedes,Alex Faria,2010-04-23 Over the last few decades the field of management enlarged its boundaries especially in international terms in a very rapid fashion mainly because of the arrival of the so called era of globalization Many renowned

scholars have criticized the universal approach given to management in the United States and its subsequent automatic conversion into international management but their arguments too can fall into the trap of universalism at times This book has a more specific concern to challenge the conversion of management into international management from a Latin American perspective This challenge might be taken as a first step toward the construction of a Latin American perspective in International Management and a potential contribution to the development of this field in other parts of the world Drawing upon such critical standpoint several authors in the book converge upon the idea that researchers practitioners and authorities in Latin America should challenge the US dominance in International Management and foster interdisciplinary developments within International Relations The critical perspective provided in this book challenges the US s narrow viewpoint on management as it clearly does not fit the governance features of international management in Latin America So far we have not observed the constitution of sub areas such as international management of international organizations international management of transnational institutions international management of public private networks international management of public companies and international public administration or international public management all of which would be extremely important in Latin America
