Health In The Occupied Palestinian Territory:

Right to Health ,2023 This report is produced as part of WHO s Right to Health programme in the occupied Palestinian territory which focuses on monitoring and documentation of barriers to the right to health for Palestinians capacity building for strengthening the right to health and a human rights based approach to health as well as advocacy towards ending barriers and violations of the right to health The purpose of the report is to provide analysis of data collected through monitoring to support evidence based advocacy to strengthen respect protection and fulfilment of the right to health in the occupied Palestinian territory The data and analysis included in the report builds on previous annual reporting see more recent years 2018 2017 2016 2014 2015 WHO monthly access reporting and WHO health attacks monitoring Further information resources for the right to health produced by WHO in the occupied Palestinian territory can be found online This report specifically analyses data on barriers to the right to health for Palestinians in the West Bank including east Jerusalem and the Gaza Strip for 2019 to 2021 with additional retrospective analyses to demonstrate longer term trends and structural limitations It focuses on **German Practice in International Law: Volume 1** Stefan Talmon,2022-06-09 Customary international law is based on State practice This book presents the international law practice of Germany the world s fourth largest economy and a powerhouse of the European Union That practice makes an important contribution to the creation and development of customary international law It is the first and only presentation in English of German practice in the field of international law The 2019 volume also provides comprehensive coverage of Germany s membership of the United Nations Security Council The book combines a case study approach providing analysis and commentary on Germany s practice with a classic digest of primary materials including diplomatic correspondence statements and court decisions The book is an ideal complement to other compilations of international law practice and is an essential resource for scholars and practitioners of international law It will also be of interest to scholars of international relations politics and diplomatic studies Protecting Human Rights in Occupied Palestine Richard Falk,John Dugard,Michael Lynk,2023-01-15 This book is the first comprehensive examination of UN efforts to protect Palestinian human rights in the territories occupied by Israel more than 50 years ago in the 1967 War Working through the UN Human Rights Council in Geneva three top international legal experts served for six consecutive years as unpaid Special Rapporteurs with a UN mandate to report on Israeli violations of international humanitarian law and human rights standards Being outside the discipline that controls UN bureaucrats they enjoyed a high measure of political independence in carrying out their factfinding and reporting missions Strikingly despite their differences in background and political outlook they came to a unanimous consensus confirming the routine and various Israeli violations of Palestinian basic rights This book recounts their frustrations their trials their experiences and their conclusions This joint effort breaks new ground in studies by the UN in several respects It demonstrates both the positive role played by the UN in a politically controversial area and its blockage by geopolitical forces preventing it from securing

the implementation of international law However the intense reactions of Israel and pro Israeli NGOs to this UN work most notably by UN Watch attest to the significance of a reliable accounting of Israeli violations of Palestinian human rights Their consistent evasion of the substantive charges made by careful reporting and recourse by Israeli supporters to discrediting defamatory attacks on the persons of these Special Rapporteurs with charges of anti Semitism the core of which is subtly shifted from its proper usage as hatred of Jews to justifiable criticism of the state of Israel While some might argue that the UN inability to enforce international law as futile or worse view the UN as merely a vehicle of power politics this book proves that international public opinion and international solidarity politics are influenced by persuasive expert findings as to international law Such well evidenced conclusions encourage transnational activism as is evident from increased worldwide support for the BDS Campaign and other nonviolent external pressures This brilliant and authoritative account of the manner in which Israel has administered the Occupied Palestinian Territory during the past 20 years should be regarded as the definitive assessment of that situation

The Lancet ,2009 *Am I Not a Human? (11): The Suffering of the Palestinian Patient under the Israeli Occupation* Fatima Itani, 'Atef Daghlal, 2012-10-20 The Suffering of the Palestinian Patient under the Israeli Occupation is the new book published by Al Zaytouna Center for Studies and Consultations in Beirut The book addresses the suffering of the Palestinian patients and the Palestinian health sector due to Israeli violations These include the vast difference in health care between the Jews and Arabs the experimentations done on Arab patients the repercussions of the siege on the Gazan patients in addition to the influence of the Israeli checkpoints and the separation wall on the patients in the West Bank the suffering of the patients held in the Israeli jails and the deliberate targeting of medical personnel The book prepared by Fatima Itani and Atef Daghlal and edited by Dr Mohsen Saleh and Rana Saadah is 128 pages of medium size It is the 11th in the Am I Not Human series which endeavors to present a full and complete picture of the suffering of Palestinians under Israeli occupation It tries its best to address the hearts and minds with the most accurate concrete and documented framework The book cites many cases of patients whose suffering is exacerbated by Israeli obstacles and the difficult conditions of Palestinian health care institutions The book also addresses the delays at the Israeli checkpoints and the gates of the Separation Wall in addition to impeding the access of patients and pregnant women to health care centers The number of patients who died at the checkpoints has amounted to 401 since the outburst of the Intifadah and till 31 1 2011 On another hand the book highlights the deterioration of health care sector in the Gaza Strip as a result of the Israeli siege which was imposed since mid 2007 It led to a serious shortage of medicine medical instruments other necessary requirements for hospitals and even ambulances These conditions caused the death of 380 Palestinians The book also includes comparative statistics which illustrate the gap s magnitude between health care offered to Jews and Palestinians It mentioned that in 2008 the average per capita allocations of health resources was 2 145 in Israel compared to 165 5 in the Palestinian Authority Territories while the number of beds in 2009 reached 42 119 beds in Israeli hospitals

