Economic crises in history teaching Council of Europe, 2025-10-01 How can history education equip students to understand and confront the economic crises of yesterday and tomorrow Since the beginning of the 21st century the economic consequences of the debt crises of 2007 and 2008 of the Covid 19 pandemic and of Russia's war of aggression against Ukraine have continuously challenged the livelihood of many families in Europe and around the world Understanding economic crises from a historical perspective enables students to better respond to present and future experiences of such crises The mission of the Observatory on History Teaching in Europe OHTE is to provide a clear picture of the state of history teaching in its member states This is done through OHTE general reports on the state of history teaching in Europe and OHTE thematic reports which explore particular areas of interest and how they are treated in history lessons The second thematic report of the OHTE investigates the extent and the ways in which learners are being prepared to understand and cope with such crises through history education in the public schooling systems of OHTE's 17 member states It combines curriculum and textbook analysis with an explorative study of teachers' experiences and summarises its most significant conclusions into 10 key findings listed in the introductory chapter *La enseñanza de la Historia como articulación de las masas* Emilio Castillejo Cambra, 2025-06-10 Las lites políticas intelectuales y sociales impulsadas por el miedo a la alteración del orden social han construido históricamente la imagen de unas masas irracionales violentas incapaces de construir nada bello Esta obra pretende evidenciar cómo la enseñanza de la Historia cuyo texto más visible es la historiografía escolar los manuales de Historia ha sido uno de los instrumentos de transmisión de esa imagen que se ha desplegado a través de distintos discursos tradicionalista integrista conservador falangista desde los orígenes del sistema educativo hasta hoy Cada uno de esos discursos para conjurar el miedo a las masas las pretende articular en torno a un pasado una identidad una herencia una tradición que las convierte en pueblo les ofrece un proyecto social de futuro un horizonte utópico sea reaccionario o modernizador y les señala las lites adecuadas para llevarlo a cabo sean arcaicas o innovadoras Pero en la historiografía escolar se han desplegado también discursos alternativos el liberal humanitario con una fuerte carga tica muestra más confianza en el pueblo y ofrece como horizonte la democracia el del partido de la ciencia muy dubitativo interesado en la búsqueda de la verdad historiográfica aflora solo desde la Transición y se distancia de cualquier identidad o proyecto social **Enseñar Historia al margen de los cuerpos.** CASTILLEJO CAMBRA Emilio, 2022-03-01 En el seno del Departamento de Historia de la Educación y Educación Comparada de la UNED se lleva a cabo desde 1992 una amplia investigación sobre los manuales escolares de los siglos XIX y XX Proyecto MANES proyecto de carácter interdisciplinar e interuniversitario en el que colaboran investigadores de diversas universidades e instituciones españolas europeas y latinoamericanas En la actualidad este grupo de investigación está integrado en el Centro de Investigación MANES Fruto del trabajo de todos estos años son los diversos títulos que han visto la luz en esta colección La obra Enseñar Historia al margen de los cuerpos El cuerpo y sus met

foras en la historiografía escolar española desde el siglo XIX a la actualidad se pregunta por las razones de la débil presencia que ha tenido y tiene el cuerpo en la enseñanza de la historia en España a pesar de que el cuerpo es lo que permite al ser humano relacionarse con el mundo construir la civilización y que la piel es el lugar más indicado para leer las huellas casi siempre dolorosas de la historia Esta pregunta halla una doble respuesta Argumentos antiguos como el desprecio de la mentalidad católica por el cuerpo imperante durante decenios en el sistema educativo o el tradicional protagonismo de las grandes metáforas que aniquilan los cuerpos reales el Cuerpo Místico de Cristo la Iglesia que favorece el olvido de las víctimas de la intransigencia religiosa el Cuerpo Social en cuyo nombre se olvidan los cuerpos que trabajan el Cuerpo Nacional que siempre procura el olvido de los muertos en su nombre Y argumentos nuevos el pudor moderno que tiende a esconder y escamotear los cuerpos o el pensamiento técnico que tiende a justificar la explotación de los cuerpos en nombre del progreso La conclusión es obvia sólo confirmando al cuerpo la dignidad que merece es posible humanizar la historia

Mors certa, hora incerta. Tradiciones, representaciones y educación ante la muerte Sara González Gómez, Iván Pérez Miranda, Alba María Gómez Sánchez, 2016-02-01 A lo largo de la historia se han ido consolidando una serie de ideas enfoques imágenes y costumbres que han contribuido sin duda a crear o consolidar un imaginario social y colectivo en torno a la muerte a educar en fin de una forma u otra en lo que la muerte representa y supone para las personas A pesar de la innegable certeza de que la muerte forma parte de la propia vida la aceptación de aquella como algo connatural se convierte en una cuestión de enorme complejidad especialmente en el mundo contemporáneo A partir de estas consideraciones generales nace el proyecto de elaborar el presente libro que lleva por título *Mors certa hora incerta Tradiciones representaciones y educación ante la muerte* Los once estudios que componen la obra colectiva que aquí se presenta y que han sido redactados por profesionales de diversas procedencias Brasil España Italia y Portugal constituyen un honesto esfuerzo encaminado a ampliar una línea de investigación poco cultivada hasta el momento la reflexión en torno a la muerte desde la perspectiva de su imbricación con tradiciones ritos y costumbres históricas de su representación en la literatura textos y materiales escolares y en definitiva de todo el proceso inherente a la construcción deconstrucción del tabú de la muerte El lector tiene pues a su disposición una original aportación a partir de la cual se espera poder abrir nuevas vías de investigación desde un enfoque de estudio histórico filosófico y/o educativo y que tengan en la muerte su leitmotiv entendida siempre como algo consustancial al ser humano

