It delves into contemporary topics from which focused research models, ideas, and questions can be developed and tested. HRM and OB are closely related and intersect each other in the examination of practices which are aimed at managing employees and explaining their behaviors. Proposing to provide researchers with easy access to a slew of contemporary research advancements within the field, this work explores ten contemporary research areas within HRM and OB. Topics include innovative HRM/OB responses in crises, alternative work arrangements for the contemporary workplace, employee mental health, from diversity to inclusion in the workplace, workplace harassment, HRM in small and medium enterprises, alternative perspectives in employee turnover, organizational citizenship, and counterproductive work behaviors leading for work engagement and employee motivation in a changing environment. Providing researchers with a comprehensive overview of research advances within selected contemporary areas, this book seeks to spur critical thinking, spark alternative research perspectives, innovate extensions to existing theories, and provide the foundation from which focused research can grow and develop within these management fields. *Gender-Based Violence in the Global South* Ramona Biholar, Dacia L. Leslie, 2024-02-26 This book amplifies the different voices and experiences of those facing gender-based violence (GBV) in the Global South. It explores the localised ways in which marginalised individuals design modes of coping with and address GBV, including cultural interpretations and artistic and faith-based expressions. The book examines GBV triggers, prevalence, and societal impacts while referring to community, national, and regional mobilisation to deal with the phenomenon in its various manifestations, including physical, psychological, political, domestic, and public violence. It explores issues related to women's negotiations with the patriarchal underpinnings of GBV, the role of the law and history in the perpetuation of GBV, the complementary role of culture and faith to legal protection against GBV, and access to justice for women and girls. In doing so, the book exposes understandings and expressions of GBV as well as methodologies and indigenous initiatives to prevent it through local, viable solutions. The book thus challenges the normalisation of GBV in the Global South. Providing concrete and culturally relevant suggestions for challenging ingrained models of gender understandings of violence in the Global South, this book will be of interest to academics in the fields of Development Studies, Gender Studies, Women's Studies, Violence and
