Home Care Nursing: Surviving in an Ever-Changing Care Environment Tina M. Marrelli, 2016-09-16 Tina M Marrelli's new book *Home Care Nursing: Surviving in an Ever Changing Care Environment* is a practical and comprehensive guidebook written concisely and without jargon or insider acronyms making the book accessible to anyone whose work is connected to home care nursing services. Designed to provide chapters as stand alone resources for readers with previous experience seeking updated guidance, *Home Care Nursing* is also an excellent guide for course or orientation material. Each chapter is packed with practical questions, discussion topics, and additional resources such as a complete Medicare Benefit Policy for reference. Additionally, offering more than just an overview of the healthcare and home care markets, this book discusses the unique practice setting and environment of home care nursing, the laws, regulations, and quality, and how to make the leap into the field, document your home visit, and improve your professional growth and development. [Handbook of Home Health Standards](#) Tina M. Marrelli, 2018-02 This 6th edition of this comprehensive handbook provides practical information about complex Medicare and other rules in home care. Areas include OASIS considerations, possible patient goals, outcomes, skills based on the assessed patient needs, comfort consideration, and caregiver considerations. All you need to know about care planning. Other areas include tips for supporting medical necessity, quality, and reimbursement, and more. The Medicare Benefit Policy Manual, Chapter 7, Home Health Services, is reprinted for easy reference and use. *Handbook of Home Health Standards and Documentation Guidelines for Reimbursement* T. M. Marrelli, 1998 In addition with the updated HCFA home health agency manual coverage, as well as coverage and documentation guidelines, forms may be completed with knowledge of the latest Medicare rules. Best of all, the OASIS B form which is hot off the press is included in its entirety.

accurately **Home Health Aide On-The-Go In-Service Lessons: Vol. 1, Issue 6: Observing, Recording, and Reporting**, 2007-12-31 This lesson on Observing Recording and Reporting includes a complete training packet Each in service packet takes approximately one hour to complete and fully meets the Medicare in service training requirements As aides need training you can make as many copies as you want there s no restriction when used with aides assigned from your office location Remember that Home Health Aides must have 12 hours of in service training every year LESSON OBJECTIVES Upon completion of this program the home health aide will be able to List three methods of observing patients Identify the differences between objective and subjective reporting List four patient observations which must be recorded and reported and Recognize the importance of knowing what to report LESSON OVERVIEW One of the Conditions of Participation COP 484 36 addresses home health aide services A frequently cited deficiency is in the Standard Assignment and duties of the home health aide 484 36 c The State Operations Manual indicates that surveyors should always make at least one home visit to observe a home health aide providing direct service In addition the surveyor may question the aide informally and will certainly review records of patients receiving home health aide services The Standard Coordination of patient services is another problematic area frequently cited during surveys The standard in 484 14 g mandates that all personnel providing services maintain liaison to ensure coordination of care and that the clinical record establishes that effective interchange and reporting of patient care does occur A lack of documentation by home health aides frequently contributes to deficiency in this standard The Interpretive Guidelines gives specific guidance to surveyors to look for documentation by home health aides in the clinical record describing significant information or changes in the patients conditions and to whom these changes were reported As agencies struggle to provide the highest quality most cost effective care for patients in the Prospective Payment System PPS the importance of observation and reporting by home health aides has taken on even greater importance Patient problems need to be identified and acted upon as quickly as possible It is likely that the home health aide spends more time with the patient than any other discipline and thus is more likely to note changes in the patient sooner The subject of observing recording and reporting should be addressed frequently with them
