Public Service and Good Governance for the Twenty-First Century James L. Perry, 2020-05-01 Expert analysis of American governance challenges and recommendations for reform Two big ideas serve as the catalyst for the essays collected in this book The first is the state of governance in the United States which Americans variously perceive as broken frustrating and unresponsive Editor James Perry observes in his Introduction that this perception is rooted in three simultaneous developments government's failure to perform basic tasks that once were taken for granted an accelerating pace of change that quickly makes past standards of performance antiquated and a dearth of intellectual capital that generate the capacity to bridge the gulf between expectations and performance The second idea harkens back to the Progressive era when Americans revealed themselves to be committed to better administration of their government at all levels federal state and local These two ideas the diminishing capacity for effective governance and Americans' expectations for reform are veering in opposite directions Contributors to *Public Service and Good Governance for the Twenty-First Century* explore these central ideas by addressing such questions as what is the state of government today Can future disruptions of governance and public service be anticipated What forms of government will emerge from the past and what institutions and structures will be needed to meet future challenges And lastly and perhaps most importantly what knowledge skills and abilities will need to be fostered for tomorrow's civil servants to lead and execute effectively *Public Service and Good Governance for the Twenty-First Century* offers recommendations for bending the trajectories of governance capacity and reform expectations toward convergence including reversing the trend

of administrative disinvestment developing talent for public leadership through higher education creating a federal civil service to meet future needs and rebuilding bipartisanship so that the sweeping changes needed to restore good government become possible Contributors Sheila Bair William W Bradley John J DiIulio Jr Angela Evans Francis Fukuyama Donald F Kettl Ramayya Krishnan Paul C Light Shelley Metzenbaum Norman J Ornstein James L Perry Norma M Riccucci Paul R Verkuil Paul A Volcker
