Losing Faith In Faith From Preacher To Atheist:

Losing Faith in Faith Dan Barker, 2006 *Losing Faith in Faith* records Dan Barker's dramatic journey from devout soul winner to one of America's most prominent freethinkers. Following his calling at age 15, Dan Barker worked as a missionary, ordained minister, associate pastor, touring evangelist, Christian songwriter, performer, and record producer. After preaching for 19 years, Barker lost faith in faith. Throwing out the bath water, he discovered there is no baby there. Today, Barker, co-president of the Freedom From Religion Foundation Inc (www.ffrf.org), frequently represents freethought on the talkshow circuit and at personal appearances, concerts, and debates around the country, turning his experience as a former minister into ammunition against superstition and irrationality. In *Losing Faith in Faith*, Barker explains why he left the ministry. He also offers a definitive, compelling analysis of why he rejects belief in a god and the claims of religion. He explores the fallacies, inconsistencies, and harm of Christian doctrine and theistic dogma. In its place, he issues an appealing and compassionate invocation of freethought, reason, and humanism. *Losing Faith in Faith* is both a challenge to believers and an arsenal for skeptics.

Faith of Atheists vs Christians David Lewis, 2019-03-01 You fall and break your leg, the kitchen catches fire, neighbor Sam has a heart attack, one of your family crashes the car now, what belief helps you through the crisis? What faith do you have as a cane or crutch to guide you? Let us consider your faith possibilities such as friends or organizations or scientific concepts like gravity or evolution as the faith to sustain you. A Christian friend shares his faith that Christ came back from death and his belief in a Creator and the miracle of a virgin birth. But what as an atheist can guide and support you? There are hundreds of thousands of atheists in the world so we all probably meet and talk with and write to many each day. One purpose of this work is to better understand what faiths atheists have so as to get along better with one another, especially with those having different beliefs. We will look at some famous atheists and review what influenced them and what changed for some of them as they matured into adults from childhood. We will make some comparisons between atheists and those calling themselves Christians.

The Rise and Fall of Faith Drew Bekius, 2017 The story of religion in the twenty-first century West has been defined in part by the stories of once zealous pastors moving beyond their faith to embrace a life of reason. But too often and too quickly, ardent believers dismiss such accounts as aberrations and fail to consider the real-life implications for those who make this transition. Atheists and other skeptics meanwhile struggle to understand what took these individuals so long to make such a journey and why others aren't lining up more quickly to do the same. As a result, the questions posed by one side inevitably mirror those asked by the other: Why do believers trust in God the way they do? But what factors lead atheists to dismiss religious beliefs so easily? How can believers have faith in the face of known science and history? But what allows anyone to be so sure their beliefs are based in reality? What would it take for believers to stop believing in God? But what would it take for nonbelievers to start to believe? Drawing on the author's own story as a former evangelical pastor powerless to stop his turn to atheism, *The Rise and Fall of Faith* touches on these and

other questions inviting readers into a long overdue conversation between Christians and atheists While the aim of the book is to initiate this much needed discussion the author encourages all who care about the future of humanity to carry the dialogue forward whether in the evaluation of our own inner thoughts in the assumptions we make about the other side or in how we work together in the pursuit of understanding and common ground as we navigate the world s ever changing and increasingly challenging religious and cultural landscape

Cross Examined John W. Campbell, 2021-09-15 Christianity is more than just a religion It is a social organism that affects the lives of every person on earth in significant ways even if they are not Christians themselves In the United States its influence is pervasive with often profound influence on public policies but it is largely unchallenged as a belief system relegated to that quarantined area outside the zone of polite conversation Despite much academic ink being allotted to the weaknesses of Christianity as a valid belief system the general public remains unaware of these flaws In Cross Examined John Campbell applies his almost thirty years of experience as a trial lawyer to dissecting Christianity and the case of apologists for the Christian God He addresses the best arguments for Christianity those against it and the reasons people should care about these questions His purpose is to fill a void in books on atheism and Christianity by systematically taking Christian claims to task and making a full throated argument for atheism from the perspective of a trial lawyer making a case

Women v. Religion Karen L. Garst, 2018-06-01 Throughout history religion has been used as a tool of female subjugation Women have been deemed less worthy than men have been prevented from owning property and worse all in the name of a higher power In recent decades women have made progress in terms of equal rights with men at least in Western democracies but still why has the United States never had a female president Why aren't more women heads of Fortune 500 companies Why do politicians in the West continue to attack women's reproductive rights As this volume explores it would be hard to find a bigger culprit than religion when identifying the last cultural barriers to full gender equality With topics ranging from the subjugation of women in the Bible to the shame and guilt felt by women due to religious teaching this volume makes clear that only by rejecting the very system that limits their autonomy will women be fully liberated from its malignant influences not just in codified law but also in cultural practice
