Meaning of Penology

Penology is the study of punishment of crime and prison management. The term penology derived from the Latin word 'Poena' which means "Pain or suffering" for the wrong doing. The word 'Penology' was given by Francis Lieber.

Definition

Oxford Dictionary

Penology is the study of the punishment of crime and prison management, and in this sense it is equivalent with corrections.

Three essentials of ideal penology

The punishment to be efficacious must include the combination of **deterrence, prevention and reformation** so that it prevents a future wrong besides bringing a change in the attitude of the offender through reformatory measures during the period of his incarceration. (borrow the idea from theories of punishment)

The Future of Tradition Leon Shaskolsky Sheleff,2013-09-05 Recent years have seen an increased interest in the variety of cultures co existing within one state and a growing acknowledgement of the values ensconced in pluralistic social structures this book examines the manner in which indigenous people can function in modern states preserving their traditional customs while simultaneously adapting aspects of their culture to the challenges posed by modern life Whereas it was formerly assumed that these tribal frameworks were doomed to extinction and some states even encouraged such a process there has been a revival in their vitality linked to a recognition of their rights The book offers a comprehensive survey of various aspects of tribal life focusing on political issues such as the meaning of sovereignty legal issues dealing with the role of custom and social issues concerned with sustaining communal life A focused study is made of a whole series of legal factors relating to possession and ownership of land religious rites the nature of polygamous marriages the assertion of group rites the manner of peacefully resolving disputes and allied questions Recent judicial decisions are analysed as a reflection of the far reaching changes that have taken place in a process that has seen the former disregard of basic rights of indigenous people being replaced by an awareness of the injustices perpetrated in the past and a willingness to seek to redress them The comparison between approaches of different English speaking countries provides an account of interwoven developments Criminology Larry J.
