European Review of Social Psychology: Volume 25 Miles Hewstone, Wolfgang Stroebe, 2017-07-05 The European Review of Social Psychology ERSP is an international open submission review journal published under the auspices of the European Association of Social Psychology It provides an outlet for substantial theory based reviews of empirical work addressing the full range of topics covered by the field of social psychology Potential authorship is international and papers are edited with the help of a distinguished international editorial board Articles published in ERSP typically review a

programme of the author's own research as evidenced by the author's own papers published in leading peer reviewed journals. The journal welcomes theoretical contributions that are underpinned by a substantial body of empirical research which locate the research programme within a wider body of published research in that area and provide an integration that is greater than the sum of the published articles. ERSP also publishes conventional reviews and meta analyses. All published review articles in this journal have undergone rigorous peer review based on initial screening and refereeing by the Editors and at least two independent expert referees.

The Growth Behavior of Family Firms Annika Geyer, 2016-03-22 Annika Geyer aims to advance the current understanding of variations in family businesses' growth performance and to explain their potential origins. She focuses on the respective impact of the set of relevant background factors stemming from top executives' individual characteristics as well as the given organizational and social environment on the firms' growth performance and the underlying processes through which this impact is transmitted. The insights of this work constitute an essential step towards settling the debate on how the family actually contributes to the family firm's performance and hold some important implications for practitioners.

Dialogues in Middle Level Education Research Volume 1 David C. Virtue, 2022-07-22 Mirroring the roundtable discussions conducted at the 2020 Association for Middle Level Education (AMLE) conference, this volume highlights the dialogic knowledge building process critical to advancing middle level teaching and research. Launching the new AMLE Innovations in Middle Level Education Research series, this collection captures the synergetic dialogue that occurs during professional meetings by collating and centering five recent studies on topics such as mathematics achievement, personalized and project based learning, and teacher collaboration. A companion essay and critical external response accompanies each study, serving to re-situate original research and reconsider findings in view of professional insights and external critique gained through discussion at AMLE 2020. Ultimately, these response essays foreground potential avenues for future research and alternative thinking, laying the groundwork for implementation of critical discussion in the classroom environment. This text will benefit researchers, doctoral students, and academics in the fields of middle level education, educational research, and specifically research methods in education. Those interested in teaching and learning and adolescent development more broadly will also benefit from this volume.

Handbook of Social Psychology, Volume 1 Susan T. Fiske, Daniel T. Gilbert, Gardner Lindzey, 2010-02-15 First published in 1935, The Handbook of Social Psychology was the first major reference work to cover the field of social psychology. The field has since evolved and expanded tremendously, and in each subsequent edition, The Handbook of Social Psychology is still the foremost reference that academics, researchers, and graduate students in psychology turn to for the most current, well-researched, and thorough information covering the field of social psychology. This volume of the Fifth Edition covers the science of social psychology and the social being.

Behavioral Science & Policy: Volume 1, Issue 1 Craig Fox, Sim B. Sitkin, 2015-06-23 The success of nearly all public and private sector policies hinges on the behavior of individuals groups and organizations Today such behaviors are better understood than ever thanks to a growing body of practical behavioral science research However policymakers often are unaware of behavioral science findings that may help them craft and execute more effective and efficient policies The pages of this new journal will become a meeting ground a place where scientists and non scientists can encounter clearly described behavioral research that can be put into action By design the scope of BSP is broad with topics spanning health care financial decisionmaking energy and the environment education and culture justice and ethics and work place practices Contributions will be made by researchers with expertise in psychology sociology law behavioral economics organization science decision science and marketing The first issue includes articles that challenge assumptions that many people have about behavioral policy interventions This includes the assumption that intuitions are a valid indication of policy effectiveness the assumption that large effects require large interventions the assumption that pre selecting defaults is more coercive than forcing citizens to make a choice and the assumption that the effectiveness of behavioral nudges requires that people not be informed about them The journal is a key offering of the Behavioral Science Policy Association in partnership with the Brookings Institution The mission of BSPA is to foster dialog between social scientists policymakers and other practitioners in order to promote the application of rigorous empirical behavioral science in ways that serve the public interest BSPA does not advance a particular agenda or political perspective The first issue s contents follow

SELF - A Multidisciplinary Concept Theresa Dicke, Herbert Marsh, Rhonda G. Craven, Dennis M. McInerney, 2021-01-01 Research on the self relates to various phenomena including self esteem self concept self verification self awareness identity self efficacy passion self determination and goals Moreover research on self is multidisciplinary and of interest to a broad range of areas such as education economics social psychology neuro sciences motivation physical activity and behavior sciences philosophy and learning sciences Chapters in this volume will illustrate some of the best of the research within these disciplines examining different aspects of self from various perspectives A feature of this volume is that we will explore not only positive aspects of high perceived levels of self determination and competence or self concept on achievement motivation and wellbeing but also the dark side of an uncertain and negative self on identity and wellbeing We learn from this that the self is a dynamic and powerful yet fragile

and highly amenable construct that needs self care and constant reassurance SELF A Multidisciplinary Concept thus highlights the broad application of self research and its diversity This volume is intended to develop both theoretical and methodological ideas and to present empirical evidence of various disciplines and applications dealing with self The scope of this seventh volume of the International Advances in Self Research series started in 2000 by Herbert W Marsh Dennis M McInerney and Rhonda G Craven is thus very broad Keeping within the tradition of the series this volume will highlight the applicability of a multitude of empirical approaches and methods to self research We also aimed to maintain a balance between discussing theoretical research in SELF and deriving implications for effective practice This volume thus includes chapters covering self related topics within an educational social emotional psychological physiological managerial and health context Family Businesses' Growth Laura K.C. Seibold,2020-03-10 Growth is one of the central strategic topics in management science A growing enterprise embodies success and growth supports the longevity of the business In her book Laura Seibold provides an overview of the literature on general growth components and different theoretical growth models with a special focus on family enterprises The author formulates a comprehensive model of how growth can be achieved in family firms This derived model combines the insights from general growth theory family specific literature and the insights of top family firm leaders
