Privatization in Turkey Ahmet Zafer, 2022-06-27 In *Privatization in Turkey* Power Bloc Capital Accumulation and State Ahmet Zafer offers a rare look on privatization in Turkey that involves all three historical periods of Turkish privatization process 1980s and 1990s 2000s and 2010s and covers different forms of privatization from divestiture to public private partnership Benefiting from theoretically informed qualitative research spanning nearly a decade that has involved several interviews with key informant groups extensive review of newspaper articles and detailed analysis of annual reports of businesses Ahmet Zafer convincingly proves that the acceleration of privatization in Turkey has not only provided advantages to so called favourable capital groups and the government elites but also consolidated the position of Capital in General at the expense of labouring popular classes and the natural environment of the entire country **April 2024 -**
