Manual De Direito Constitucional By Jorge Bacelar Gouveia:

Manual de direito constitucional Jorge Bacelar Gouveia, 2005 Numa altura em que a globalizacao conhece passos acelerados nao so na integracao politico juridica como na aproximacao entre culturas e civilizacoes cabe aos Estados um papel primordial porventura imprevisto de conservacao das identidades dos povos **The Routledge International Handbook of Religious Education** Derek Davis, Elena Mikhailovna Miroshnikova, 2013 How and what to teach about religion is controversial in every country The Routledge International Handbook of Religious Education is the first book to comprehensively address the range of ways that major countries around the world teach religion in public and private educational institutions It discusses how three models in particular seem to dominate the landscape Countries with strong cultural traditions focused on a majority religion tend to adopt an identification model where instruction is provided only in the tenets of the majority religion often to the detriment of other religions and their adherents Countries with traditions that differentiate church and state tend to adopt a separation model thus either offering instruction in a wide range of religions or in some cases teaching very little about religion intentionally leaving it to religious institutions and the home setting to provide religious instruction Still other countries attempt managed pluralism in which neither one nor many but rather a limited handful of major religious traditions are taught Inevitably there are countries which do not fit any of these dominant models and the range of methods touched upon in this book will surprise even the most enlightened reader Religious instruction by educational institutions in 53 countries and regions of the world are explored by experts native to each country These chapters discuss Legal parameters in terms of subjective versus objective instruction in religion Constitutional statutory social and political contexts to religious approaches Distinctions between the kinds of instruction permitted in elementary and secondary schools versus what is allowed in institutions of higher learning Regional assessments which provide a welcome overview and comparison This comprehensive and authoritative volume will appeal to educators scholars religious leaders politicians and others interested in how religion and education interface around the world *The Influence of the United States of America on Reaffirming the Principle of Equality in Portuguese* Guilherme Machado Dray, 2017-03-01 The principle of equality and non discrimination is part of the democratic ideal and is currently accepted as a minimum standard throughout the mainstream Western culture This book tends to highlight something that is often forgotten the role played by the United States of America in the universal reaffirmation of the principle of equality The struggle for equal rights is part of the United States history From the 1776 Declaration of Independence to the 1964 Civil Rights Act the path taken was always progressive and evolutionary so much so that it can be said that equality and non discrimination on one hand and social mobility on the other hand are part of the American Way of Life and the American Dream The present book also contains a description of the legal framework regarding equality in access to employment in Portuguese speaking countries The author concludes that despite the differences that typically exist between the legal systems of Common Law in which the

United States of America are included and the Roman Germanic systems in which the Portuguese speaking countries are included in some areas they intersect and said differences are blurred namely regarding equality and non discrimination in accessing employment This book is useful both to law and legal markers lawyers and law students from the two legal systems For the Portuguese it is an opportunity to understand the role played by U S case law in addressing this subject for the Americans it can provide knowledge about the principle of equal access to employment applied in Portuguese speaking countries across four different continents including Portugal Europe Brazil South America Angola Africa and East Timor Asia

Constitutional Change and Constitutionalism in Africa ,2025-05-16 The new generation of African constitutions crafted in the 1990s marked the beginning of a trend that promised a radical transformation of the continent s governance landscape This movement aimed to eliminate the risks of coups and political instability that had plagued Africa since the 1960s by embedding democracy and constitutionalism However the wave of constitutional reforms post 1990s seems to have sparked a contagious fever of making unmaking and remaking constitutions The nature and frequency of these changes threaten to undermine the progress made in entrenching a culture of constitutionalism good governance and respect for the rule of law It is therefore no surprise that there is almost universal agreement that Africa is now facing a profound crisis of democracy and constitutionalism *Constitutional Change and Constitutionalism in Africa* examines the nature and extent of these changes which have been occurring more frequently and sometimes more arbitrarily than anticipated Among the main questions investigated are the constitution making process and the roles of various internal actors such as the legislature executive and judiciary as well as external actors like the African Union and Regional Economic Communities in the different processes of constitutional change Ultimately the discussions aim to explore how the processes of constitutional change whether inevitable and unavoidable or contrived can be conducted in a manner that does not undermine or threaten the efforts to entrench democracy constitutionalism good governance and respect for the rule of law on the African continent State and Church in the European Union Gerhard Robbers,2019-09-24 Im Prozess der europ ischen Einigung kommt den Kirchen als wesentlicher Bestandteil der europ ischen Kultur eine besondere Bedeutung zu Ein Europa das den gemeinsamen Verfassungsberlieferungen den Traditionen und Kulturen der Mitgliedstaaten ihrer nationalen Identit t und dem Grundsatz der Subsidiarit t verpflichtet ist wird das gewachsene Staatskirchenrecht seiner Mitgliedstaaten zu respektieren haben Die 2 Auflage bietet einen umfassenden Vergleich der unterschiedlichen staatskirchenrechtlichen Systeme in den Mitgliedstaaten der Europ ischen Union Der Sammelband ber cksichtigt auch die neuen Mitgliedslander und beschreibt europaweite Entwicklungen Er macht deutlich wie sich die europ ische Integration auf die Stellung der Kirchen auswirkt Das Werk ist f r jeden der im Staatskirchenrecht arbeitet aber auch f r staatliche und kirchliche Institutionen von Interesse Das Buch ist in Zusammenarbeit mit dem Europ ischen Konsortium f r Staat Kirche Forschung entstanden Die Autoren f hrende Staatskirchenrechtler aus den verschiedenen Mitgliedstaaten der EU erl utern die religionsverfassungsrechtlichen Systeme
