

Chapter 5 Textbook Solutions

1. Which demand curve represents the marginal private benefit of cough medicine? What is the market equilibrium?

Marginal private benefits, because they do not reflect the benefits of the positive externality, are lower than the marginal social benefits. D_1 is the MPB curve.

Equilibrium (Q, P) is $(20, \$11)$.

2. What is the value of consumer surplus at market equilibrium?

Consumer surplus, CS, is the area under the demand curve above the market equilibrium price. $CS = 0.5(18 - 11)(20) = \70 .

3. What is the value of producer surplus at market equilibrium?

Producer surplus, PS, is the area under the market equilibrium price above the supply curve. $PS = 0.5(11 - 7)(20) = \$40$.

4. What is the cost of the externality per bottle of cough medicine?

The cost per bottle of cough medicine is the vertical distance between the MPB curve and D_2 (which must be the MSB curve because it's higher and reflects higher value that includes the benefits of lower risk of catching something): \$3.00 per bottle sold.

5. What is the socially optimal number and price of cough medicine?

The socially optimal equilibrium occurs at $(Q, P) = (24, \$12.00)$.

6. What is the deadweight loss due to the externality?

$DWL = 0.5(3)(4) = \$6$.

Introductory Macroeconomics Michael Veseth, 2014-05-10
Introductory Macroeconomics Second Edition deals with national economic issues such as unemployment inflation the aggregate demand aggregate supply model of macroeconomics government economic policy exchange rates international trade and finance The book examines national economic problems economic goals the role markets play in the economy price control unemployment and inflation By using the Phillips curve trade off the text notes that inflation increases the demand for labor In the long term according to the long run Phillips curve increased inflation does not actually lessen unemployment levels known as the natural unemployment rate hypothesis The text also examines whether minimum wage laws are necessary to fight poverty prevent exploitation or cause poverty in which the imposition of minimum wage results in lower demand for unskilled labor The book notes that politics and unions favor minimum wage laws The poor uneducated and unskilled laborers are left out The text also tackles goals and trade offs for example that economic growth suffers from both inflation and unemployment or the trade off that preventing unemployment only results in worse inflation problems Economists sociologists professors in economics or policy makers involved in economic and social development will find the text valuable

empirical methods of causal inference that contemporary macroeconomists have at their disposal and the conceptions of scientific objectivity that traditionally play a role in economics The book argues that contemporary macroeconomists cannot provide any conclusive evidence in support of causal hypotheses and that macroeconomic policy analysis doesn't qualify as scientifically objective in any of the traditional meanings The book also considers a number of steps that might have to be taken in order for macroeconomic policy analysis to become more objective The book addresses philosophers of science and economics as well as macro economists econometricians and statisticians who are interested in causality and macro econometric methods of causal inference and their wider philosophical and social context

A Macroeconomics Model and Stabilisation Policies for the OPEC Countries A. Khalik Salman, 2019-06-26 First published in 1999 this book focuses on the macroeconomics issues which directly affect OPEC countries aiming to set them in the context of the overall development effort The most extant theoretical and empirical aspects in macroeconomics are integrated smoothly with institutional issues and policy questions The analysis is illustrated through examples to show how the theories relate to the real world especially to ongoing debates on developing economies as well as debates that encompass both developing and OPEC and developed countries
