Keep an Eye on the Sky!

The writer sets the scene and makes the reader want to read more.

I was in gym class when my teacher suggested we go outside and play softball. As we made our way out to the field, my stomach slowly turned into a giant knot of fear.

The writer describes a problem he or she faced.

Softball is just not my game. I have a knack for always getting hit in the head by the ball. It doesn't matter where I'm standing. The ball just seems to find me.

My teammates gave me a glove and put me way out in left field. I didn't complain. I just wanted to make sure I knew when gym class ended so I wouldn't be left behind.

The writer gives details to help the reader form a picture of the events.

Nothing happened the first three innings. Well, things happened but not in my little part of the softball field. I started daydreaming. The next thing I knew, I heard the sound of a ball whizzing through the air. I put up my glove to protect my head, and an amazing thing happened. I caught the ball in my glove! Not only did I catch the ball, but I helped my team to win.

I was a hero to my classmates for the rest of the day. And I learned something. I may not always see the flying balls that come my way, but I can always take a chance and try to catch one.

The writer gives his or her narrative a title.

The writer describes an experience that happened to him or her.

The writer describes his or her feelings about the situation.

The writer describes the events in the order in which they happened.

The writer ends his or her story by sharing what he or she learned from this experience.

Me-Search and Re-Search DeMethra LaSha Bradley, Robert Nash, 2011-03-01 From the Foreword Robert and DeMethra's book *Me Searching and Re Search* has caught my fancy in a number of ways. The book title cleverly captures what SPN is all about: it is about self narratives, the 'me search' part, and about scholarly meaning making, the 're search' part. This eye-catching title also illuminates the authors' intent to turn this seemingly intimidating method of self inquiry into something very accessible and doable. Their jargon-free language is friendly and inviting. Although they don't intend to make their many methodological tips and tools too prescriptive, their practical suggestions provided in this guide book are indeed helpful and useful. I believe that Robert and DeMethra have demonstrated admirable talents as effective educators by unpacking the complex method of SPN writing into bite-sized steps. I am fully convinced that the steps will help both novices and the experienced researcher to reach the ultimate height of producing engaging and scholarly significant SPN's. The book is also fun to read. The authors intersperse throughout their own SPN's pedagogical insights from their doing and teaching and real life stories in order to illustrate the methodological process challenges and triumphs.