porque con frecuencia van más allá de las leyes decretos y circulares que emanan de distintas administraciones. Trabas que se introducen en el lugar más difícil de penetrar: la propia conciencia de los hombres y mujeres sometida durante años a la recepción de mensajes que invitan a la consideración de espacios, actitudes, gustos, expectativas desiguales para uno y otro sexo, fruto de una socialización diferenciada. Discursos verbales o icónicos que los invitan a crear identidades personales y profesionales determinadas no por las preferencias propias de la diversidad que caracteriza a la especie humana sino por el hecho no elegido de haber nacido con unos órganos sexuales específicos. Esta obra pretende contribuir al desvelamiento de algunos de esos discursos dirigidos a las mujeres dentro del terreno de la educación formal. Para ello se ha realizado un análisis exhaustivo de probablemente su recurso didáctico protagonista: el libro de texto, instrumento socializador con un poder relevante en la conformación de las identidades personales y por consiguiente con potencial influencia en la transmisión y configuración de una cultura sociolaboral sesgada por género. La época elegida ha sido la España democrática que comienza tras el fin de la dictadura franquista en 1975 y se prolonga hasta nuestros días. Los resultados darán mucho que pensar al público lector y lo concienciarán del camino que hay que recorrer para el logro de una sociedad más justa para toda la ciudadanía.

La nueva realidad social en época de crisis

Sonsoles Carderón López, Roberto Moreno López, José Manuel López Terán, 2024-02-01. Los temas que aborda esta obra reflejan la diversidad de desafíos y oportunidades en el ámbito de la educación social y el trabajo social. La percepción profesional del ingreso mínimo vital destaca la necesidad de evaluar sus impactos y expectativas con el énfasis puesto en la perspectiva de género. La Pedagogía de la muerte investigada cuantitativamente en la Universidad de Castilla-La Mancha ofrece una mirada educativa a un tema complejo. La docencia de la cooperación internacional en Educación Social se presenta como un valor clave en momentos de crisis, resaltando la práctica profesional de los educadores sociales en este contexto. La distribución de roles de género durante el confinamiento y el análisis del impacto de la COVID en la organización del trabajo de cuidados exploran cambios significativos en la dinámica familiar. La mirada social y educativa a través del arte sugiere la utilización del arte como una herramienta para la comprensión social y educativa. Además, la desigualdad y la sociedad digital revelan las disparidades sociales en el entorno digital, mientras que la igualdad de género y la violencia en el trabajo evidencian la importancia de los protocolos para abordar el acoso. Estos temas también entran en cuestiones éticas y deontológicas en la educación social, así como en retos específicos en la formación de educadores sociales. Se hace hincapié en la intervención desde el trabajo social ante políticas sociales, en especial en el caso del derecho de asilo por razón de orientación sexual e identidad de género. Además, se analizan estrategias innovadoras para incorporar los Objetivos de Desarrollo Sostenible en la enseñanza universitaria, mostrando un compromiso con el desarrollo sostenible en el ámbito educativo.

Avances en el estudio sobre el lenguaje científico y académico

Ventura Salazar García, María Aurora García Ruiz, 2023-04-01. Los quince estudios que componen el presente volumen ofrecen un acercamiento plural al lenguaje científico y académico desde diversas disciplinas del ámbito de las Humanidades y de las

Ciencias de la Educación Se distribuyen en cuatro secciones El capítulo introductorio aimed anticipar el contenido de las aportaciones posteriores incide sobre algunas de las claves lingüísticas y epistemológicas que configuran la naturaleza de este lenguaje de especialidad así como de su enseñanza en el actual contexto universitario español La siguiente sección muestra cómo el moderno discurso científico hunde sus raíces en el montañar clásico tanto en lo que se refiere a su génesis filosófica como a la clasificación lexicológica de su terminología La tercera sección plantea propuestas de vocación aplicada en las que la caracterización del registro académico es inseparable de los cauces para su enseñanza en los ciclos formativos superiores La última sección atiende ciertos interrogantes que suscita el lenguaje de especialidad desde la óptica de determinadas disciplinas particulares que van de la historia del arte a la traducción literaria pasando por la didáctica el análisis de discursos multimodales etc En definitiva estas páginas ponen de relieve el papel nuclear que desempeña el lenguaje académico en la construcción y la transmisión del conocimiento
