Mohammad Nabil Almunawar, Md Zahidul Islam, Patricia Ordóñez de Pablos, 2022-02-27 *Digitalisation and Organisation Design* aims to address key topics related to organisation design and knowledge management in the digital economy with organisational context particularly in Asia. Asian nations are moving fast toward the digital economy. Doing business in the digital economy is different from the old way and the role of organisation design and knowledge management is crucial to support innovative and creative ideas for tapping the huge market opportunities in which people are ready for digitalisation. Chapters in the book cover important topics related to organisation design and knowledge management for organisations especially business organisations in Asia to prepare and cultivate necessary means for advancing in the digital economy. This book offers readers a unique value bringing new perspectives to understanding emerging business opportunities and challenges in Asia. It will present a valuable collection of chapters with empirical studies from leading researchers on the related topic within the main theme: Asian economies, digitalisation, knowledge management, organisational design. The collection of chapters will be conceptually and practically beneficial for academics, students and policy makers interested in the latest developments in organisation design and knowledge management in the digital economy in Asia. This book can be used as a main or supplementary resource for undergraduate and postgraduate students in business and related areas.

Data-Driven Design and Construction Randy Deutsch, 2015-08-27 In this comprehensive book Professor Randy Deutsch has unlocked and laid bare the twenty-first century codex nascosto of architecture. It is data. Big data. Data as driver. This book offers us the chance to become informed and knowledgeable pursuers of data and the opportunities it offers to making architecture a wonderful, useful and smart art form. From the Foreword by James Timberlake FAIA. Written for architects, engineers, contractors, owners and educators and based on today's technology and practices. *Data Driven Design and Construction: 25 Strategies for Capturing, Applying and Analyzing Building Data* addresses how innovative individuals and firms are using data to remain competitive while advancing their practices. It seeks to address and rectify a gap in our learning by explaining to architects, engineers, contractors and owners and students of these fields how to acquire and use data to make more informed decisions. Documents how data-driven design is the new frontier of the convergence between BIM and architectural computational analyses and associated tools. This is a book of adaptable strategies you and your organization can apply today to make the most of the data you have at your fingertips. *Data Driven Design and Construction* was written to help design practitioners and their project teams make better use of BIM and leverage data throughout the building lifecycle.

Additional facets of cognitive science are discussed in the handbook's introductory chapter. Ethics and Data Science Mike Loukides, Hilary Mason, DJ Patil, 2018-07-25. As the impact of data science continues to grow on society, there is an increased need to discuss how data is appropriately used and how to address misuse. Yet ethical principles for working with data have been available for decades. The real issue today is how to put those principles into action. With this report, authors Mike Loukides, Hilary Mason and DJ Patil examine practical ways for making ethical data standards part of your work every day. To help you consider all of possible ramifications of your work on data projects, this report includes: A sample checklist that you can adapt for your own procedures. Five framing guidelines: the Five C's for building data products: consent, clarity, consistency, control and consequences. Suggestions for building ethics into your data-driven culture. Now is the time to invest in a deliberate practice of data ethics for better products, better teams and better outcomes.
