Including studies on different topical issues in finance by the participants of the 8th international scientific conference New Challenges of Economic and Business Development 2016 this new work contains research from various European countries specifically Germany Italy Latvia Malta and Poland Developing Sustainable Supply Chains to Drive Value Robert P. Sroufe, 2013-10-07 As we enter the 21st Century we find ourselves faced by two major developments The first is emergence of the supply chain as a critical strategic and tactical weapon As has been pointed out by many researchers with the emergence of the supply chain the unit of competition has shifted from the firm to the supply chain However with the advent of the supply chain it is important to recognize that we have to view strategic objectives within a context that stresses not simply the internal operations of the firm but also the elements of the supply chain elements that include the supplier base customers logistics linkages and relationships both visible and virtual We are now coming to realize that the supply chain is no stronger than its weakest link The second development is that of sustainability This is more than simply being environmentally responsible Rather it is overall sustainability as measured in terms of the firm's ability to reduce waste improve profitability generating strategic competitive advantages and ensure that it treats its employees well Sustainability is increasingly becoming at a minimum an expectation and a requirement for doing business i.e. an order qualifier and under many conditions something that differentiates firms and makes them more attractive to potential critical consumers i.e. an order winner These two developments while often treated as separate entities are interrelated It is this interrelationship that forms the major focus and thrust of this book This book presents the reader with an integrated business oriented treatment of sustainable supply chain management that explores why it is no longer enough for a firm to focus on sustainability within the four walls of the firm Rather in today's environment sustainability must involve the supply chain in a deliberate and integrated fashion To succeed with sustainability a firm must ensure that this outcome is not only present within the firm but is also present within the supply chain As the book will show the market and consumers will punish those firms that promise sustainability but are not able to deliver on this promise because of problems in the supply chain Commercial due diligence Ralph Niederdrenk, Matthias Müller, 2012 Im Unterschied zu anderen Formen der Due Diligence prft allein die Commercial Due Diligence umfassend die Zukunftsaussichten einer Zielgesellschaft Nur sie prft die strategische Logik von Transaktionen und damit auch den Wandel des externen Unternehmensumfeldes sowie den Einfluss auf Geschäftsmodell und Unternehmensplanung Ralph Niederdrenk und Matthias Müller stellen die Inhalte und Methoden der Commercial Due Diligence unter Praxisaspekten dar Dabei wird insbesondere die vom Markt geforderte Quantifizierung strategischer Analysen in den Mittelpunkt gestellt Nach einer Einordnung der Commercial Due Dilligence in den Transaktionskontext erfolgt eine ausführliche Diskussion der Analyseinhalte Die Darstellung der technischen Aspekte bei der Durchführung der Prüfung und von immer wieder auftretenden Spezialproblemen runden das Buch ab *Global Mergers and Acquisitions* Abdol S. Soofi, Yuqin Zhang, 2018-03-19 This book primarily deals with corporate restructuring through mergers and acquisitions M

As It critically examines all functions that must be performed in completing an M A transaction Domestic and crossborder M A s are very similar in many respects even though differences between them also exist The book includes discussions of international finance and multinational financial management the topics that arise in cross border M A transactions Given the increasing importance of China as the second largest economy in the world and Chinese companies growing merger and acquisition M A activities globally we devote the last two chapters of the book to China s outward foreign direct investment and cross border M A activities Moreover the second volume includes the case studies regarding Chinese foreign direct investment both in Greenfield and acquisition forms give additional insights into challenging tasks of due diligence and post merger cultural integration that foreign investors face The M A literature is a fragmented field of inquiry This book brings together important practical insights from this vast literature in a short but cohesive form that has high managerial relevance