compared to 5 058 beds in Palestinian hospitals The book sheds light on the experimentations performed on Palestinian patients in the Israeli hospitals including children old and mentally ill patients without their own or their legal custodians permission It reveals the testing of serious drugs on the Palestinians prisoners and the illegal trade of Palestinian human organs from corpses to treat Israeli patients including soldiers This conduct fails to respect international covenants which regulate medical experimentations on patients In addition the book tackles the Israeli policy of deliberate medical neglect regarding the prisoners and preventing them from getting proper medical care These conditions increased in the number of sick prisoners and exacerbated their diseases even after their release Consequently and since 1967 over 51 Palestinian prisoners died in the Israeli prisons The Israeli policy of preventing patients from traveling abroad to get treatment was also discussed in the book For Israel has the tendency to impose conditions of collaboration with the Israeli authorities and revealing information about their wanted relatives or neighbors in order to get proper treatment in Israel The frequent Israeli attacks on Palestinian medical personnel were also exposed The personnel are fired at physically and verbally abused and obstructed from reaching patients or even the injured During Israeli military operations ambulances and medical facilities are always targeted

Cancer Care in Areas of Conflict Omar Shamieh,Fouad M. Fouad,Asem H. Mansour,Richard Sullivan,Tezer Kutluk,2023-11-23 Cancer is a global burden with more than 18 million diagnosed and an estimate of 10 million deaths in 2020 worldwide Cancer continues to be a major and growing problem in conflict affected areas too The incidence of cancer is expected to rise significantly in those countries compared to the rest of the world Conflict massive migration and displacement has put a tremendous pressure on all health care systems and health economy which halted improvement in many cancer care in majority of the countries Countries affected by conflict like Syria Ukraine Iraq Yemen Latin America and others has led to destruction of the whole countries healthcare infrastructure including health care facilities diagnostic facilities and unavailability of drugs and loss of health care professionals due to death migration or disabilities This lead to inequitable access to care lack of prevention loss of screening programs delay in diagnosis loss of follow up and in many cases no anticancer therapy or palliative care to offer Historically most of humanitarian aid was focused on basic needs and first aid leaving NCDs including cancer care with trivial support if any Recently with the Russian invasion of Ukraine and the negative global economic crisis refugees all over the globe will have devastating impact on cancer care screening early detection treatment and palliative care

The Deadly Intersections of COVID-19 Sunera Thobani,2022-07-28 This pioneering book demonstrates the disproportionate impact of state responses to COVID 19 on racially marginalized communities Written by women and queer people of colour academics and activists the book analyses pandemic lockdowns border controls vaccine trials income support and access to healthcare across eight countries in North America Asia Australasia and Europe to reveal the inequities within and between countries Putting intersectionality and economic justice at the heart of their frameworks the authors call for collective action to end the pandemic and transform

global inequities Contributing to debates around the effects of COVID 19 as well as racial capitalism and neoliberal globalization at large this research is invaluable in informing future policy

War on Gaza Abdo Hassoun,2025-07-01 The relentless bombardment and blockade on Gaza have not only drastically restricted the inflow of essential food supplies but have also led to a catastrophic humanitarian crisis with unprecedented casualties The widespread destruction has crippled the ability of the population to grow and process food leaving Gazans without sufficient access to basic nutrition and pushing them to the brink of famine Building on the previous work of Dr Hassoun on acute food insecurity and malnutrition in Gaza this book addresses not only Sustainable Development Goal SDG 2 Zero Hunger SDG 3 Good Health and Well being and SDG 6 Clean Water and Sanitation but all seventeen SDGs While brief reports have been published on the topic this will be the first in depth scholarly work offering case studies data driven analysis from various fields and a comprehensive examination of the multidimensional and devastating impacts of war With an urgent and multidisciplinary perspective this book highlights the interconnectedness of war sustainability and global security emphasizing how hostilities in Gaza have reversed progress toward achieving all SDGs both in Gaza and beyond Bringing together diverse expertise from 60 authors across 27 countries the book showcases the international and interdisciplinary collaboration underlying its research Through a series of carefully curated chapters written by specialists in various fields it provides a comprehensive analysis of how war has affected societal structure economic resilience and environmental sustainability in Gaza For each issue addressed the text offers strategic insights and practical measures aimed at mitigating damage and fostering resilience This book serves as a critical resource for policymakers researchers humanitarian organizations and anyone who is interested in understanding and addressing the complex dynamics of conflict and sustainability
