Holy Land A Suburban Memoir Dj Waldie:

Holy Land D. J. Waldie, 2013-04-22 Infinitely moving and powerful just dead on right and absolutely original Joan Didion Since its publication in 1996 *Holy Land* has become an American classic In quick translucent prose Michiko Kakutani New York Times that is at once lyrical and unsentimental D J Waldie recounts growing up in Lakewood California a prototypical post World War II suburb Laid out in 316 sections as carefully measured as a grid of tract houses *Holy Land* is by turns touching eerie funny and encyclopedic in its handling of what was gained and lost when thousands of blue collar families were thrown together in the suburbs of the 1950s An intensely realized and wholly original memoir about the way in which a place can shape a life *Holy Land* is ultimately about the resonance of choices how wide a street should be what to name a park and the hopes that are realized in the habits of everyday life Where We are Now D. J. Waldie, 2004 *Where We Are Now* Notes from Los Angeles is the second book by D J Waldie one of the most gifted writers on the American scene As Patt Morrison notes in her foreword The suburb is America s lifeline and its punchline and Waldie is its bard Few observers can present the facts of everyday life with the texture and emotion of a symphony the way Waldie does Becoming Los Angeles D. J. Waldie, 2020 Best selling author and beloved chronicler of Los Angeles D J Waldie reconsiders the city in a collection of contemporary essays Nobody sees Los Angeles with more eloquence than D J Waldie Susan Brennehan Los Angeles Times Deputy Op Ed Editor *Becoming Los Angeles* a new collection by the author of the acclaimed memoir *Holy Land* blends history memory and critical analysis to illuminate how Angelenos have seen themselves and their city Waldie s particular concern is commonplace Los Angeles whose rhythms of daily life are set against the gaudy backdrop of historical myth and Hollywood illusion It s through sacred ordinariness that Waldie experiences the city s seasons In his exploration of sprawling Los Angeles he considers how the city s image was constructed and how it fostered willful amnesia about the city s conflicted past He encounters the immigrants and exiles the dreamers and con artists the celebrated and forgotten who became Los Angeles He measures the place of nature in the city and the different ways that nature has been defined He maps on the contours of Los Angeles what embracing or rejecting an Angeleno identity has come to mean *Becoming Los Angeles* draws on a decade of Waldie s writing about the intersection of the city s history and its aspirations He asks what do we talk about when we talk about Los Angeles today In a global cosmopolitan city is there value in cultivating a local imagination And he wonders how to describe a city that is denser and more polarized and challenged by climate change homelessness and economic disparity There will always be romance in the idea of Los Angeles but it requires renewed hope to sustain *Becoming Los Angeles* is a further account of how Waldie gained a sense of place which James Mustich author of 1 000 Books to Read Before You Die described as an almost sacramental act of attention *Becoming Los Angeles* is ultimately a book about learning how to fall in love with wherever it is you are Called a writer whose work is a gorgeous distillation of architectural and social history by the New York Times whose essays and memoirs said the Los Angeles Times conjure the idiosyncratic

splendor of Southern California life D J Waldie is the author of the acclaimed *Holy Land* A Suburban Memoir and other books that illuminate the ordinary and the everyday in lyrical prose In collaboration with Diane Keaton Waldie provided the text for two photographic explorations of home California Romantica dealing with homes in the Spanish Colonial Revival Style of the early twentieth century and *House* examining post modern interpretations of domesticity California Romantica became a Los Angeles Times non fiction bestseller in 2007 D J Waldie s narratives about suburban life have appeared in BUZZ The Kenyon Review The Massachusetts Review The Georgetown Review Salon dwell Los Angeles Magazine Spiritus Gulf Coast Urbanisme Bauwelt and other publications His book reviews and commentary have appeared in the Los Angeles Times the Wall Street Journal and the New York Times He lives in the home where he was born in Lakewood California where he was formerly the Deputy City Manager

Real City D. J. Waldie, 2001 In an exploration of one of the most visited Real Cities in the world photojournalist Marissa Roth has captured the heart of the City of Angels in photographs that at once capture its up sides and its down sides More than just palm trees and sunsets these black and white photos define the Real City as only an artistic genius can With lyrical text by the award winning author D J Waldie this is more than a photo book it grabs a culture and exposes it to the world Illustrated in duotone throughout

Close to Home D. J. Waldie, 2004 A Siamese cat beneath a clothesline three women with linked arms standing on the front lawn a man drying his hands on a dish towel in front of the kitchen stove These scenes are part of *Close to Home* and the accompanying the Getty Museum exhibition held from October 12 2004 to January 16 2005 which celebrate snapshots found photographs by anonymous photographers that capture everyday life in all of its joy banality and mystery Taken between 1930 and the mid 1960s these photographs most of them in black and white create an unpretentious portrait of suburban American life by untrained photographers whose images can be unexpectedly lyrical and moving Complementing the photographs is an essay by noted Southern California writer D J Waldie The snapshot Waldie writes depending on who s doing the looking is horrifying hilarious pointless or suffused with yearning Waldie speculates on the meanings and implications of the snapshots in this book and of snapshots generally which he sees as expressions of the hunger of memory

