

The background of the book cover is a vibrant, abstract painting. It features a complex composition of figures and shapes in a variety of colors including yellow, blue, green, red, and purple. The style is reminiscent of mid-20th-century modernism, with bold outlines and a sense of movement. In the upper half, a large yellow figure is prominent, while the lower half shows more fragmented, colorful forms. The overall effect is one of dynamic energy and emotional intensity.

This book is primarily an effort to study the phenomenon called insurgency that has been posing a huge challenge to the internal security of the country. Though a wealth of literature on the subject already exists, a need was felt to analyse the multiple facets of insurgency as no country barring India has witnessed this endemic for a prolonged period. The subject is so vast and dynamic that no strait jacketed solution can be prescribed to curb this menace overnight. However, an attempt has been made to analyse this phenomenon and prescribe remedial antidotes. The author has attempted to capture the origin of insurgency which dates back to a late 18th century and study various causes and numerous factors that fuel it. In addition, he has also attempted to study the doctrines and strategies with special emphasis on both Islamic insurgency and other forms of uprisings in the country that continue to pose challenges to the Indian security environment. Owing allegiance to his uniform, the author has also attempted to bring out the role of air power in counterinsurgency operations. The penultimate chapter deals with shaping a viable counterinsurgency strategy and spells out the essential parameters, principles and pitfalls of such a strategy. The chapter also dwells on the political aim and the importance of a socio-economic turnabout to scale down insurgency. The use of calibrated force rather than brutal armed suppressive methods is advocated. Will insurgencies ever end? This lingering question is discussed in the final chapter, and certain essential strategies, both military and non-military, are spelt out which would provide occasions and opportunities to forge a lasting solution to insurgency in India. India have been locked in a monumental battle for geopolitical supremacy. Chinese interest in the ethnic insurgencies in northeastern India, the still unresolved issue of the McMahon Line, the border established by the British imperial government, and competition for strategic access to the Indian Ocean have given rise to tense gamesmanship, political intrigue and rivalry between the two Asian giants. Former Far Eastern Economic Review correspondent Bertil Lintner has drawn from his extensive personal interviews with insurgency leaders and civilians in remote tribal areas in northeastern India, newly declassified intelligence reports, and his many years of firsthand experience in Asia to chronicle this ongoing struggle. His history of the Great Game East is the first significant account of a regional conflict which has led to open warfare on several occasions, most notably the Sino-India border war of 1962, and will have a major impact on global affairs in the decades ahead.

Hubris, Self-Interest, and America's Failed War in Afghanistan Thomas P. Cavanaugh, 2015-07-22 This book describes the conduct of the US led post 9 11 war in Afghanistan Adopting a long term perspective it argues that even though Washington initially had an opportunity to achieve its security goals and give Afghanistan a chance to enter a new era it compromised any possibility of success from the very moment it let bin Laden escape to Pakistan in December 2001 and found itself locked in a strategic overreach Given the bureaucratic and rhetorical momentum triggered by the war on terror in America the Bush Administration was bound to deploy more resources in Afghanistan sooner or later despite its focus on Iraq The need to satisfy unfulfilled counter terrorism objectives made the US dependent on Afghanistan's warlords which compromised the country's stability and tarnished its new political system The extension of the US military presence made Washington lose its leverage on the Pakistan army leaders who aware of America's logistical dependency on Islamabad supported the Afghan insurgents their historical proxies more and more openly The extension of the war also contributed to radicalize segments of the Afghan and Pakistani populations destabilizing the area further In the meantime the need to justify

the extension of its military presence influenced the US led coalition into proclaiming its determination to democratize and reconstruct Afghanistan While highly opportunistic the emergence of these policies proved both self defeating and unsustainable due to an inescapable collision between the US led coalition s inherent self interest hubris limited knowledge limited attention span and limited resources and on the other hand Afghanistan s inherent complexity As the critical contradictions at the very heart of the campaign increased with the extension of the latter s duration scale and cost America s leaders entrapped in path dependence lost their strategic flexibility Despite debates on troops resource allocation and more sophisticated doctrines they repeated the same structural mistakes over and over again The strategic overreach became self sustaining until its costs became intolerable leading to a drawdown which has more to do with a pervasive sense of failure than with the accomplishment of any noble purpose or strategic breakthrough *Business India* ,2005
