Postmodern Ethics, Emptiness, and Literature Jae-Seong Lee, 2017-07-15 This study advances contemporary postmodern poststructural critical theory literary criticism in particular with the help of Mah y na especially Ch an Seon Chinese and Korean Zen Buddhist thought The quest for the infinity of the Other West and Emptiness or the true I East contributes to the exploration of the contemporary critical issues of ethics and infinity Such an approach will awaken our sense of unrepresented genuine transcendence and immanence The Buddhist Emptiness shows us the absolute Other illuminated on a vaster scale The theory section explores and links Eastern and Western philosophies switching between the two While discussing in depth Hegel Nietzsche Heidegger Derrida Levinas Lacan Deleuze and Nancy this study gradually guides the reader from the contemporary Western thought on the Other and infinity to the Buddhist vision of Emptiness the ultimate reality To overcome the dualistic mode of thought inherent in tradition of Western metaphysics this exploration follows the line that observes N g rjuna and the imprint of Ch an teachings that are most prevalent in South Korean Buddhism The last three chapters demonstrate a Levinasian and Seon Buddhist approach to the book of Job part of the Judeo Christian Bible as being a more literary than religious text and the excess of the Gothic mood in the two most distinguished and widely celebrated novels Bram Stoker s Dracula and Mary Shelley s Frankenstein The three texts compel readers to confront the infinity of the absolute Other or Emptiness The Grand Prize Winner of the 7th Wonhyo Academic Awards from the Korean Buddhism Promotion Foundation

Confucian and Stoic Perspectives on Forgiveness Sean McAleer, 2022-09-28 Confucian and Stoic Perspectives on Forgiveness explores the absence of forgiveness in classical Confucianism and Roman Stoicism as well as the alternatives to forgiveness that these rich philosophical traditions offer After discussing forgiveness as it is understood in contemporary philosophy Sean McAleer explores Confucius vocabulary for and attitude toward anger and resentment arguing that Confucius does not object to anger but to its excesses While Confucius does not make room for forgiveness McAleer argues that Mencius cannot do so given the distinctive twist he gives to self examination in response to mistreatment Xunzi by contrast leaves open a door to forgiveness that Mencius bolted shut The book then proceeds to the Roman Stoics Musonius Rufus Epictetus Marcus Aurelius and Seneca arguing that their distinctive conceptions of value and wellbeing rule out forgiveness though like the Confucians the Stoics offer alternatives to forgiveness well worth considering The book ends by comparing the two traditions arguing that while Stoicism helps us navigate many of the turbulent waters of everyday life Confucianism enjoys advantages when we interact with those to whom we are bound by ties of affection and intimacy

Justice and Harmony Joshua Mason, 2022-08-16 Justice and harmony have long been two of the world's most treasured ideals but much of modern moral and political philosophy puts them on opposite sides of the divide between liberal theories of the right and communitarian theories of the good Joshua Mason argues that the encounter with their Chinese counterparts zhengyi and hexie can overcome this opposition revealing a pattern that reframes justice and harmony as mutually interdependent concepts in a three part framework of root harmony benhe harmonic justice heyi and just harmony zhenghe Broadly surveying the histories of western and Chinese moral and political philosophies Justice and Harmony Cross Cultural Ideals in Conflict and Cooperation explores our cross cultural conceptual inventories and develops a comparative framework that can overcome entrenched binary oppositions and reconcile these grand global values

Plantingian Religious Epistemology and World Religions Erik Baldwin, Tyler Dalton McNabb, 2018-11-29 To what extent can non Christian religious traditions utilize Plantinga's epistemology And if there are believers from differing religious traditions that can rightfully utilize Plantinga's religious epistemology does this somehow prevent a Plantingian's creedal specific religious belief from being warranted In order to answer these questions Baldwin and McNabb first provide an introduction to Plantinga's religious epistemology Second they explore the prospects and problems that members of non Christian religions face when they attempt to utilize Plantingian religious epistemology Finally they sketch out possible approaches to holding that a Plantingian's creedal specific religious belief can be warranted even given believers from other religious traditions who can also rightfully make full use of Plantinga's religious epistemology

Arts & Humanities Citation Index, 1997 *Philosophical Theology and East-West Dialogue*

Hisakazu Inagaki, J. Nelson Jennings, 2000 *Philosophical Theology and East West Dialogue* is a unique philosophical and theological analysis of certain key interactions between Eastern and Western thinkers. The book on the one hand contrasts general traits of Eastern Buddhist thought and Western Greek thought. However in doing so it focuses on influential philosophers and theologians who manifest particular instances of wider issues. The result is a careful examination of basic questions that offers both broad implications and concrete specificity in its approach. The book itself is an instance of East West dialogue. Independently of each other both authors had previously engaged in serious cross cultural studies. The Japanese Inagaki had researched Western science and philosophy then written in Japanese comparative studies of Japanese thought. The North American Jennings had researched Japanese theology. They brought these backgrounds together dialoguing with each other until the present study emerged. Several creative Japanese thinkers as well as important Westerners are taken up. The study follows the lead of many Eastern impulses but it also critically utilizes Western methods. Contemporary thinking on religious plurality is carefully examined. This new study is a must for those interested in philosophy and theology in general and East West interaction in particular.

