Kaplan, Heléne Lööw, 2002-07-31 In 1999 a seemingly incongruous collection of protestors converged in Seattle to shut down the meetings of the World Trade Organization Union leaders environmentalists dressed as endangered turtles mainstream Christian clergy violence advocating anarchists gay and lesbian activists and many other diverse groups came together to protest what they saw as the unfair power of a nondemocratic elite But how did such strange bedfellows come together And can their unity continue In 1972 another period of social upheaval sociologist Colin Campbell posited a cultic milieu An underground region where true seekers test hidden forgotten and forbidden knowledge Ideas and allegiances within the milieu change as individuals move between loosely organized groups but the larger milieu persists in opposition to the dominant culture Jeffrey Kaplan and Helene Loow find Campbell's theory especially useful in coming to grips with the varied oppositional groups of today While the issues differ current subcultures often behave in similar ways to deviant groups of the past The Cultic Milieu brings together scholars looking at racial religious and environmental oppositional groups as well as looking at the watchdog groups that oppose these groups in turn While providing fascinating information on their own subjects each essay contributes to a

larger understanding of our present day cultic milieu For classes in the social sciences or religious studies The Cultic Milieu offers a novel way to look at the interactions and ideas of those who fight against the powerful in our global age **Cults** Max Cutler,2022-07-12 Mystery Manipulation Murder Cults are associated with all of these But what really goes on inside them More specifically what goes on inside the minds of cult leaders and the people who join them Based on the hit podcast Cults this is essential reading for any true crime fan Cults prey on the very attributes that make us human our desire to belong to find a deeper meaning in life to live everyday with divine purpose Their existence creates a sense that any one of us at any time could step off the cliff s edge and fall into that daunting abyss of manipulation and unhinged dedication to a misplaced cause Perhaps it s this mindset that keeps us so utterly obsessed and desperate to learn more or it s that the stories are so bizarre and unsettling that we are simply in awe of the mechanics that make these infamous groups tick The premier storytelling podcast studio Parcast has been focusing on unearthing these mechanics the cult leaders and followers and the world and culture that gave birth to both Parcast s work in analyzing dozens of case studies has revealed patterns distinct ways that cult leaders from different generations resemble one another What links the ten notorious figures profiled in Cults are as disturbing as they are stunning from Manson to Applewhite Koresh to Ra l the stories woven here are both spellbinding and disturbing Cults is more than just a compilation of grisly biographies however In these pages Parcast s founder Max Cutler and national bestselling author Kevin Conley look closely at the lives of some of the most disreputable cult figures and tell the stories of their rise to power and fall from grace sanity and decency Beyond that it is a study of humanity an unflinching look at what happens when the most vulnerable recesses of the mind are manipulated and how the things we hold most sacred can be twisted into the lowest form of malevolence Leaders Who Transform Society: Micha Popper,2005-10-30 In this wide ranging historical exploration of transformational leadership Popper examines why followers are influenced by leaders and what psychological dynamics exist between leaders and their subordinates and in the process redefines the phenomenon of leadership Exploring the emotional connections that bind charismatic leaders and those who support them he contends that this multifaceted relationship is based on reciprocal need By focusing on prominent figures throughout history who have altered the lives of their followers in profound ways Popper shows how these leaders reinvented and disseminated value systems for good e g Nelson Mandela but often for ill e g Hitler Whether the influence of a charismatic leader is destructive and negative or constructive and positively transformative this intriguing work argues that the reciprocal process that takes place between leader and follower as well as key formative events in the lives of leaders are surprisingly similar Using such famous and infamous leaders as Mahatma Gandhi Nelson Madela Franklin Delano Roosevelt Hitler Charles Manson and Jim Jones Popper defines and explores three types of leader follower relationships Regressive relationships which are characterized by mutual dependence Symbolic relationships which are rooted in symbolic meaning Developmental transformational relationships which permit positive moral and emotional development **The Boy Nevada**