Memory and the Built Environment in 20th-Century American

Literature Alice Levick, 2021-05-20 From the paving of the Los Angeles River in 1938 and the creation of the G I Bill in 1944 to the construction of the Interstate Highway System during the late 1950s and the brownstoning movement of the 1970s throughout the mid 20th century the United States saw a wave of changes that had an enduring impact on the development of urban spaces Focusing on the relationship between processes of demolition and restoration as they have shaped the modern built environment and the processes by which memory is constructed hidden or remade in the literary text this book explores the ways in which history becomes entangled with the urban space in which it plays out Alice Levick takes stock of this history both in the form of its externalised concretised manifestation and its more symbolic representation as depicted in the mid 20th century work of a selection of American writers Calling upon access to archival material and interviews with New York academics authors local historians and urban planners this book locates Freud's Uncanny in the cracks between the absent and present invisible and visible memory and history as they are presented in city narratives demonstrating both the passage of time and the imposition of 20th century modernism With reference to the works of D J Waldie Joan Didion Hisaye Yamamoto Raymond Chandler Marshall Berman Gil Cuadros Paule Marshall L J Davis and Paula Fox Memory and the Built Environment in 20th Century American Literature unpacks how time becomes visible in Los Angeles Sacramento Lakewood and New York in the decades just before and after the Second World War questioning how these spaces provide access to the past in both narrative and spatial forms and how at times this access is blocked *Five Shades of Shadow* Tracy Daugherty, 2003-01-01 A collection of essays by the novelist and short story writer takes readers into the heart of the American West in search answers of place and character hope and grief as he explores the destruction and rebuilding of community in America past and present Winner of the 2002 River Teeth Literary Nonfiction Prize Literature

postwar suburbia and the fulfillment of the American Dream Begun in 1952 after the completion of an identically named community on Long Island the second Levittown soon eclipsed its New York counterpart in scale and ambition yet it continues to live in the shadow of its better known sister and has received limited scholarly attention Second Suburb uncovers the unique story of Levittown Pennsylvania and its significance to American social architectural environmental and political history The volume offers a fascinating profile of this planned community in two parts The first examines Levittown from the inside including oral histories of residents recalling how Levittown shaped their lives One such reminiscence is by Daisy Myers part of the first African American family to move to the community only to become the targets of a race riot that would receive international publicity The book also includes selections from the syndicated comic strip Zippy the Pinhead in which Bill Griffith reflects on the angst ridden trials of growing up in a Levittown and an extensive photo essay of neighborhood homes schools churches parks and swimming pools collected by Dianne Harris The second part of the book views Levittown from the outside Contributors consider the community s place in planning and architectural history and the Levitts strategies for the mass production of housing Other chapters address the class stratification of neighborhood sections through price structuring individual attempts to personalize a home s form and space as a representation of class and identity the builders focus on the kitchen as the centerpiece of the home and its greatest selling point the community s environmental and ecological legacy racist and exclusionary sales policies resident activism during the gas riots of 1979 and America s lost Eden Bringing together some of the top scholars in architectural history American studies and landscape studies Second Suburb explores the surprisingly rich interplay of design technology and social response that marks the emergence and maturation of an exceptionally potent rendition of the American Dream

Creating the American West
Derek R. Everett, 2014-05-27

Boundaries lines imposed on the landscape shape our lives dictating everything from which candidates we vote for to what schools our children attend to the communities with which we identify In Creating the American West historian Derek R Everett examines the function of these internal lines in American history generally and in the West in particular Drawing lines to create states in the trans Mississippi West he points out imposed a specific form of political organization that made the West truly American Everett examines how settlers lobbied for boundaries and how politicians imposed them He examines the origins of boundary making in the United States from the colonial era through the Louisiana Purchase Case studies then explore the ethnic sectional political and economic angles of boundaries Everett first examines the boundaries between Arkansas and its neighboring Native cultures and the pseudo war between Missouri and Iowa He then traces the lines splitting the Oregon Country and the states of California and Nevada and considers the ethnic and political consequences of the boundary between New Mexico and Colorado He explains the evolution of the line splitting the Dakotas and concludes with a discussion of ways in which state boundaries can contribute toward new interpretations of borderlands history A major theme in the history of state boundaries is the question of whether to use geometric or

geographic lines in other words lines corresponding to parallels and meridians or those fashioned by natural features With the distribution of western land Everett shows geography gave way to geometry and transformed the West The end of boundary making in the late nineteenth century is not the end of the story however These lines continue to complicate a host of issues including water rights taxes political representation and immigration Creating the American West shows how the past continues to shape the present **In Search of the Mexican Beverly Hills** Jerry González, 2017-11-15 Residential and industrial sprawl changed more than the political landscape of postwar Los Angeles It expanded the employment and living opportunities for millions of Angelinos into new suburbs In Search of the Mexican Beverly Hills examines the struggle for inclusion into this exclusive world a multilayered process by which Mexican Americans moved out of the barrios and emerged as a majority population in the San Gabriel Valley and the impact that movement had on collective racial and class identity Contrary to the assimilation processes experienced by most Euro Americans Mexican Americans did not graduate to whiteness on the basis of their suburban residence Rather In Search of the Mexican Beverly Hills illuminates how Mexican American racial and class identity were both reinforced by and took on added metropolitan and transnational dimensions in the city during the second half of the twentieth century