Apophatic Paths from Europe to China William Franke, 2018-02-15. In *Apophatic Paths from Europe to China*. William Franke brings his original philosophy of the unsayable previously developed from Western sources such as ancient Neoplatonism, medieval mysticism and postmodern negative theology into dialogue with Eastern traditions of thought. In particular he compares the Daoist Way of Chinese wisdom with Western apophatic thought that likewise pivots on recognizing the nonexistent, the unthinkable and the unsayable. Leveraging François Jullien's exegesis of the Chinese classics challenge to rethink the very basis of life and consciousness, Franke proposes negative theology as an analogue to the Chinese model of thought which has long been recognized for its special attunement to silence at the limits of language. Crucial to Franke's agenda is the endeavor to discern and renew the claim of universality, rethought and reconfigured within the predicament of philosophy today considered specifically as a cultural or more exactly intercultural predicament.

Harmony and Strife Shuxian Liu, Robert Elliott Allinson, 1988. This volume is intended for professional philosophers and laymen with an interest in East West studies and comparative philosophy and religion. The central focus is the concept of comparing perspectives from both the Eastern and the Western philosophical traditions on harmony and strife. The unique and happy result is an East West anthology which is directed at analyzing a single philosophical problem which is of importance to both traditions. Unlike many anthologies which tend to be collections of isolated and unrelated essays, the Editors' focus on a single theme has resulted in a unified volume which maintains a high continuity of interest throughout. The Editors have carefully culled and organized essays from a select group of philosophers from the United States, West Germany, Japan, Australia, Beijing, Taipei and Hong Kong. Harmony and strife are analyzed as systematic concepts in Western philosophy, as parts of classical Chinese thought, as central concepts in Buddhism, as metaphysical concepts, as dialectical concepts and even as null concepts. The Editors have taken great care so that a

continuity and a coherence of presentation is achieved despite the striking variety of perspectives from which harmony and strife are analyzed. It is both unusual and important to have such a systematic and thorough investigation of a topic of paramount social and philosophical significance by some of the leading minds of the day. Besides the essays included are eminently readable. The volume is likely to become a standard work in this area for some years to come. **Oneness** Philip J. Ivanhoe, 2017-11-01. This work concerns the oneness hypothesis, the view found in different forms and across various disciplines that we and our welfare are inextricably intertwined with other people, creatures, and things, and its implications for conceptions of the self, virtue, and human happiness. **An Invitation to Dialogue Between East and West** O'Hyun Park, 2000-01. Comparative Journeys Anthony C. Yu, 2009. Yu's essays juxtapose Chinese and Western texts: Cratylus next to Xunzi, for example, and discuss their relationship to language and subjects such as liberal Greek education against general education in China. He compares a specific Western text and religion to a specific Chinese text and religion. He considers the *Divina Commedia* in the context of Catholic theology alongside *The Journey to the West* as it relates to Chinese syncretism united by the theme of pilgrimage. Yet Yu's focus isn't entirely tied to the classics. He also considers the struggle for human rights in China and how this topic relates to ancient Chinese social thought and modern notions of rights in the West.

Traversing the Middle Gavin Hyman, 2013-10-10. In recent philosophy, theology, and critical theory, postmodern thought has been much criticized on specifically ethical and political grounds. In particular, it has been argued that postmodernism has induced passivity and is impotent in the face of the challenges presented by the hegemonic global market. In response, numerous thinkers have called for the return of the metanarrative or have insisted on the necessity of the domain of the universal. In this book, Gavin Hyman accepts the diagnosis while contesting the cure. Through detailed engagements with the work of Alain Badiou, Slavoj Žižek, and John Milbank, as well as discussions of the work of Simon Critchley, Michael Hardt, and Antonio Negri, Hyman argues that many contemporary thinkers merely invert the problems intrinsic to postmodernism and therefore do not effectively escape them. He argues that the ethical and political are best preserved and perpetuated through the negotiating of an ongoing tension between the domains of the universal, the particular, and the singular. To proceed thus would be to traverse the terrain of the middle ethically, politically, and religiously. *God and the Other* J. Aaron Simmons, 2011-04-12. In this book, the author suggests how Continental philosophy of religion can intersect with political philosophy, environmental philosophy, and theories of knowledge. **From East to West** Roy Bhaskar, 2000. A radical resynthesis of aspects of Western and Eastern thought, this book is also a major new development in critical realism. *From East to West* is bound to stimulate debate in ontology, epistemology, ethics, political philosophy, and the philosophy of comparative religion.
