People Of The Valley The Concow Maidu:

People of the Valley Don Marquis Chase, 1973 The Concow and Maidu Indians lived on the east side of the Sacramento Valley between the Sutter Buttes and present day Chico in Butte County P 5 Browns Valley Roberta Sperbeck D'Arcy, 2012 Originally known as Little Washoe after the Nevada gold strike of the same name the town of Browns Valley began on a spring day in 1850 Its gold was discovered when a hay cutter s newly purchased scythe accidentally sliced into a quartz ridge which was laced with the precious metal Miners investors and tradesmen poured into the area to make their fortunes Churches stores hotels and saloons sprang up overnight to serve the growing community The Northern Maidu an indigenous tribe who lived on wild game acorns salmon and berries and who had preceded the gold seekers by thousands of years found that their lives changed forever Mines with names reflecting the owner s origins or states of mind such as the Pennsylvania the Dannebroke Sweet Vengeance the Rattlesnake and the Flag were among many that made millions from the 1850s to 1900 However many mines were forced to close because of increasing costs and the difficulty of mining operations

Slavery in the West Guy Nixon, 2011 The history of the West from the Natives perspective and the world wide forces affecting them are rarely found in our history books For the tribes in the West the history before the 1840 s is poorly understood and when taken out of context seems to make no sense to the casual reader In particular the history of the Natives in Northern California seems to be completely overlooked These people had a turbulent history prior to the Gold Rush of 1849 and while run over in the flood of immigration their history continued This fascinating part of our Nation s history and the context in which it occurred is the heart of this work **Indian Nations of North America** Anton Treuer, 2010 Categorized into eight geographical regions this encyclopedic reference examines the history beliefs traditions languages and lifestyles of indigenous peoples of North America Nontimber Forest Products in the United States Eric T. Jones, Rebecca Jean McLain, James F. Weigand, 2002 A quiet revolution is taking place in America s forests Once seen primarily as stands of timber our woodlands are now prized as a rich source of a wide range of commodities from wild mushrooms and maple sugar to hundreds of medicinal plants whose uses have only begun to be fully realized Now as timber harvesting becomes more mechanized and requires less labor the image of the lumberjack is being replaced by that of the forager This book provides the first comprehensive examination of nontimber forest products NTFPs in the United States illustrating their diverse importance describing the people who harvest them and outlining the steps that are being taken to ensure access to them As the first extensive national overview of NTFP policy and management specific to the United States it brings together research from numerous disciplines and analytical perspectives such as economics mycology history ecology law entomology forestry geography and anthropology in order to provide a cohesive picture of the current and potential role of NTFPs The contributors review the state of scientific knowledge of NTFPs by offering a survey of commercial and noncommercial products an overview of uses and users and discussions of sustainable management issues

associated with ecology cultural traditions forest policy and commerce They examine some of the major social economic and biological benefits of NTFPs while also addressing the potential negative consequences of NTFP harvesting on forest ecosystems and on NTFP species populations Within this wealth of information are rich accounts of NTFP use drawn from all parts of the American landscape from the Pacific Northwest to the Caribbean From honey production to a review of nontimber forest economies still active in the United States such as the Ojibway harvest of plants recounted here the book takes in the whole breadth of recent NTFP issues including ecological concerns associated with the expansion of NTFP markets and NTFP tenure issues on federally managed lands No other volume offers such a comprehensive overview of NTFPs in North America By examining all aspects of these products it contributes to the development of more sophisticated policy and management frameworks for not only ensuring their ongoing use but also protecting the future of our forests
